

## Methodology

Uniform Crime Reporting (UCR) Programs gather crime information from the law enforcement agencies under their domain and forward the data to the FBI. All fifty states in the nation have their own UCR Programs that streamline the collection of UCR data from local law enforcement agencies, ensure consistency and comparability of data, and provide a higher quality of service to the law enforcement community. Establishment of a UCR Program is not limited to state governments. Territorial, tribal, and federal agencies may also institute UCR Programs.

On January 1, 2021, the FBI's UCR Program transitioned to a National Incident-Based Reporting System (NIBRS) only data collection. Since the transition, the FBI's UCR Program has worked diligently to offer resources such as programming and technical support, training, and outreach to law enforcement agencies. Despite more than 11,500 law enforcement agencies submitting NIBRS data, participation for 2021 remained below a statistically acceptable level to be nationally representative. To mitigate risks associated with low participation due to the NIBRS transition, the UCR Program published a limited release of the traditional *CIUS, 2021*, along with a trend study comparing 2020 and 2021 crime data using a selection of the new NIBRS estimation data. For the 2022 and 2023 data year, to provide nationally representative data, the FBI accepted Summary Reporting System (SRS) data submissions from non-transitioned agencies.

### Criteria for UCR Programs

The following are the standards under which a UCR Program must operate:

A UCR Program must conform to the FBI's UCR Program submission standards, definitions, specifications, and required deadlines.

A UCR Program must establish data integrity procedures and have personnel assigned to assist contributing agencies in quality assurance practices and crime reporting procedures. Data integrity procedures should include crime trend assessments, offense classification verification, and technical specification validation.

A UCR Program's submissions must cover more than 50 percent of the law enforcement agencies within its established reporting domain and be willing to cover any and all UCR-contributing agencies that wish to use the UCR Program from within its domain. (An agency wishing to become a UCR Program must be willing to report for all of the agencies within the state.)

A UCR Program must furnish the FBI's UCR Program with all of the UCR data collected by the law enforcement agencies within its domain.

These requirements do not prohibit the state from gathering other statistical data beyond the national collection.

### **Data completeness and quality**

In order to fulfill its responsibilities in connection with the UCR Program, the FBI edits and reviews individual agency data for both completeness and quality. Members of the national program's staff contact state UCR Programs in connection with crime-reporting matters and, as necessary, when approved by the state, individual contributors. Upon request, staff members conduct training programs within the state on law enforcement record-keeping and crime-reporting procedures. Following audit standards established by the federal government, the FBI conducts an audit of each state's UCR data collection procedures once every 3 years. Should circumstances develop whereby a state program does not comply with the aforementioned requirements, the national program may institute a direct collection of data from law enforcement agencies within that state.

### **NIBRS reporting and conversion**

All fifty state programs are certified to provide their UCR data in the expanded NIBRS format. For presentation in this publication, the NIBRS data were converted to the historical SRS data. The UCR Program staff constructed the NIBRS database to allow for such conversion so that UCR's long-running time series could continue.

### **Editing procedures**

The UCR Program thoroughly examines agency data for deviations in crime data from month to month and from present to past years' data that may indicate errors. UCR staff members compare aggregated data from agencies of similar population size to identify any unusual fluctuations in an agency's crime counts. Large variations in crime levels may indicate modified records procedures, incomplete reporting, or changes in the jurisdiction's geopolitical structure.

**Evaluation of trends**—Data reliability is a high priority of the FBI, which brings any deviations or arithmetical adjustments to the attention of state UCR Programs or the submitting agencies. Typically, FBI staff members study the monthly reports to evaluate periodic trends prepared for individual reporting units. Any significant increase or decrease becomes the subject of a special inquiry. Changes in crime reporting procedures or annexations that affect an agency's jurisdiction can influence the level of reported crime. When this occurs, the FBI excludes the figures for specific crime categories or totals, if necessary, from the trend tabulations.

**Training for contributors**—In addition to the evaluation of trends, the FBI provides training seminars and instructional materials on crime reporting procedures to assist contributors in complying with UCR standards. Throughout the country, the national program maintains liaison with state UCR Programs and law enforcement personnel and holds training sessions to explain the purpose of the program, the rules of uniform classification and scoring, and the methods of assembling the information for reporting. When an individual agency has specific problems in compiling its crime statistics and its remedial efforts are unsuccessful, personnel from the FBI’s Criminal Justice Information Services Division may visit the contributor to aid in resolving the difficulties.

## **Population estimation**

For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency’s rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency’s 2023 population estimate. Population totals for 2010 are from the U.S. Census Bureau’s decennial population counts.

## **Crime trends**

By showing fluctuations from year to year, trend statistics offer the data user an added perspective from which to study crime. Percent change tabulations in this publication are computed only for reporting agencies that provided comparable data for the periods under consideration. The FBI excludes from the trend calculations all figures except those received for common months from common agencies. Also excluded are unusual fluctuations of data that the FBI determines are the result of such variables as improved records procedures, annexations, etc.

## **Publication Annotation**

Narrative portions of this publication present percentage breakdowns for various facets of tabular data. Where percentage breakdowns are used, percentages may not add to 100.0 percent due to rounding.

## **Caution to users**

Data users should exercise care in making any direct comparison between data in this publication and those in prior issues of *Crime in the United States*. Because of differing levels of participation from year to year and reporting problems that require the FBI to

estimate crime counts for certain contributors, some data may not be comparable from year to year. In addition, this publication may contain updates to data provided in prior years' publications.

## **Offense Estimation**

Tables 1 through 5 and Table 7 of this publication contain statistics for the entire United States. Because not all law enforcement agencies provide data for complete reporting periods, the FBI includes estimated crime numbers in these national presentations. The FBI estimates data for three areas: Metropolitan Statistical Areas (MSAs), cities outside MSAs, and nonmetropolitan counties. The FBI computes estimates for participating agencies not providing 12 months of complete offense data. For agencies supplying 3 to 11 months of offense data, the national UCR Program estimates for the missing data by following a standard estimation procedure using the data provided by the agency. If an agency has supplied less than 3 months of data, the FBI computes estimates by using the known crime figures of similar areas within a state and assigning the same proportion of crime volumes to nonreporting agencies. The estimation process considers the following: population size covered by the agency; type of jurisdiction, e.g., police department versus sheriff's office; and geographic location.

### **Estimation Notes:**

For the 2021 collection year, the FBI's UCR Program transitioned from the traditional SRS to the more comprehensive NIBRS. A significant number of agencies were unable to complete the transition to NIBRS in 2021. Due to the lower volume of participation, the FBI was unable to produce the traditional national estimates for that year. Because SRS data was not directly collected by the FBI, in order to compile estimates for 2021, the FBI has since gathered a sampling of 2021 SRS data to augment the information collected via NIBRS and compile reliable estimates.

For the 2022 and 2023 collection years, the FBI resumed collecting SRS data from agencies that had not yet transitioned to NIBRS to supplement the NIBRS data collection. The FBI will assess the level of NIBRS transition yearly and continue to accept SRS data until it is no longer needed.

### **Estimation of state-level data**

In response to various circumstances, the FBI calculates estimated offense totals for certain states. For example, some states do not provide rape figures in accordance with UCR guidelines. In addition, problems at the state level have, at times, resulted in no useable data. Also, the efforts to convert to NIBRS have contributed to the need for unique estimation procedures. A summary of state-specific and offense-specific estimation procedures follows.

State	Year(s)	Reason for Estimation	Estimation Method
Illinois	2004 2005 2006 2007 2008 2009	The state UCR Program was unable to provide complete offense figures in accordance with UCR guidelines.	Valid violent crime and property crime offense counts, with the exception of forcible rape, were available for most of the largest cities (100,000 and over in population). For other agencies, the only available counts generated by the Illinois state UCR Program were state totals based upon an incident-level system without indication of multiple offenses recorded within single incidents. Therefore, the UCR Hierarchy Rule could not be applied in order to convert the state's data to SRS data. (The Hierarchy Rule requires that only the most serious offense in a multiple-offense criminal incident is counted.) To arrive at a comparable state estimate to be included in national compilations, the Illinois state UCR Program's state totals (which were inflated because of the nonapplication of the Hierarchy Rule) were reduced by the proportion of multiple offenses reported within single incidents in the NIBRS database. Valid totals for the large cities were excluded from the reduction process.
	2006 2007 2008 2009	The state UCR Program was unable to provide forcible rape figures in accordance with UCR guidelines.	Forcible rape figures for Rockford include only the forcible rape offenses with female victims that were extracted from the agency's NIBRS data. To derive the state forcible rape estimate, the percentage of female forcible rape victims was extracted from all NIBRS incidents in which a forcible sex offense was reported. That percentage was applied to the forcible rape count received from the Illinois state UCR Program.

Minnesota	2005 2006 2007 2008 2009 2010 2011 2012	The state UCR Program was unable to provide forcible rape figures in accordance with UCR guidelines.	2005—To arrive at a comparable state estimate for forcible rape offenses to be included in national compilations, Minnesota’s forcible rape total was estimated by using the national rates per 100,000 inhabitants within the eight population groups and proportionally assigning forcible rape volumes to Minnesota’s population groups. 2006-2012—Valid forcible rape figures were available for Minneapolis and St. Paul. To arrive at a comparable state estimate for forcible rape offenses to be included in national compilations, the rest of Minnesota’s forcible rape totals were estimated by using the national rates per 100,000 inhabitants within the eight population groups and proportionally assigning forcible rape volumes to Minnesota’s population groups.
-----------	--	--	--

### **Arrest data considerations**

Limited data for 2023 were available for Florida.

For 2023, only arrest totals (with no age or gender breakdowns) are available for Florida agencies that reported via the Summary Reporting System. Therefore, Florida arrest totals are included only in Table 69, “Arrests by State, 2023” for those agencies. Arrest data reported by NIBRS submitting agencies are included in all arrest tables except for the 5 and 10-year arrest trend tables.

Drunkennes figures were submitted by Summary reporting agencies only. As of 2021 drunkenness is no longer a separate offense in NIBRS, but it is included with All Other Offenses (except traffic) category.

Figures for suspicion include only data submitted by Summary reporting agencies because suspicion is not collected as a crime via NIBRS.

### **Table methodology**

The tables in this report are based upon varying levels of data submissions. For example, some participating agencies may submit data for some but not all months of the reporting year. Using well-established procedures, the FBI estimates for missing offense data for agencies with partial reports and for nonreporting agencies and then aggregates these estimates with data reported to determine

the number of offenses for each state and the nation. Tables 1–5, 7, and 29 present these approximations. In addition, various circumstances require the FBI to estimate offense totals from time to time for some states.

To be included in Tables 8–11 and 21 and 22, which provide statistics for specific jurisdictions and states, agencies must submit 12 months of complete data prior to the FBI’s established deadlines. To be included in Table 20, agencies must submit supplementary homicide data. Tables 12–19, 23–28, 30–75, and 77 provide the number of reporting agencies (data source) and the total population covered by their collective jurisdictions. To be included in Tables 78–81, agencies must submit officer and civilian law enforcement employee counts as of October 31. For information on the classification of jurisdictions, see *Area Definitions*.

The tabular presentation that follows briefly describes the data sources and the methods used to construct Tables 1-69.

(1) Table	(2) Database	(3) Table Construction	(4) General Comments
1	<p>The data used in creating the estimates for these tables were from all law enforcement agencies participating in the UCR Program (including those submitting less than 12 months of data).</p> <p>Crime statistics for the nation include estimated offense totals (except arson) for agencies submitting less than 12 months of offense reports for each year.</p>	<p>These tables provide the estimated number and rate (per 100,000 inhabitants) of reported crimes in the United States for 2004 through 2023, as well as the 2-, 5-, and 10-year trends for 2023 based on these estimates.</p> <p>This table contains estimates based on both the legacy and revised definitions of rape.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency’s rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency’s 2023 population estimate.</p>	<p>The UCR Program does not have sufficient data to estimate for arson.</p> <p>The crime figures for 2004 through 2022 have been adjusted from the prior year’s publication.</p> <p>In 2013, the FBI’s UCR Program initiated the collection of rape data under a revised definition within the SRS. The term “forcible” was removed from the offense name, and the definition was changed to “penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person,</p>

			without the consent of the victim.” In 2016, the FBI Director approved the recommendation to discontinue the reporting of rape data using the UCR legacy definition beginning in 2017.
2	<p>The data used in creating the estimates for this table were from all law enforcement agencies participating in the UCR Program (including those submitting less than 12 months of data).</p> <p>Crime statistics for the nation and for community types include estimated offense totals (except arson) for agencies submitting less than 12 months of offense reports for each year.</p>	<p>This table provides estimated crime statistics for the nation, Metropolitan Statistical Areas (MSAs), cities outside metropolitan areas, and nonmetropolitan counties; the rate (per 100,000 inhabitants) for each grouping; and their estimated populations. For MSAs, cities outside metropolitan areas, and nonmetropolitan counties, the table also includes crime statistics by area actually reporting.</p> <p>The statistics under the heading “Area actually reporting” represent offense totals for agencies submitting 12 months of data and estimated totals for agencies submitting less than 12 but more than 2 months of data.</p> <p>The statistics under the heading “Estimated total” represent the totals under “Area actually reporting” plus estimated totals for agencies submitting 2 months or less of data.</p> <p>The FBI derives national statistics for community types by using the community type estimates for individual states as shown in Table 5.</p>	<p>The UCR Program does not have sufficient data to estimate for arson.</p> <p>In 2013, the FBI’s UCR Program initiated the collection of rape data under a revised definition within the SRS. The term “forcible” was removed from the offense name, and the definition was changed to “penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.” In 2016, the FBI Director approved the recommendation to discontinue the reporting of rape data using the UCR legacy definition beginning in 2017.</p>

		<p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	
3	<p>The data used in creating this table were from all law enforcement agencies participating in the UCR Program (including those submitting less than 12 months of data).</p>	<p>This table provides the 2023 percent distribution of estimated offenses and populations by region.</p> <p>The FBI computes regional offense distribution percentages using the volume estimates as shown in Table 4.</p> <p>This table contains estimates based on the revised definition of rape.</p>	<p>The UCR Program does not have sufficient data to estimate for arson.</p> <p>In 2013, the FBI's UCR Program initiated the collection of rape data under a revised definition within the SRS. The term "forcible" was removed from the offense name, and the definition was changed to "penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim." In 2016, the FBI Director approved the recommendation to discontinue the reporting of rape data using the UCR legacy definition beginning in 2017.</p>

<p>4</p>	<p>The data used in creating the estimates for this table were from all law enforcement agencies in the UCR Program (including those submitting less than 12 months of data).</p> <p>Crime statistics include estimated offense totals (except arson) for agencies submitting less than 12 months of offense reports for each year.</p>	<p>This table provides estimated number and rate (per 100,000 inhabitants) of crime in each region, geographic division, and state in 2022 and 2023, and the percent change in each.</p> <p>The FBI derives state totals by estimating for nonreporting and partially reporting agencies within each state. Using the state’s individual agency data and estimates, the program aggregates a state total.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. The term “forcible” was removed from the offense name, and the definition was changed to “penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.” In 2016, the FBI Director approved the</p>

		<p>those percentages to the estimated offense totals as presented in Table 4.</p> <p>This table contains estimates based on the revised definition of rape.</p>	<p>recommendation to discontinue the reporting of rape data using the UCR legacy definition beginning in 2017.</p>
8	<p>The data used in creating this table were from all city and town law enforcement agencies submitting 12 months of complete offense data for 2023.</p>	<p>This table provides the volume of violent crime (murder and nonnegligent manslaughter, rape, robbery, and aggravated assault) and property crime (burglary, larceny-theft, and motor vehicle theft) as reported by city and town law enforcement agencies (listed alphabetically by state) that contributed data to the UCR Program. (Note: Arson is not included in the property crime total in this table; however, if complete arson data were provided, they will appear in the arson column.)</p> <p>The FBI does not publish arson data unless it receives data from either the agency or the state for all 12 months of the calendar year.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	<p>Readers should take into consideration relevant factors in addition to the areas' crime statistics when making any valid comparisons of crime among different locales. <i>UCR Statistics: Their Proper Use</i> provides more details concerning the proper use of UCR statistics.</p>
9	<p>The data used in creating this table were from all</p>	<p>This table provides the volume of violent crime (murder and nonnegligent manslaughter, rape,</p>	<p>Readers should take into consideration relevant factors in</p>

	<p>university/college law enforcement agencies submitting 12 months of complete offense data for 2023.</p>	<p>robbery, and aggravated assault) and property crime (burglary, larceny-theft, and motor vehicle theft) as reported by university/college law enforcement agencies (listed alphabetically by state) that contributed data to the UCR Program. (Note: Arson is not included in the property crime total in this table; however, if complete arson data were provided, they will appear in the arson column.)</p> <p>The student enrollment figures provided by the U.S. Department of Education are for 2022, the most recent available. They include full- and part-time students.</p> <p>The FBI does not publish arson data unless it receives data from either the agency or the state for all 12 months of the calendar year.</p>	<p>addition to the areas' crime statistics when making any valid comparisons of crime among different locales. <i>UCR Statistics: Their Proper Use</i> provides more details concerning the proper use of UCR statistics.</p>
10	<p>The data used in creating this table were from all county law enforcement agencies submitting 12 months of complete offense data for 2023.</p>	<p>This table provides the volume of violent crime (murder and nonnegligent manslaughter, rape, robbery, and aggravated assault) and property crime (burglary, larceny-theft, and motor vehicle theft) as reported by law enforcement agencies (such as individual sheriffs' offices and/or county police departments) in metropolitan counties and nonmetropolitan counties (listed alphabetically by state) that contributed data to the UCR Program. (Note: Arson is not included in the property crime total in this table; however, if complete arson data were provided, they will appear in the arson column.)</p> <p>The Metropolitan Counties classification encompasses jurisdictions covered by noncity law enforcement</p>	<p>These data do not represent county totals because they exclude crime counts for city agencies and other types of agencies that have jurisdiction within each county.</p> <p>Readers should take into consideration relevant factors in addition to the areas' crime statistics when making any valid comparisons of crime among different locales. <i>UCR Statistics: Their Proper Use</i> provides more</p>

		<p>agencies located within currently designated Metropolitan Statistical Areas (MSAs). The Nonmetropolitan Counties classification encompasses jurisdictions covered by noncity agencies located outside currently designated MSAs.</p> <p>The FBI does not publish arson data unless it receives data from either the agency or the state for all 12 months of the calendar year.</p>	<p>details concerning the proper use of UCR statistics.</p>
11	<p>The data used in creating this table were from all state, tribal, and other law enforcement agencies submitting 12 months of complete offense data for 2023.</p>	<p>This table provides the volume of violent crime (murder and nonnegligent manslaughter, rape, robbery, and aggravated assault) and property crime (burglary, larceny-theft, and motor vehicle theft) as reported by state, tribal, and other law enforcement agencies (listed alphabetically by state) that contributed data to the UCR Program. (Note: Arson is not included in the property crime total in this table; however, if complete arson data were provided, they will appear in the arson column.)</p> <p>The FBI does not publish arson data unless it receives data from either the agency or the state for all 12 months of the calendar year.</p>	<p>These data represent reported crime from individual state or territorial law enforcement agencies (i.e., state police, highway patrol, tribal, and/or other law enforcement agencies managed by the state or territory) participating in the UCR Program.</p> <p>Readers should take into consideration relevant factors in addition to the areas' crime statistics when making any valid comparisons of crime among different locales. <i>UCR Statistics: Their Proper Use</i> provides more details concerning the proper use of UCR statistics.</p>

12–15	<p>The data used in creating these tables were from all law enforcement agencies submitting at least 6 common months of complete offense reports for 2022 and 2023.</p>	<p>These 2-year trend tables provide the number of offenses for 2022 and 2023 and the percent change between these 2 years.</p> <p>In calculating trends, the UCR Program includes only common reported months for individual agencies.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency’s rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency’s 2023 population estimate.</p>	
16–19	<p>The data used in creating these tables were from all law enforcement agencies submitting 12 months of complete data (except arson, which is not included in these tables) for 2023.</p>	<p>These tables provide the rate per 100,000 inhabitants and the number of offenses known to law enforcement for violent crime (murder and nonnegligent manslaughter, rape, robbery, and aggravated assault) and property crime (burglary, larceny-theft, and motor vehicle theft) for law enforcement agencies submitting 12 months of complete data (except arson) for 2023. In addition, these tables furnish the number of agencies meeting the criteria for inclusion in these tables and provide the estimated population for each population group.</p> <p>The FBI derived the offense rates by first dividing the total aggregated offense counts by the aggregated populations covered by contributing agencies for</p>	

		<p>which 12 months of complete data were supplied and then multiplying the resulting figure by 100,000.</p> <p>The suburban and nonsuburban cities classifications in Table 17 encompass all cities other than principal cities served by municipal law enforcement agencies in MSAs.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	
20	<p>The data used in creating this table were from all law enforcement agencies that submitted supplementary homicide data for 2023.</p>	<p>This table provides the type of weapons used in murder offenses. The data are based on the aggregated data from agencies within each state for which supplementary homicide data (e.g., weapon information) were reported to the FBI. The table also includes a breakdown of the types of firearms used in murders (i.e., handguns, rifles, shotguns, or firearms [type unknown]).</p> <p>The weapon totals are aggregated from all murders for which the FBI received supplemental homicide data for calendar year 2023.</p>	<p>The FBI received limited supplementary homicide data from Florida.</p> <p>NIBRS homicide data were included in this table for Florida. The SRS supplementary homicide data submitted by the Florida state UCR Program did not meet UCR guidelines and were not included.</p>
21, 22	<p>The data used in creating these tables were from all</p>	<p>These tables provide the type of weapons used in robberies (Table 21) and aggravated assaults (Table</p>	<p>The FBI received limited data from Florida.</p>

	<p>law enforcement agencies that submitted complete offense reports for 12 months in 2023.</p>	<p>22). The tables include the number of agencies that submitted data by state and the population covered by those agencies.</p> <p>The weapon totals are aggregated from all robberies and aggravated assaults for which the FBI received weapon breakdowns.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	
<p>23, 24</p>	<p>The data used in creating these tables were from all law enforcement agencies submitting at least 6 months of complete property/circumstance data for 2023.</p>	<p>The FBI derives trends by comparing statistics from agencies with at least 6 common months of complete data reports for 2022 and 2023.</p> <p>Table 23 provides an analysis of the crimes of murder, rape, robbery, burglary, larceny-theft, and motor vehicle theft. The table also lists the number of these offenses reported in 2023 and the percentage change in the number of these offenses when compared with 2022 data.</p> <p>Due to technical system changes and data quality issues, some average values may be inflated in Table 23.</p>	<p>The FBI presents offense totals for the crimes of murder and rape, and then, based on supplemental data supplied by law enforcement, the FBI computes average value lost totals for the crimes of robbery, burglary, larceny-theft, and motor vehicle theft.</p> <p>The data source from which the FBI derives the information for this table does not include arson.</p> <p>Information regarding the average value of property</p>

		<p>Due to technical system changes and data quality issues, some property stolen and recovered data may be inflated in Table 24.</p> <p>The offense of aggravated assault is not included in Table 23. In the UCR Program, the taking of money or property in connection with an assault is reported as robbery.</p> <p>The percent distribution statistics are based on the offense totals for the crimes of robbery, burglary, and larceny-theft.</p> <p>Table 24 provides property types, the reported value of stolen property, and the value of recovered property. This table also lists the percentage of recovered value of each property type.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	<p>damage due to arson can be found in Arson Table 2.</p>
25–28	<p>The data used in creating these tables were from all law enforcement agencies submitting at least 6 months of</p>	<p>These tables provide the number of violent crimes, property crimes, and arsons with a breakdown of the offenses known to law enforcement and the percentage of those offenses that were cleared by arrest or exceptional means.</p>	<p>The following information pertains only to Table 28:</p> <ul style="list-style-type: none"> <li>• When an offender under the age of 18 is cited to</li> </ul>

	<p>complete offense reports for 2023.</p>	<p>Not all agencies submit data reports for arson to the FBI. Therefore, the agency counts and estimated population presented in this table do not represent participation for the reporting of arson.</p> <p>The FBI bases percent cleared statistics on aggregated offense and clearance totals.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	<p>appear in juvenile court or before other juvenile authorities, the UCR Program considers the incident to be cleared by arrest, even though a physical arrest may not have occurred.</p> <ul style="list-style-type: none"> <li>• Clearances for offenses that include both adult and juvenile offenders are classified as clearances for crimes committed by adults and are, therefore, not included in this table.</li> <li>• Because the clearance percentages for crimes committed by juveniles include only those clearances in which no adults were involved, the figures in this table should not be used to present a definitive picture of juvenile involvement in crime.</li> </ul>
29	<p>The data used in creating the estimates for this table were from all law</p>	<p>This table provides the estimated number of persons arrested in the United States in 2023.</p>	

	<p>enforcement agencies submitting 12 months of arrest data for 2023.</p>	<p>The arrest totals presented are national estimates based on the arrest statistics of all law enforcement agencies submitting 12 months of arrest data to the UCR Program.</p> <p>The estimated total number of arrests in this table is the sum of estimated arrest volumes for 27 offenses, not including suspicion.</p> <p>The arrest data for each of the individual offenses in this table is the sum of the estimated volume of arrests for that offense within each of the eight population groups. (See <i>Area Definitions</i>.)</p> <p>The FBI calculated each of the eight population group’s arrest estimates by dividing the reported 12-month volume figures (as shown in Table 31) by the contributing agencies’ jurisdictional populations. The resulting figure was then multiplied by the total population for each population group as estimated by the UCR Program.</p>	
<p>30, 31</p>	<p>The data used in creating these tables were from all law enforcement agencies submitting 12 months of arrest data for 2023.</p>	<p>These tables provide the number of persons arrested and the arrest rate per 100,000 inhabitants for the four regions of the United States (Table 30), the eight UCR population groups (Table 31), and the nation as a whole (both tables) in 2023.</p> <p>The FBI derived the arrest rates by first dividing the total number of arrests by the aggregated populations covered by contributing agencies and then multiplying the resulting figure by 100,000.</p>	<p>These data represent the number of persons arrested; however, some persons may be arrested more than once during a year. Therefore, the statistics in this table could, in some cases, represent multiple arrests of the same person.</p>

		<p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	
32, 33	<p>The data used in creating these tables were from all law enforcement agencies submitting 12 months of arrest data for both 2014 and 2023.</p>	<p>These 10-year trend tables provide the number of persons arrested in 2014 and 2023 and the percent change when the data for these 2 years are compared. Table 32 furnishes a breakdown of these data by juveniles (persons under age 18) and adults. Table 33 furnishes a breakdown of these data by juveniles and adults.</p> <p>The 2014 rape figures are based on the legacy and revised definitions. The 2023 rape figures are aggregate totals based on the revised definitions.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p> <p>For the 2014 population estimates used in this table, the FBI calculated 2014 state growth rates using the U.S. Census Bureau's 2010 decennial state/national</p>	<p>These data represent the number of persons arrested; however, some persons may be arrested more than once during a year. Therefore, the statistics in this table could, in some cases, represent multiple arrests of the same person.</p> <p>In 2013, the FBI's UCR Program initiated the collection of rape data under a revised definition within the SRS. The term "forcible" was removed from the offense name, and the definition was changed to "penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim." In 2016, the FBI Director approved the</p>

		<p>population figures and 2014 provisional state/national population estimates. The FBI then estimated population figures for city jurisdictions by applying the 2014 state growth rate to the 2010 U.S. Census Bureau data.</p>	<p>recommendation to discontinue the reporting of rape data using the UCR legacy definition beginning in 2017.</p>
34, 35	<p>The data used in creating these tables were from all law enforcement agencies submitting 12 months of arrest data for both 2019 and 2023.</p>	<p>These 5-year trend tables provide the number of persons arrested in 2019 and 2023 and the percent change when the data for these 2 years are compared. Table 34 furnishes a breakdown of these data by juveniles (persons under age 18) and adults. Table 35 furnishes a breakdown of these data by gender for juveniles.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p> <p>For the 2019 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2010 decennial population counts and 2011 through 2018 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2018</p>	<p>These data represent the number of persons arrested; however, some persons may be arrested more than once during a year. Therefore, statistics in this table could, in some cases, represent multiple arrests of the same person.</p>

		Census population estimate to derive the agency's 2019 population estimate.	
36, 37	The data used in creating these tables were from all law enforcement agencies submitting 12 months of arrest data for both 2022 and 2023.	<p>These 2-year trend tables provide the number of persons arrested in 2022 and 2023 and the percent change when the data for these 2 years are compared. Table 36 furnishes a breakdown of these data by juveniles (persons under age 18) and adults. Table 37 furnishes a breakdown of these data by gender for juveniles.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p> <p>For the 2022 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 and 2021 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2021 Census population estimate to derive the agency's 2022 population estimate.</p>	These data represent the number of persons arrested; however, some persons may be arrested more than once during a year. Therefore, the statistics in this table could, in some cases, represent multiple arrests of the same person.
38-43	The data used in creating these tables were from all law enforcement	These tables provide the number of persons arrested nationwide in 2023 for the offenses for which the UCR Program collects arrest data. Tables 38-40 provide	These data represent the number of persons arrested; however, some persons may be

	<p>agencies submitting 12 months of arrest data for 2023.</p>	<p>these data broken down by the age of the arrestee and include the percent distribution of arrests by offense type. Table 41 furnishes the data within the following age groups: Under 15, Under 18, Under 21, and Under 25 years. Table 42 supplies breakdowns of these data for each offense and supplies a percent distribution of males and females arrested among all offense types. Table 43 provides the data by the race and ethnicity of the arrestee and the percent distribution of arrests by race for each offense.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	<p>arrested more than once during a year. Therefore, the statistics in this table could, in some cases, represent multiple arrests of the same person.</p> <p>Table 39 provides these data for males only and Table 40 provides the data for females only.</p> <p>The totals provided in Table 43 reflect only those persons arrested by law enforcement agencies that provided race information to the UCR Program; therefore, the totals may not match those shown in other arrest tables for the nation.</p> <p>In Table 43, the ethnicity totals are representative of those agencies that provided ethnicity breakdowns. Not all agencies provide ethnicity data; therefore, the race and ethnicity totals will not be equal.</p>
44, 45	<p>The data used in creating these tables were from all city law enforcement agencies submitting 12</p>	<p>These 2-year trend tables provide the number of persons arrested in cities in 2022 and 2023 and the percent change when the data for these 2 years are compared. ## Methodologies Explain Potential Differences in UCR Data

The Uniform Crime Reporting (UCR) Program is in the process of migrating its data releases from static web publications hosted on [www.fbi.gov](http://www.fbi.gov) to more dynamic, multi-year displays of data on the Crime Data Explorer (CDE). Just as the data in the tables of the annual publications sometimes differ from those available in the master files for the same year, the data in the publication tables may also differ from those released on the Explorer Pages of the CDE. These variations are due to the difference in methodologies between the publication tables and data displayed on the CDE.

Historically, the agency, state, regional, and national data in Crime in the United States, Hate Crime Statistics, and Law Enforcement Officers Killed and Assaulted must pass internal data quality reviews prior to publication. According to the methodology, data that do not meet established criteria are not included in the publication tables. Individuals who typically use data from tables in Crime in the United States and other UCR web publications on [www.fbi.gov](http://www.fbi.gov) will continue to have access to that format via the downloadable publication tables for 2020 and prior years.

As is the case with all the data files released for 1960 through 2020, the data displayed on the CDE include all reported data from agencies and entities aggregated from the agency data, such as states. According to methodology of typical open data websites, all reported data remain in file. Individuals who typically work with data files, such as the Master Files, can also access the CDE releases of data from 2020 and earlier for data based on the same quality methodology.

Starting with the release of 2021 data in calendar year 2022, the UCR Program will be consolidating its data quality review and management practices, which will reduce or eliminate potential differences between the two presentations going forward.

Files last modified: March 15, 2021

## The Nation's Two Crime Measures

The U.S. Department of Justice administers two statistical programs to measure the magnitude, nature, and impact of crime in the nation: the Uniform Crime Reporting (UCR) Program and the National Crime Victimization Survey (NCVS). Each of these programs produces valuable information about aspects of the nation's crime problem. Because the UCR and NCVS programs have different purposes, use different methods, and focus on somewhat different aspects of crime, the complementary information they produce together provides a more comprehensive understanding of the nation's crime problem than either could produce alone.

### *Uniform Crime Reports*

The International Association of Chiefs of Police (IACP) began publishing information for the UCR Program in 1929, two years after the IACP had established a committee to research the uniform reporting of crime statistics. Since September 1930, the FBI has administered the program, which currently collects information on murder and nonnegligent manslaughter, rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, arson, cargo theft, and human trafficking through the Summary Reporting System (SRS). Law enforcement agencies report arrest data only for 20 additional crime categories.

The UCR Program compiles data from monthly law enforcement reports or individual crime incident records transmitted directly to the FBI or to centralized agencies that then report to the FBI. The program thoroughly examines each report it receives for reasonableness, accuracy, and deviations that may indicate errors. Large variations in crime levels may indicate modified records procedures, incomplete reporting, or changes in a jurisdiction's boundaries. To identify any unusual fluctuations in an agency's crime counts, the program compares monthly reports to previous submissions from the agency and with those for similar agencies.

The UCR Program presents crime counts for the nation as a whole, as well as for regions, states, counties, cities, towns, tribal areas, and colleges and universities. This permits

analysis among neighboring jurisdictions and among those with similar populations and other common characteristics.

The FBI publishes its findings in a detailed annual report, *Crime in the United States*, issued in the fall. In addition to crime counts and trends, this report includes data on crimes cleared, persons arrested (age, sex, race, and ethnicity), law enforcement personnel, and the characteristics of homicides (including age, sex, and race of victims and offenders; victim-offender relationships; weapons used; and circumstances surrounding the homicides). The UCR Program also generates other specialized periodic reports.

Many local and state law enforcement agencies participating in the UCR Program submit their UCR data via the more comprehensive National Incident-Based Reporting System (NIBRS). NIBRS provides agencies the opportunity to submit additional details about each criminal incident in 23 broad categories of offenses. NIBRS furnishes incident and offense data as well as characteristics of all victims, offenders, and arrestees (age, sex, race, and ethnicity; and victim-offender relationships). The collection includes weapons data, location types, drug information, property descriptions, the type of criminal activity or gang involvement; and it offers the ability for greater analysis.

### ***National Crime Victimization Survey***

The NCVS, administered by the Bureau of Justice Statistics (BJS), provides a detailed picture of crime incidents, victims, and trends. The program began in 1973 as the National Crime Survey (NCS). In 1992, NCS was renamed NCVS to reflect a substantial redesign effort that focused primarily on methodological changes to the survey. The redesign also improved the initial questions used to screen for victimization incidents, updated the survey methods to take advantage of new technologies, and broadened the scope of crimes measured. The current NCVS collects detailed information on the frequency and nature of the crimes of rape and other sexual assault, robbery, aggravated and simple assault, personal larceny, household burglary, motor vehicle theft, and other theft.

Each year, BJS interviews a nationally representative sample of approximately 160,000 persons age 12 or older living in households across the nation. Households remain in the sample for 3 years. New households rotate into the sample on an ongoing basis.

NCVS collects information on crimes experienced by individuals and households during the six months preceding the interview, whether or not those crimes were reported to law enforcement. A unique feature of NCVS is that it collects both reported and unreported crimes and reasons why the crime was or was not reported.

The survey also captures specific details about each crime incident. NCVS collects information about victims (such as age, sex, race, ethnicity, marital status, income, and educational level), offenders (such as sex, race, approximate age, and victim-offender relationship), and the crimes (including time and place of occurrence, use of weapons, nature of injury, and economic consequences). In addition, the NCVS asks questions about the experiences of victims with the criminal justice system, self-protective measures used by victims, and possible substance abuse by offenders. The NCVS periodically includes additional questions on particular topics. Recent supplements have covered issues concerning school crime, identity theft, contacts between police and citizens, and stalking.

The BJS publishes NCVS data in *Criminal Victimization*, an annual report that covers the broad range of detailed information collected by NCVS, and the NCVS Victimization Analysis Tool, an online database through which users can examine victimization rates, counts, and percentages by a range of victim and crime characteristics. BJS also publishes detailed reports on topics such as intimate partner violence, workplace violence, hate crime, and crime against persons with disabilities. The National Archive of Criminal Justice Data at the University of Michigan archives the NCVS data files to enable researchers to perform independent analyses.

### ***Comparing UCR and NCVS***

Because the BJS designed NCVS in part to complement the UCR Program, the two programs share many similarities. As much as their different collection methods permit, the two measure the same subset of serious crimes, defined alike. Both programs cover rape, robbery, aggravated assault, burglary, theft, and motor vehicle theft. Rape, robbery, theft, and motor vehicle theft are defined virtually identically by both the UCR Program and the NCVS. (Prior to 2013, the UCR Program measured a more limited definition of forcible rape against women only, while the NCVS measured a broader definition of rape against both sexes. Now NCVS and the UCR Program define rape analogously.)

Despite covering a set of similar crimes, the two programs differ significantly. First, the two programs serve different purposes. The UCR Program's primary objective is to provide a reliable set of criminal justice statistics for law enforcement administration, operation, and management. BJS established NCVS to provide previously unavailable information about crime (including crime not reported to police), victims, and offenders.

Second, the two programs measure an overlapping but nonidentical set of crimes. The NCVS includes, but the UCR Program's SRS excludes, sexual assault (completed, attempted, and threatened), attempted robberies, verbal threats of rape, simple assault, and crimes not reported to law enforcement. UCR includes, but NCVS excludes, homicide, arson, commercial crimes, and crimes against children under age 12. The UCR Program's SRS also captures crimes reported to law enforcement but collects only arrest data for simple assault and sex offenses other than rape.

Third, because of methodology, the NCVS and UCR definitions of some crimes differ. For example, the UCR SRS defines burglary as the unlawful entry or attempted entry of a structure to commit a felony or theft. The NCVS defines burglary as the entry or attempted entry of a residence by a person who had no right to be there.

Fourth, for property crimes (burglary, theft, and motor vehicle theft), the two programs calculate crime rates using different bases. The UCR rates for these crimes are per capita (number of crimes per 100,000 persons), whereas the NCVS rates for these crimes are per household (number of crimes per 1,000 households).

Because the number of households may not grow at the same rate each year as the total population, trend data for rates of property crimes measured by the two programs may not be comparable. In addition, some differences in the data from the two programs may result from sampling variation in NCVS and from estimating for nonresponse in UCR.

BJS derives the NCVS estimates from interviewing a sample. The estimates are subject to a margin of error. This error is known and is reflected in the standard error of the estimate. The UCR Program bases its data on the actual counts of offenses reported by law enforcement agencies. In some circumstances, the UCR Program estimates its data for nonparticipating agencies or those reporting partial data. Apparent discrepancies between statistics from the two programs can usually be accounted for by differences in definitions or procedures or resolved by comparing NCVS sampling variations

(confidence intervals) of those crimes said to have been reported to police with UCR statistics.

Each program has unique strengths. UCR provides a measure of the number of crimes reported to law enforcement agencies throughout the country. The UCR SRS's Supplementary Homicide Reports provide reliable, timely data on the extent and nature of homicides in the nation. In addition to providing annual point and change estimates on criminal victimization, NCVS is the primary source of information on the characteristics of criminal victimization incidents and on the number and types of crimes not reported to law enforcement authorities.

By understanding the strengths and limitations of each program, it is possible to use UCR and NCVS to achieve a greater understanding of crime trends and the nature of crime in the United States. For example, changes in police procedures, shifting attitudes toward crime and police, and other societal changes can affect the extent to which people report and law enforcement agencies record crime. NCVS and UCR data can be used in complementary ways to explore why trends in reported and police-recorded crime may differ.

# UCR Summary of Crime in the Nation, 2023

## Introduction

The FBI's Uniform Crime Reporting (UCR) Program provides a nationwide view of crime based on data submissions reported by law enforcement agencies throughout the country. The data submitted to various distinct collections, within the FBI's UCR Program, detail criminal incidents as well as law enforcement data. For decades, several of these compilations have been published annually. Though each collection presents details of crime or law enforcement data based on data provided by participating agencies, the reports vary in context, participation, and publication criteria.

*Crime in the Nation, 2023*, includes data received from 16,334 law enforcement agencies that provided data through either the National Incident-Based Reporting System (NIBRS) or the Summary Reporting System (SRS). These agencies represent 85.2 percent of agencies actively enrolled in the FBI's UCR Program and cover a combined population of 315,761,680 (94.3 percent) inhabitants. Notably, every city agency covering a population of 1,000,000 or more inhabitants contributed a full 12 months of data to the FBI's UCR Program in 2023.

Estimates based on data submitted by the participating agencies show the following nationwide year-to-year trends:

Violent crime decreased an estimated 3.0 percent from 2022 to 2023.

Property crime decreased an estimated 2.4 percent from 2022 to 2023.

The number of agencies contributing NIBRS data to *Crime in the Nation, 2023*, increased by over 700 compared with the number of agencies that contributed NIBRS data to the previous year's *Crime in the Nation, 2022*. Representation by these NIBRS agencies grew from 76.9 percent to 83.1 percent of the population covered by agencies enrolled in the FBI's UCR Program from 2022 to 2023.

Table 1: Crime in the Nation Participation, 2022 - 2023

	2022 Volume	2022 Percentage	2023 Volume	2023 Percentage
<b>NIBRS Agencies</b>	13,293	70.4%	14,039	73.2%
<b>NIBRS Population</b>	256,187,698	76.9%	278,449,430	83.1%
<b>SRS Agencies</b>	2,431	12.9%	2,295	12.0%
<b>SRS Population</b>	55,441,278	16.6%	37,312,250	11.1%
<b>Total Participating Agencies</b>	15,724	83.3%	16,334	85.2%
<b>Total Participating Population</b>	311,628,976	93.5%	315,761,680	94.3%
<b>Enrolled Agencies</b>	18,884		19,169	
<b>Enrolled Population</b>	333,287,557		334,914,895	

In addition to this *UCR Summary of Crime in the Nation, 2023*, which contains a synopsis of the data, *Crime in the Nation, 2023*, is comprised of the following components:

- *Crime in the United States (CIUS), 2023*
- *NIBRS, 2023*
- *Hate Crime Statistics, 2023*
- *Law Enforcement Officers Killed and Assaulted (LEOKA), 2023*

Each of these components contains multiple distinct tables providing details on various facets of crime and law enforcement data submitted to the FBI’s UCR Program. A description of each component’s content and publication criteria is provided in the Appendix.

While the *NIBRS*, *Hate Crime Statistics*, and *LEOKA* publications provide data reported by law enforcement agencies, *CIUS* provides a combination of reported, estimated, and trended data. Estimation allows for the assessment of crime statistics representative of the entire United States population, including the population represented by agencies that did not provide complete information to the FBI’s UCR Program. Another method of reviewing year-over-year changes in crime, *CIUS trends* reflect data from agencies consistently supplying data over the comparative years.

The following synopsis incorporates data from each collection, examining a variety of reported, estimated, and trended numbers published in *Crime in the Nation, 2023*.

## Violent Crime

Violent crime consists of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Nationwide, from 2022 to 2023, the estimated volume of violent crime offenses showed the following changes:

Violent crime decreased an estimated 3.0 percent.

Murder and nonnegligent manslaughter decreased an estimated 11.6 percent.

Rape decreased an estimated 9.4 percent.

Robbery decreased an estimated 0.3 percent.

Aggravated assault decreased an estimated 2.8 percent.

An estimated 1,218,467 violent crime offenses were committed in 2023, indicating a rate of 363.8 violent crimes per 100,000 inhabitants, down from the 2022 offense rate of 377.1 violent crimes per 100,000 inhabitants.<sup>1</sup>

---

<sup>1</sup> The 2022 violent crime rate has been updated for inclusion in *CIUS, 2023*.

*CIUS, 2023*, features trends developed from 14,258 agencies that submitted 6 or more common months of crime data to the FBI's UCR Program in 2022 and 2023 representing over 304 million inhabitants. These trends determined aggravated assault with a firearm decreased 6.6 percent from 304,780 offenses in 2022 to 284,555 offenses in 2023. Aggravated assault with hands, fists, or feet also decreased (1.7 percent) while the use of knives or cutting instruments and other weapons increased from 2022 to 2023, 0.9 percent and 0.8 percent, respectively.

Figure 1: Aggravated Assault with Weapon, Trends, 2022 - 2023

Trend data submitted by the referenced 14,258 agencies show firearm use in connection with robberies in 2023 decreased 5.1 percent, from 79,774 offenses to 75,690 offenses. Similar decreases were observed for robberies involving knives or cutting instruments and other weapons, with decreases of 2.4 percent and 3.2 percent, respectively. The only weapon category to show an increase from 2022 to 2023 was strong-arm robbery, which indicated a year-to-year increase of 3.2 percent.

Figure 2: Robbery with Weapon, Trends, 2022 - 2023

Law enforcement agencies reporting via NIBRS may report the relationship between victims and offenders for offenses categorized as crimes against persons and robbery offenses. Up to 10 relationship types may be reported per victim for each offense; however, the relationships of victims to multiple offenders of the same offense type have been consolidated to 1 category for the following evaluation of violent crime victims. Due to rounding, the following victim-offender relationship breakdowns may not add to 100.0 percent.

In 2023, 34.6 percent of homicide victims knew their offender(s) (or at least 1 offender when more than 1 was present) but were not related to them. NIBRS data also showed 15.1 percent of homicide victims were killed by a stranger, 14.0 percent by a family member, and 0.8 percent by a family member and at least 1 other offender who was not related to the victim. Most homicide victims (35.4 percent) had relationships categorized as “all other,” meaning the victim(s) did not see the offender to determine whether they knew them, was a mutual combatant of the offender, or had a combination of other undefined relationships with multiple offenders.

Figure 3: Homicide Victim-Offender Relationships, NIBRS, 2023

Nearly half (49.7 percent) of assault victims were assaulted by multiple offenders, at least 1 of which was known to the victim but was not related to the victim. Over one-fifth (21.8 percent) of assault victims were assaulted by a family member, and 12.8 percent were assaulted by strangers.

Figure 4: Assault Victim-Offender Relationships, NIBRS, 2023

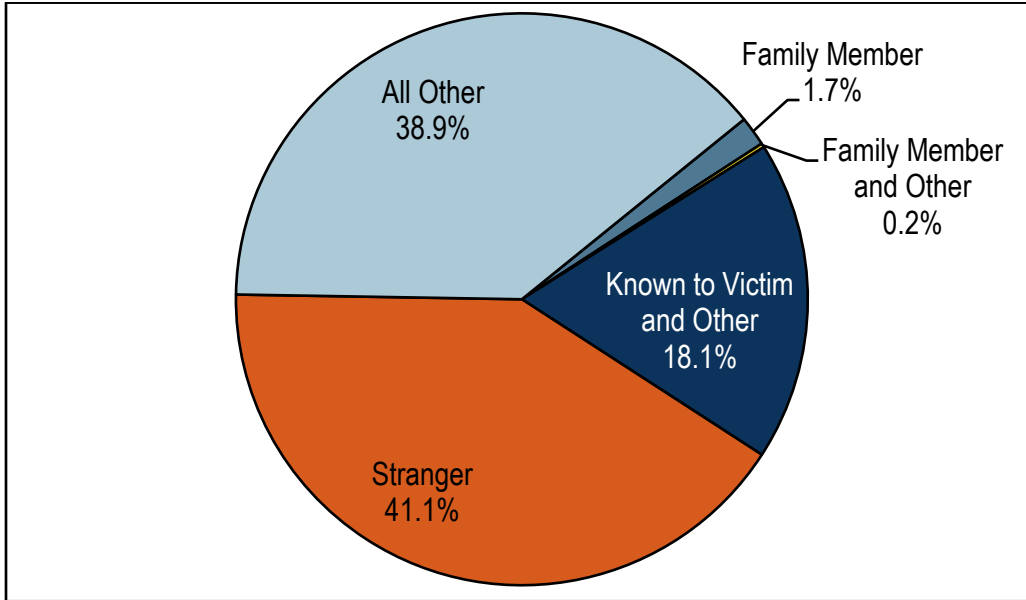

The most common relationship reported by sex offense victims was “known to victim and other” (52.2 percent), while more than one-quarter (26.2 percent) of sex offense victims reported a family member as the offender.

Figure 5: Sex Offense Victim-Offender Relationships, NIBRS, 2023

Concerning robbery offenses submitted by NIBRS agencies, the most common relationship reported by robbery victims in 2023 was stranger (41.1 percent).

Figure 6: Robbery Victim-Offender Relationships, NIBRS, 2023

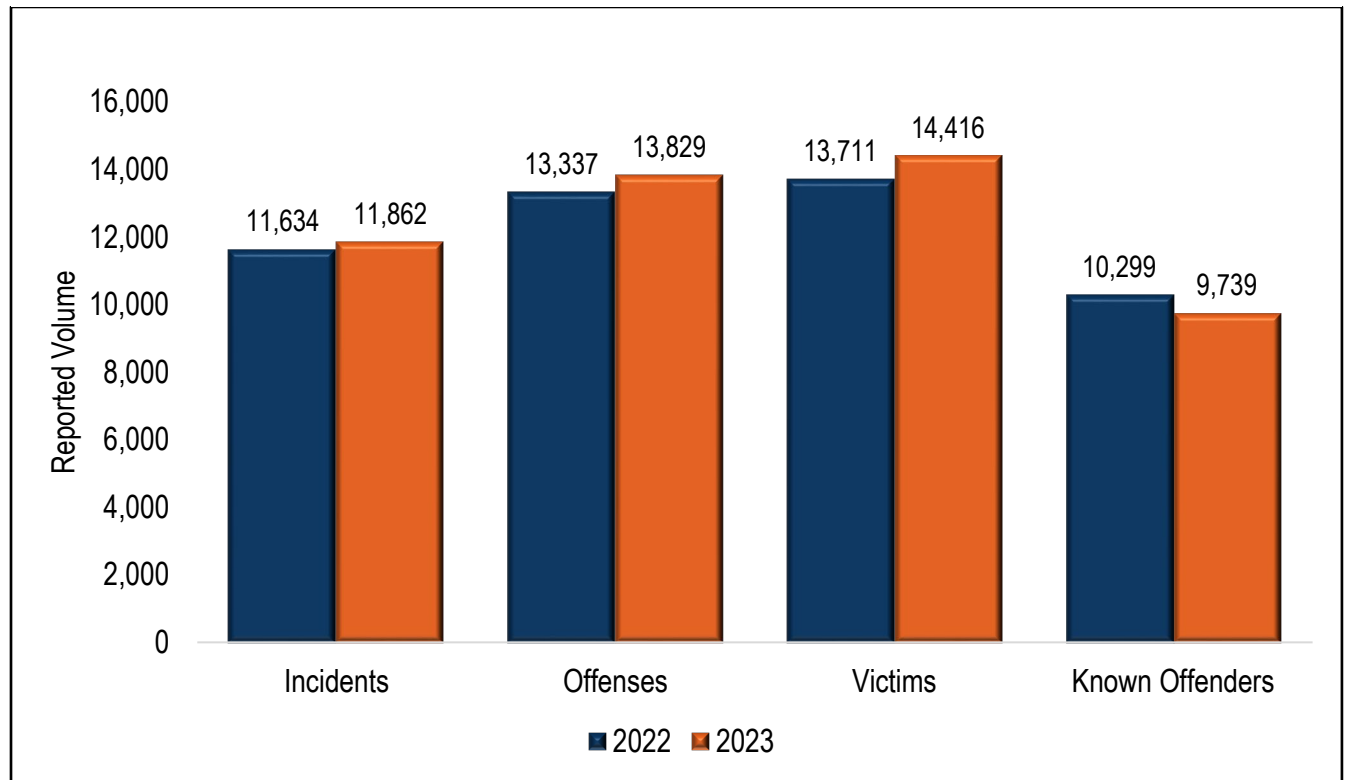

# Hate Crime

The following information from *Hate Crime Statistics, 2023*, reflects data received from 83.5 percent of agencies actively enrolled in the FBI’s UCR Program with a population coverage of 95.2 percent. This is an increase compared to the previous year’s *Hate Crime Statistics, 2022*, which reflected data received from 77.5 percent of agencies with a population coverage of 91.7 percent. Data from agencies submitting at least 1 hate crime incident report or Zero Report<sup>2</sup> are included in *Hate Crime Statistics*. This data publication, therefore, does not necessarily represent reports for all 12 months (or 4 quarters) of the calendar year from each participating agency.

Considering all reported hate crime data in 2022 and 2023, regardless of the number of months or quarters submitted by law enforcement agencies, hate crime incidents increased from 11,634 to 11,862, offenses increased from 13,337 to 13,829, victims increased from 13,711 to 14,416, and known offenders decreased from 10,299 to 9,739.

Figure 7: Reported Hate Crime, 2022 - 2023

<sup>2</sup> A Zero Report for hate crime is reported by an agency to indicate that no hate crimes occurred in their jurisdiction and may be submitted monthly or quarterly depending on their participation in NIBRS or SRS.

## *Two-Year Hate Crime Trend, 2022 - 2023*

To determine a meaningful national trend, the FBI's UCR Program created a dataset that includes the hate crime incidents and Zero Reports submitted by agencies reporting 6 or more common months or 2 or more common quarters (6 months) of hate crime data to the FBI's UCR Program for both 2022 and 2023. According to this dataset, reported hate crime incidents decreased 0.6 percent from 10,687 in 2022, to 10,627 in 2023.

An overall comparative year-to-year decrease in reported hate crime may not reflect changes among individual hate crime biases. Data provided in this year's *Hate Crime Statistics, 2023*, and last year's *Hate Crime Statistics, 2022*, can be reviewed to observe how reported hate crime incidents, offenses, victims, and known offenders fluctuated for each distinct bias type.

## Property Crime

Property crime consists of burglary, larceny-theft, and motor vehicle theft. Nationwide, from 2022 to 2023, the estimated volume of property crime offenses showed the following changes:

-  Property crime decreased an estimated 2.4 percent.
-  Burglary decreased an estimated 7.6 percent.
-  Larceny-theft decreased an estimated 4.4 percent.
-  Motor vehicle theft increased an estimated 12.6 percent.

An estimated 6,419,149 property crime offenses were committed in 2023, indicating an offense rate of 1,916.7 property crimes per 100,000 inhabitants, down from the 2022 offense rate of 1,973.8 property crimes per 100,000 inhabitants.<sup>3</sup>

---

<sup>3</sup> The 2022 property crime rate has been updated for inclusion in *CIUS, 2023*.

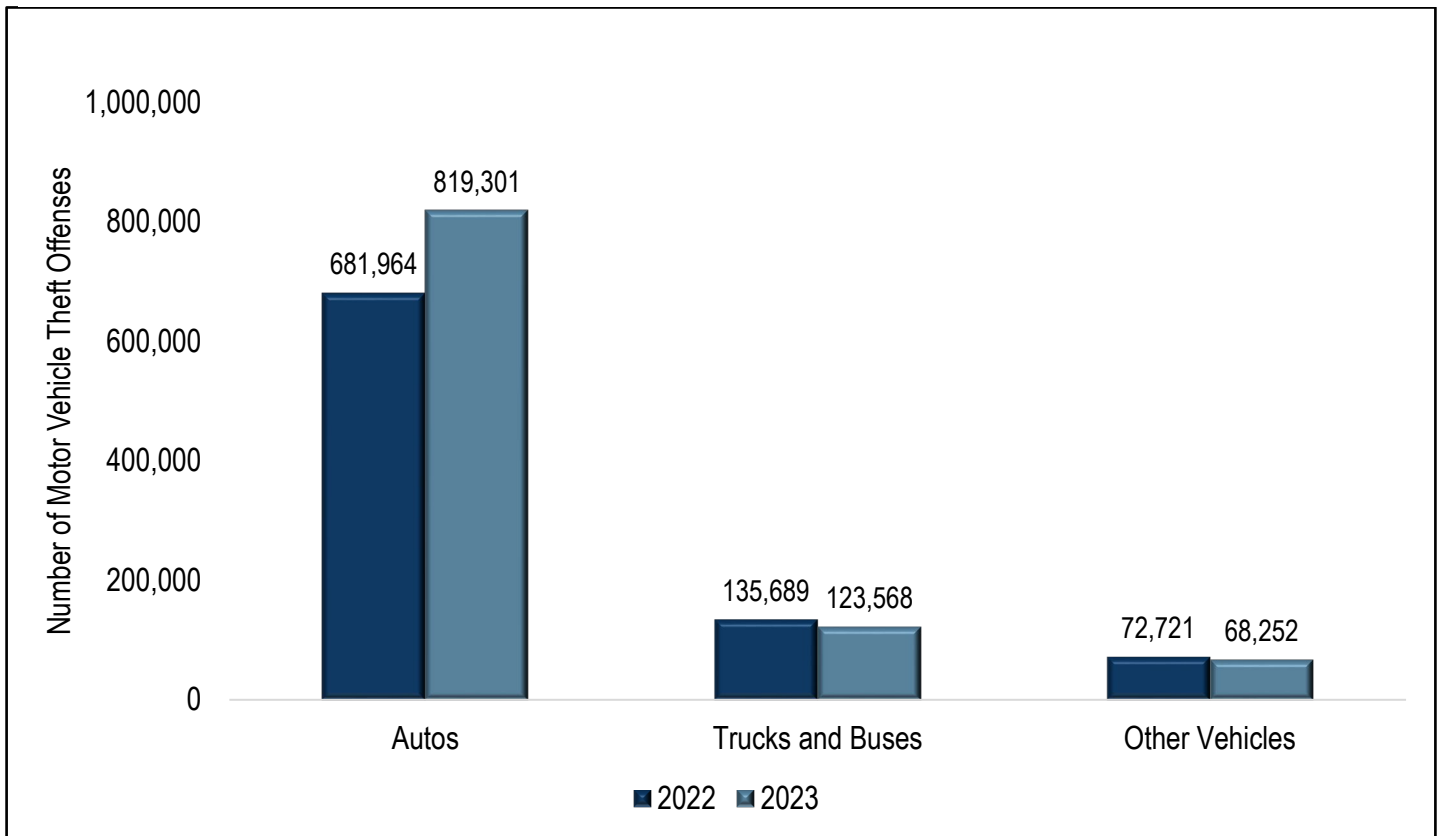

Each burglary method of entry – forcible entry, attempted forcible entry, and unlawful entry – decreased between 4.5 and 7.7 percent from 2022 to 2023, based on data reported by 14,258 agencies. The same agencies reported forcible entry as the most common method of entry in burglary offenses in both 2022 and 2023.

Figure 8: Burglary by Method of Entry, Trends, 2022 - 2023

Motor vehicle thefts involving autos – the most common type of motor vehicle theft compared to those involving trucks, buses, and other vehicles – increased more than 20 percent from 681,964 in 2022, to 819,301 in 2023, based on offenses reported by 14,258 agencies. A comparison of data for the same agencies showed an 8.9 percent decrease in motor vehicle thefts involving trucks and buses, and a 6.1 percent decrease in motor vehicle thefts involving other vehicles from 2022 to 2023.

Figure 9: Motor Vehicle Theft by Vehicle Type, Trends, 2022 - 2023

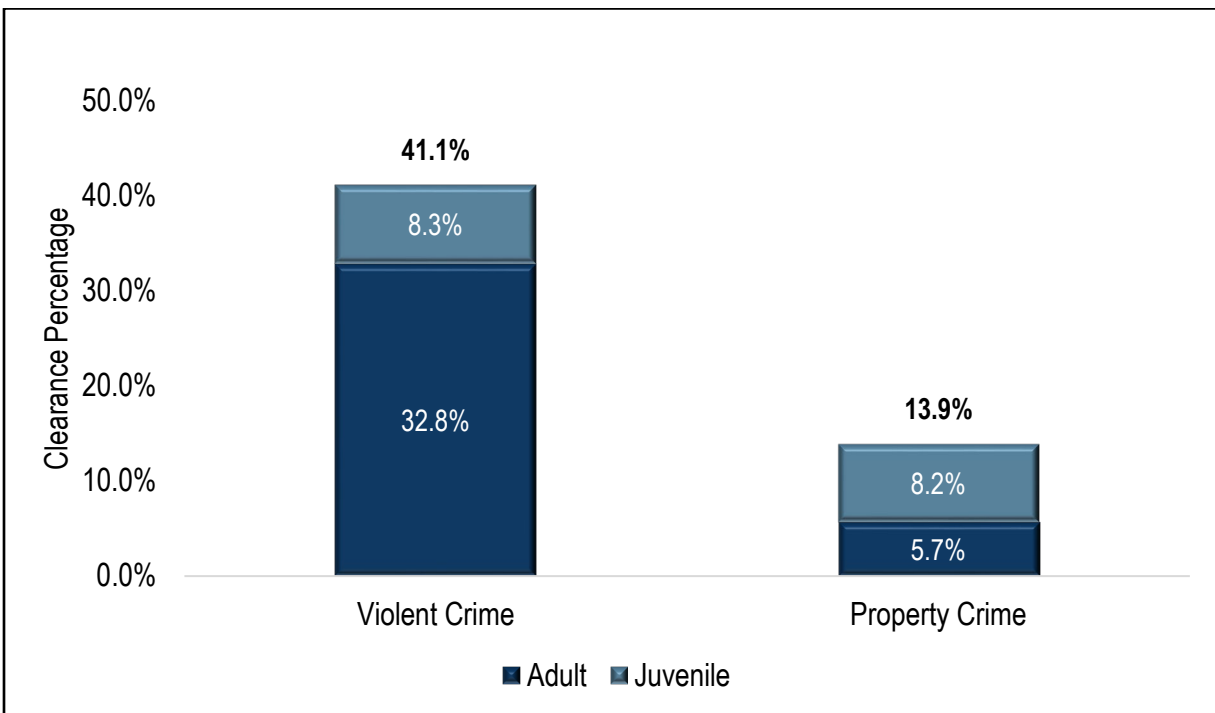

## Clearances and Arrests

Nationally in 2023, law enforcement agencies cleared 41.1 percent of reported violent crimes by arrest or exceptional means, equating to over 490,000 cleared violent offenses. In addition, 13.9 percent of reported property crimes, or approximately 845,000 property crime offenses, were cleared by arrest or exceptional means in 2023.

Of the proportion of violent crime offenses cleared by law enforcement in 2023, 8.3 percent involved juvenile offenders under the age of 18. This is a similar percentage to the 8.2 percent of cleared property crime offenses involving juvenile offenders during that year.

Figure 10: Violent and Property Crime Clearances, 2023

The volume of reported violent crime arrests by age groups indicates the volume of juvenile arrestees under the age of 18 increased 9.9 percent from 31,302 in 2022, to 34,413 in 2023. The reported volume of adult arrestees aged 18 years or older decreased 1.3 percent in 2023 compared with the reported volume of the previous year.

Figure 11: Violent Crime Arrests by Age Group, Trends, 2022 - 2023

The volume of reported property crime arrests among both juvenile arrestees under the age of 18 and adults aged 18 and older increased 29.4 percent and 7.3 percent, respectively, from 2022 to 2023.

Figure 12: Property Crime Arrests by Age Group, Trends, 2022 - 2023

## Crime Trends by Population Group

Crime trends developed from agencies reporting 6 or more common months of data to the FBI’s UCR Program in 2022 and 2023 mostly mirrored the estimated decreases in nationwide violent crime offenses. City agencies with jurisdictions of 1,000,000 or more inhabitants showed the largest decrease (6.9 percent) in overall violent crime in 2023. City agencies representing populations of 250,000 to 499,999 inhabitants were the only population group with an increased (0.3 percent) year-to-year violent crime trend.

Trends from each population group recorded decreases in the violent crime offenses of murder and rape, with the largest agencies of 1,000,000 or more inhabitants showing the largest decrease in rape (10.6 percent) and the second largest decrease in murder (17.1 percent). Some population groups reported an increase in robbery offenses, while nonmetropolitan counties reported the largest decrease (10.7 percent) in this violent crime offense. City agencies with 1,000,000 or more inhabitants had the largest decrease (8.2 percent) in aggravated assault offenses.

Table 2: Violent Crime by Population Group, Trends, 2022 – 2023

Agency	Violent Crime	Murder	Rape	Robbery	Aggravated Assault
City agencies 1,000,000+	-6.9	-17.1	-10.6	-2.4	-8.2
City agencies 500,000 to 999,999	-1.8	-8.5	-9.0	+1.6	-1.9
City agencies 250,000 to 499,999	+0.3	-17.6	-1.4	-1.6	+1.6
City agencies 100,000 to 249,999	-3.4	-6.5	-8.7	-2.9	-2.7
City agencies 50,000 to 99,999	-0.9	-10.8	-7.4	+0.4	0.0
City agencies 25,000 to 49,999	-3.6	-9.3	-10.3	-3.6	-2.1
City agencies 10,000 to 24,999	-3.5	-6.1	-8.4	-3.8	-2.4
City agencies under 10,000	-4.3	-8.3	-10.5	+0.3	-3.5
Metropolitan counties	-1.5	-12.6	-8.7	+1.8	-0.6
Nonmetropolitan counties	-4.1	-5.4	-10.3	-10.7	-2.1
Suburban areas	-2.1	-10.2	-9.3	+0.1	-1.0

Nationwide, overall property crime and the offenses of burglary and larceny-theft showed decreases in estimates for 2022 compared to those for 2023, while estimates for motor vehicle theft offenses increased. Trends from agencies reporting 6 or more common months of data show mostly similar changes. Overall property crime increased in city agencies with 1,000,000 or more inhabitants and in city agencies with 250,000 to 499,999 inhabitants, largely driven by considerable increases in motor vehicle theft, which rose in these 2 population groups by 29.2 percent and 25.8 percent, respectively. Burglary offenses in each population group declined from 2022 to 2023, with the largest

drop (15.1 percent) observed for nonmetropolitan counties. City agencies with 1,000,000 or more inhabitants was the only population group showing an increase (2.2 percent) in larceny-theft offenses.

Table 3: Property Crime by Population Group, Trends, 2022 - 2023

Agency	Property Crime	Burglary	Larceny-theft	Motor vehicle theft
City agencies 1,000,000+	+6.0	-6.8	+2.2	+29.2
City agencies 500,000 to 999,999	-0.8	-5.7	-6.1	+19.6
City agencies 250,000 to 499,999	+2.4	-1.8	-3.2	+25.8
City agencies 100,000 to 249,999	-3.4	-5.0	-5.3	+6.9
City agencies 50,000 to 99,999	-2.6	-7.6	-3.5	+7.3
City agencies 25,000 to 49,999	-3.3	-7.4	-3.4	+2.0
City agencies 10,000 to 24,999	-5.3	-9.7	-4.9	-2.6
City agencies under 10,000	-3.5	-8.6	-3.3	+1.5
Metropolitan counties	-3.7	-8.4	-5.6	+12.0
Nonmetropolitan counties	-12.4	-15.1	-11.7	-10.4
Suburban areas	-3.3	-7.6	-4.4	+8.3

## Law Enforcement Officers Killed and Assaulted (LEOKA)

In 2023, 60 officers were feloniously killed in the line of duty. A total of 57 offenders were reported in connection with these felonious killings. Firearms were involved in 45 of the 60 felonious deaths. During the same year, 34 officers were accidentally killed while on duty, most of whom died due to motor vehicle-related injuries.

In 2023, reported LEOKA assaults — which include aggravated and simple assault offenses — reached a 10-year high with 79,091 officers assaulted in the line of duty. Most (77.3 percent) victim officers were assaulted with personal weapons, 4.3 percent were assaulted with firearms, and 2.0 percent were assaulted with knives or other cutting instruments; 16.4 percent were assaulted with weapons classified as other dangerous weapons. More than a quarter (27.3 percent) of assaults on officers occurred while the officers were responding to disturbance calls. Figure 13 displays the percent distributions of weapon types used against assaulted officers by circumstance.

For further LEOKA analyses, refer to the May 2024 publication *Officers Killed and Assaulted in the Line of Duty, 2023, Special Report*, which is located on the FBI's Crime Data Explorer (CDE) website at [CDE \(cde.ucr.cjis.gov\)](https://cde.ucr.cjis.gov).

Figure 13: Reported Officers Assaulted, by Weapon Type, by Circumstance, 2023

\*Due to rounding, the sum of the weapon type distributions may not add to 100.0 percent.

## Select Statistics from *Crime in the Nation, 2023*

- University/College Agencies
  - In 2023, 617 university/college agencies enrolling 9,613,023 students reported 2,773 violent crime offenses, including 10 murders, 953 rapes, 349 robberies, and 1,461 aggravated assaults.
  - Property crime reported by the 617 university/college agencies totaled 47,589 offenses, including 3,337 burglaries, 39,064 larceny-thefts, and 5,188 motor vehicle thefts.
  
- Tribal Agencies
  - In 2023, 138 tribal agencies reported 2,293 violent crime offenses, including 50 murders, 264 rapes, 115 robberies, and 1,864 aggravated assaults.
  - Property crime reported by the 138 tribal agencies totaled 8,406 offenses, including 1,113 burglaries, 5,998 larceny-thefts, and 1,295 motor vehicle thefts.
  
- Drug Types
  - The most frequent specified drug types (i.e., excluding those drug types described as “Other”) seized in connection with Drug/Narcotic Violations in 2023 were marijuana (seized in 417,661 incidents), meth/amphetamines (seized in 307,279 incidents), and cocaine (seized in 68,825 incidents).
  
- Human Trafficking
  - A total of 3,237 human trafficking offenses were reported in 2023.
  - Over three-quarters (2,486) were classified as commercial sex acts, and 751 were classified as involuntary servitude.
  
- Fraud Offenses
  - Nearly 1 million (987,933) victims were reported in connection with 911,820 fraud offenses in 2023.
  
- Police Employees
  - Nationwide in 2023, an average of 2.2 law enforcement officers were employed per 1,000 inhabitants.
  - Aside from an increase to 2.3 officers per 1,000 inhabitants in 2019 and a decrease to 2.1 officers per 1,000 inhabitants in 2015, the average national rate of employed law enforcement officers has remained steady at 2.2 per 1,000 inhabitants over the last 10 years.

## Extended-Year Violent and Property Crime Trends

Figure 14 shows 20-year trends in estimated violent crime rates per 100,000 inhabitants from 2004 to 2023. Rates of murder and nonnegligent manslaughter vary slightly from year to year but tend to remain close to the 20-year average of 5.4 murders per 100,000 inhabitants. Estimated rates during the 3 years from 2020 through 2022 were an average 6.6 murders per 100,000 inhabitants per year while the most recent 2023 estimate of 5.7 murders per 100,000 inhabitants returned to a rate closer to the 20-year average.

Due to changes in the FBI's UCR Program's definition of rape in 2013, a full 20-year trend comparison for this offense is unavailable. Although higher than estimated rape offense rates in 2013 and 2014 – 36.4 and 37.2 per 100,000 inhabitants, respectively – the estimated 38.0 rape offenses per 100,000 inhabitants in 2023 constituted a 9.7 percent decrease from the estimated 42.1 rape offenses per 100,000 inhabitants in the previous year of 2022, and a 15.0 percent decrease from the estimated 44.7 rape offenses per 100,000 inhabitants 5 years prior in 2018.

Robbery rates dropped nearly each year from 2007 to 2021, reaching an estimated 20-year low of 56.4 per 100,000 inhabitants in 2021. Aggravated assault rates decreased each year from 2005 to 2013. In the past 10 years, the highest rate of aggravated assault was in 2020, when it was estimated to be 277.7 per 100,000 inhabitants.

Despite the recent year-to-year decreases in all 4 violent crime categories, the estimated 2023 violent crime offense rates of murder (5.7 per 100,000 inhabitants) and aggravated assault (264.1 per 100,000 inhabitants) were elevated when compared with 2019, when the estimated murder and aggravated assault rates were 5.2 per 100,000 inhabitants and 247.9 per 100,000 inhabitants, respectively.

Figure 14: Violent Crime Offense Rates, Estimates, 2004 - 2023

Figure 15 shows 20-year trends in property crime rates per 100,000 inhabitants from 2004 to 2023. Larceny-theft and burglary rates each followed similar trends in the last 15 years: both offenses decreased from 2009 to 2021, increased in 2022, then decreased in 2023. Motor vehicle theft rates decreased from 2004 to 2014 and have since fluctuated. The largest year-to-year motor vehicle theft rate increase (17.8 percent) occurred from 2021 to 2022, and 2023 recorded the highest motor vehicle theft rate – 318.7 per 100,000 inhabitants – since 2007.

Figure 15: Property Crime Offense Rates, Estimates, 2004 - 2023

A 5-year analysis of estimated figures for robbery locations revealed the most common locations for robberies to occur are on highways, roads, streets, alleys, or sidewalks. In 2023, one-third, or an estimated 33.3 percent, of all robbery locations fell into this category. While highway robberies remain the highest volume location for each of the 5 years, the second highest estimated volume for specified locations, i.e., excluding robbery locations designated as miscellaneous, fluctuated between residences and commercial houses. Five (5) years prior, in 2019, more robberies were estimated to have occurred at commercial house locations rather than residence locations. The next 2 years, in 2020 and 2021, the estimated proportion of robberies increased for residences, surpassing commercial houses. This trend then reversed in 2022, with commercial houses again becoming the second most common specified location for robberies to occur based on estimated volume.

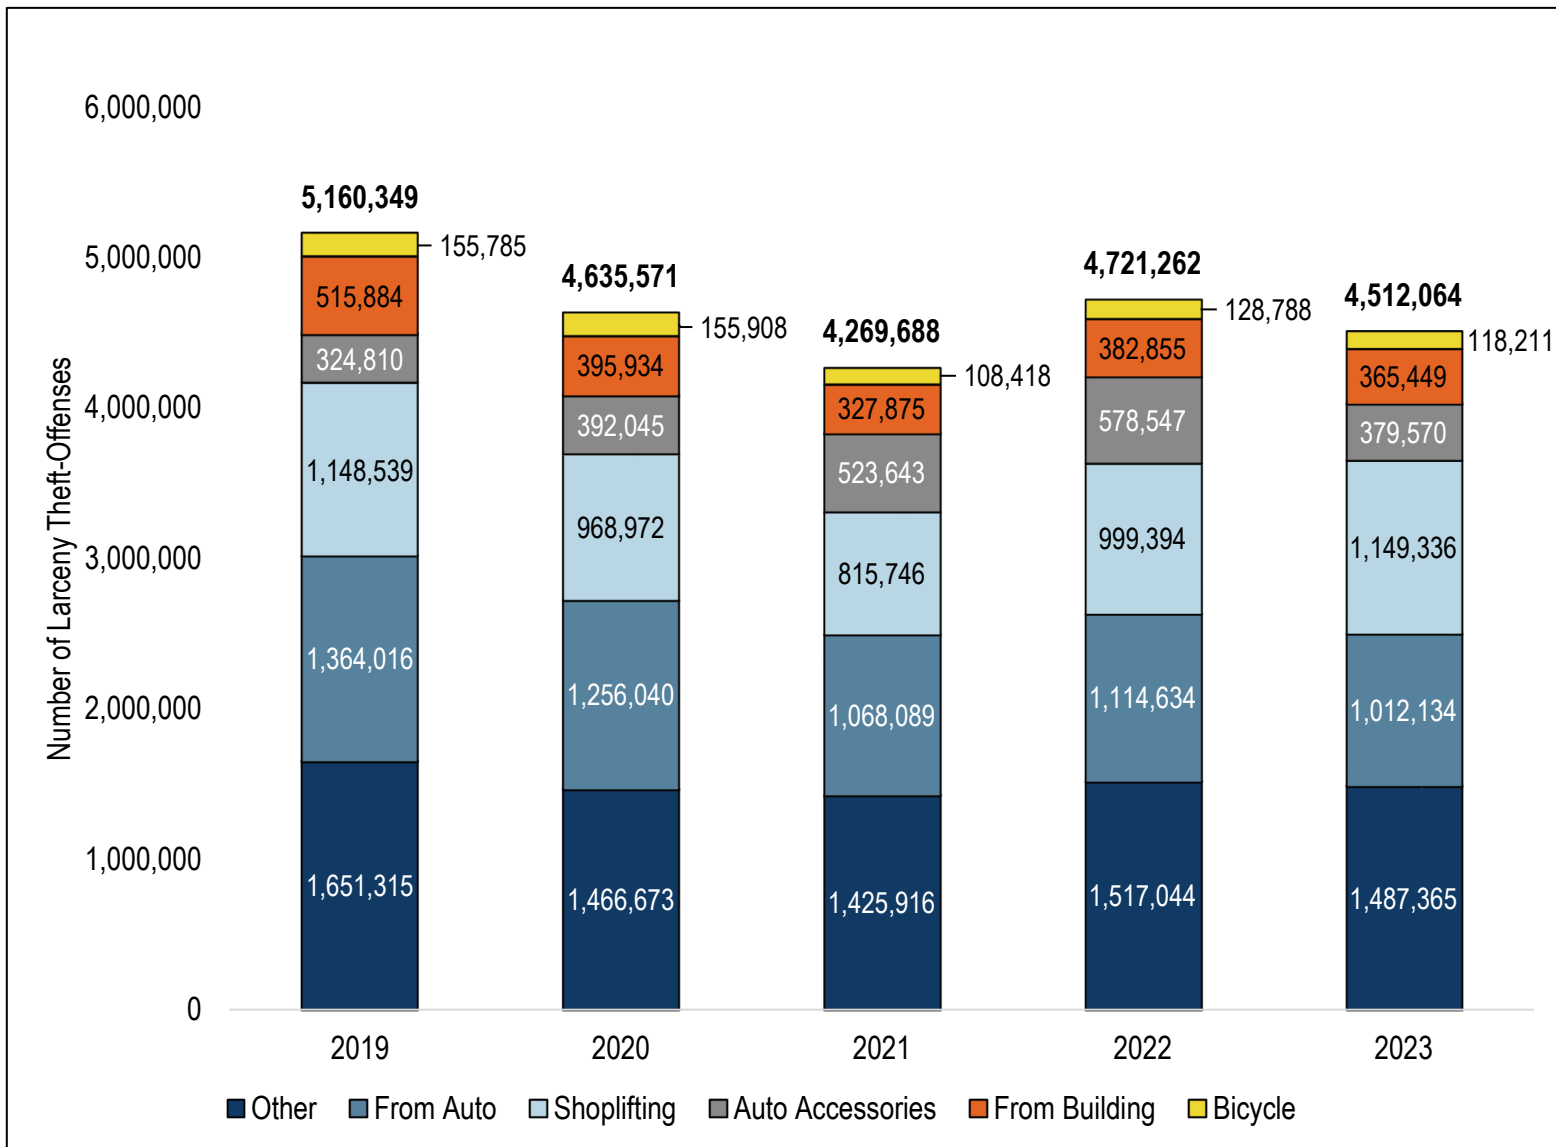

Figure 16: Robbery Locations, Estimates, 2019 - 2023

\*Due to rounding, the sum of the offenses may not add to the total.

Overall, larceny-thefts have decreased following a 5-year high of over 5 million estimated offenses in 2019. The FBI’s UCR Program collects data on specific types of reported larceny-thefts. From 2019 through 2022, larceny-theft from auto and shoplifting were estimated to be the first and second most common specified larceny-theft types respectively, i.e., excluding larceny-thefts designated as “all other.” In 2023, shoplifting surpassed larceny-theft from auto as the most common specified larceny-theft type.

Figure 17: Larceny-theft types, Estimates, 2019 - 2023

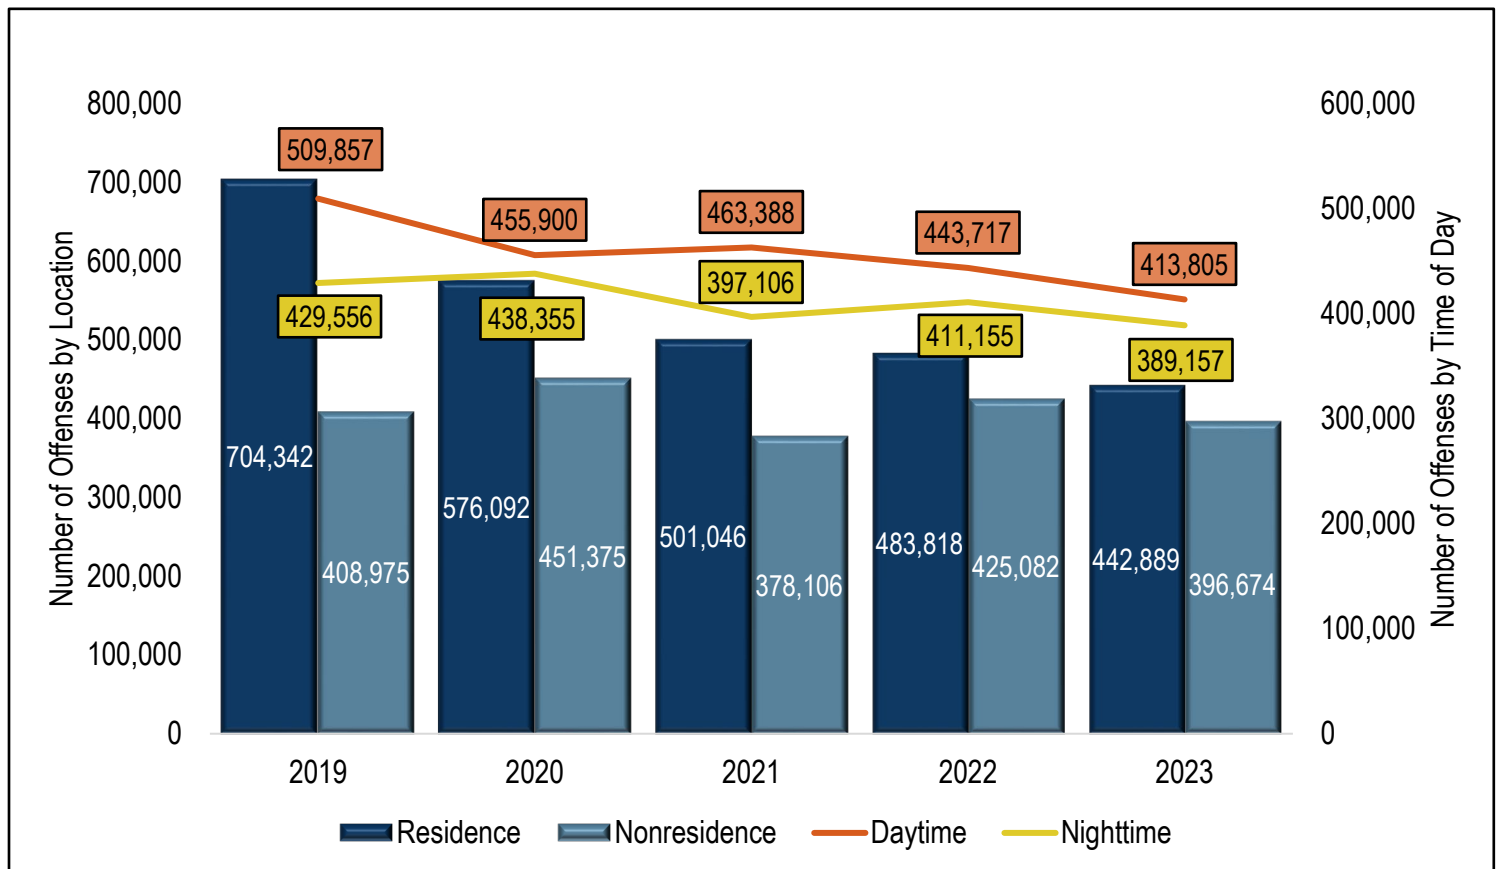

\*Due to rounding, the sum of the offenses may not add to the total.

Burglaries occurring in residence locations decreased each year from an estimated 704,342 offenses in 2019, to an estimated 442,889 in 2023. Burglaries occurring in non-residence locations, e.g., stores and offices, fluctuated over the past 5 years from an estimated 408,975 in 2019, to an estimated 396,674 in 2023.

Daytime burglaries decreased from an estimated 509,857 offenses in 2019, to an estimated 413,805 in 2023. Occurring less frequently than daytime burglaries, nighttime burglaries also decreased over the past 5 years from an estimated 429,556 in 2019, to an estimated 389,157 in 2023.

Figure 18: Burglary by Location and Time of Day, Estimates, 2019 - 2023

## Differences in Crime Measures

Information provided in *Crime in the Nation, 2023*, may not be directly comparable to material provided by other organizations that collect or publish data using other methodologies.

Each component of *Crime in the Nation, 2023*, was compiled from law enforcement data submitted to the FBI's UCR Program. Except for select *CIUS* estimation tables, which are approximations based on data provided by law enforcement agencies, *Crime in the Nation, 2023*, publishes data reported by law enforcement. To ensure the consistency and comparability of data, the FBI's UCR program requires the reported data to conform to certain submission standards, definitions, and specifications. Consequently, entities collecting crime data through different means and applying different methodologies may report volumes or statistics that are not equivalent to those reported in *Crime in the Nation, 2023*.

In addition to data published by the FBI's UCR Program, the U.S. Department of Justice administers other statistical programs to measure the impact of nationwide crime. Estimates based on NIBRS-only data will be available through the Bureau of Justice Statistics (BJS) this year in *Crime Known to Law Enforcement, 2023: NIBRS Estimation Program*. This report will produce valuable information about aspects of crime occurring nationwide and should be viewed as complementary to *Crime in the Nation, 2023*.

The FBI has consistently used estimation to generate annual crime statistics reports. Estimation allows for the reporting of crime statistics representative of the entire population, including the population represented by agencies that did not provide complete information to the FBI's UCR Program. Produced for decades, the more traditional *CIUS* estimations are based on a combination of aggregated SRS data for which only the 1 most serious offense within a criminal incident is counted and detailed NIBRS data converted to SRS. First published in *Crime in the Nation, 2021*, the newer NIBRS-only estimates are based exclusively on data submitted through NIBRS. Both collections are estimates and should be viewed as analogous measures, rather than as one being more accurate than the other.

Also available through BJS, the National Crime Victimization Survey (NCVS) collects information on crimes experienced by individuals and households whether or not those crimes were reported to law enforcement. There are a number of differences between BJS's NCVS and data published by the FBI's UCR Program, and each program has unique strengths. Together, they can provide a greater understanding of crime trends in the United States.

## Appendix: Collection Summaries

### *CIUS, 2023*

For more than 9 decades, the FBI has published crime data reported by law enforcement. A long running source of published data, the *CIUS* report contains a compilation of the volume and rate of violent and property crime offenses for the nation by state using SRS data and summarized data from NIBRS. Data at the level of local law enforcement agencies are also provided for those contributors supplying 12 months of complete offense data. Because not all law enforcement agencies provide data for complete reporting periods, the FBI includes estimated crime numbers in these national presentations.

*CIUS* presents data tables containing information on topics of offenses known to law enforcement, arrests, clearances, trends, rates, property stolen and recovered, and law enforcement employee data. Data in *CIUS, 2023*, include the following:

- Traditional Summary Estimations — statistics for the entire United States with estimated crime numbers accounting for law enforcement agencies that did not provide data for complete reporting periods.
  - Includes information about violent crime offenses (murder and nonnegligent manslaughter, rape, robbery, and aggravated assault) and property crime offenses (burglary, larceny-theft, and motor vehicle theft)
    - Estimated offense volume and rate – 20-year table presenting national estimates
    - Estimated offense percent change for 2 years, 5 years, and 10 years
    - Estimated offense volume and rate by community type
    - Estimated offense volume percent distribution by region
    - Estimated offense volume and rate percent change by region, geographic division, and state
    - Estimated offense volume and rate for each state by community type
    - Estimated offense volume and rate for each individual metropolitan statistical area
    - Estimated breakdown for the offenses of robbery (by location), burglary (by time of day), and larceny-theft (by type) over the last 5 years

- Offenses Known to Law Enforcement – information about violent crime offenses and property crime offenses for those agencies reporting 12 months of complete data
- Traditional Summary Trends – 2-year crime trends by population groupings and additional information about selected offenses
- Traditional Summary Rates – crime rates by population groupings and additional information about selected offenses
- Weapons – data concerning weapons used in the violent crimes of murder, robbery, and aggravated assault by state
- Property –
  - Analysis of the value of property lost through the crimes of robbery, burglary, motor vehicle theft, and larceny-theft
    - Table provides a percent change in offense volume, percent distribution of offense breakdowns, and the average value of property lost
  - Type and value of property stolen and recovered
- Clearances – information about crimes cleared either by arrest or exceptional means
  - By population groupings, geographic region, division, and additional information about selected offense
  - Percent of clearances involving persons under 18 years of age by population group
- Expanded Homicide Data – additional details about homicides and justifiable homicides that includes information about murder victims, offenders, weapons, victim to offender relationships, and circumstances
- Expanded Offense Data – additional data the program collects on the 8 offenses
  - May include the type of weapon and the type and value of items stolen depending on the offense
- Persons Arrested –
  - Number of arrests made by law enforcement and the age, sex, race, and ethnicity of arrestees for 28 offenses
  - Estimated number of arrests by offense
  - Number and rate of arrests by region and population groupings
  - 2-year, 5-year, and 10-year arrest trends
  - Disposition of juvenile offenders taken into custody
- Full-time Law Enforcement Employee Data – information regarding sworn officers and civilian law enforcement personnel
  - Volume and rate of law enforcement employees by region, geographic division, state, and by population group
  - Volume and rate of law enforcement officers by region, geographic division, state, and by population group

- Volume of full-time law enforcement employees by sex
- Federal Data – information about violent crime offenses and property crime offenses from contributing federal law enforcement agencies and employee data from participating federal agencies
- *Human Trafficking, 2023* – information about human trafficking (commercial sex acts and involuntary servitude) offenses, clearances, and arrests
- *Cargo Theft, 2023* – data collected on reported cargo theft offenses

Data users can access *CIUS, 2023*, through the Documents & Downloads section on the [CDE website](#). This offers users the ability to download tables and resources including methodology, tables by titles, area definitions, and offense definitions.

## *NIBRS, 2023*

NIBRS, established in 1989, is a crime data collection that improves the overall quality of crime data collected by law enforcement. NIBRS collects data for 71 Group A offenses that include NIBRS data elements, plus 10 additional Group B offenses for which only arrest data are gathered. It captures details about each single crime incident as well as details about separate offenses within the same incident including information on victims, known offenders, relationships between victims and offenders, arrestees, and property involved in crimes. For crime incidents, NIBRS can also provide circumstances and context like location, time of day, and whether the incident was cleared by arrest or exceptional means.

*NIBRS, 2023*, is based on data submitted to the FBI's UCR Program by law enforcement agencies via NIBRS for 1 or more months of the 2023 calendar year. It presents an overview of the offense categories that show the diversity and complexity of the data collected only via NIBRS and is not augmented by SRS data. In addition, the report includes detailed agency-level data by offense type in tables for all 50 states, the District of Columbia, and the territory of Guam. Data tables in *NIBRS, 2023*, include the following:

- Participation –
  - Number of law enforcement agencies and population covered, enrolled, participation status, and method of data submission by population group and participation by state
- Incident –
  - Incidents, offenses, victims, and known offenders by offense
- Victim –
  - Adult and juvenile age by offense
  - Age, sex, and race by offense
- Offender –
  - Adult and juvenile age by offense
  - Age, sex, and race by offense
- Arrestee –
  - Adult and juvenile age by offense
  - Age, sex, and race by offense
- Relationship –
  - Victims to offenders by offense
- Location –
  - Crimes against persons, property, and society by location

- Time-of-Day –
  - Crimes against persons, property, and society by time of day
- Type Weapon/Force Involved –
  - Offenses involving weapon use by type of weapon/force involved
- Offense Circumstance –
  - Murder and nonnegligent manslaughter and aggravated assault victims by circumstance
  - Negligent manslaughter victims by circumstance
  - Individuals justifiably killed by aggravated assault/homicide circumstance
- State Offense (Totals) –
  - Crimes against persons, property, and society by state
- Completed and Attempted Offenses –
  - Number of offenses completed and attempted by offense
- Clearance –
  - Incidents cleared by offense
- Suspected Use, Drugs/Narcotics and Alcohol –
  - Incidents with drugs/narcotics seized by suspected drug type
  - Offenses involving offender’s suspected use of drugs/narcotics and alcohol
- State –
  - Offenses by agency
- Federal –
  - Offenses by federal agencies that submitted NIBRS

Data users can access the *NIBRS, 2023*, tables through the Documents & Downloads section on the [CDE website](#). This offers users the ability to download tables and resources including methodology, component descriptions, offense definitions, and frequently asked questions about individual agency data.

## *Hate Crime Statistics, 2023*

Each year, the FBI publishes data concerning bias-motivated offenses reported by law enforcement to gauge the scope and nature of hate crime in the nation. This report chronicles crimes that were motivated, in whole or in part, by the offender's bias against the victim's race, ethnicity, ancestry, religion, sexual orientation, disability, gender, or gender identity, and were committed against persons, property, or society. Because determining motivation is subjective, it is sometimes difficult to know with certainty whether a crime resulted from the offender's bias. Moreover, the presence of bias alone does not necessarily mean that a crime can be considered a hate crime. Only when a law enforcement investigation reveals sufficient evidence to lead a reasonable and prudent person to conclude that the offender's *actions* were motivated, in whole or in part, by his or her bias, should an agency report an incident as a hate crime.

Law enforcement agencies report hate crimes brought to their attention monthly or quarterly to the FBI either through their state UCR Programs or directly. To be included in this release, NIBRS agencies must have submitted at least 1 *Group A Incident Report*, a *Group B Arrest Report*,<sup>4</sup> or a *Zero Report* for at least 1 month of the calendar year. Agencies that have not transitioned to NIBRS reporting must have either submitted a *Hate Crime Incident Report* or a *Zero Report* via the electronic hate crime record layout specified in the *Hate Crime Technical Specification*. The published data, therefore, do not necessarily represent reports from each participating agency for all 12 months (or 4 quarters) of the calendar year. Please note the FBI's UCR Program does not apply offense estimation procedures to account for missing data from agencies that do not participate in the Hate Crime Statistics Data Collection. Data tables in *Hate Crime Statistics, 2023*, include the following:

- Number of Participating Agencies and Population Covered by Population Group and Federal
- Incidents, Offenses, Victims, and Known Offenders by Bias Motivation
- Incidents, Offenses, Victims, and Known Offenders by Offense Type
- Known Offender's Race and Ethnicity by Bias Motivation
- Victim Type by Offense Type
- Offense Type by Bias Motivation
- Victim Type by Bias Motivation
- Known Offender's Race, Ethnicity, and Age
- Bias Motivation by Location

---

<sup>4</sup> Group A includes 71 offenses captured within NIBRS that include NIBRS data elements. Group B includes 10 additional offenses for which only arrest data are gathered.

- Offense Type by Participating State, Territory, and Federal
- Hate Crime Reporting by State, Territory, and Federal
- Hate Crime Incidents per Bias Motivation and Quarter by State, Territory, Federal, and Agency
- Hate Crime Zero Data Submitted per Quarter by State, Federal, and Agency

Data users can access *Hate Crime Statistics, 2023*, through the Documents & Downloads section on the [CDE website](#). This offers users the ability to download tables and resources including methodology, component descriptions, and offense definitions.

## LEOKA, 2023

An annual publication since 1972, the LEOKA report provides data on law enforcement officers who were feloniously killed, accidentally killed, or assaulted in the line of duty. The FBI's UCR Program collects information about assaults on duly sworn federal, state, local, tribal, university and college, and county law enforcement officers. For assault data to be included in *LEOKA, 2023*, law enforcement agencies must have submitted information for all 12 months of 2023 regarding their sworn officers who were assaulted, as well as the number of officers and civilians their agencies employed full time for the reporting year.

Line-of-duty death data are reported to the FBI's UCR Program by federal, state, local, tribal and other law enforcement agencies. Data tables in *LEOKA, 2023: Officers Feloniously Killed* include:

- Region, Geographic Division, and State
- Population Group/Agency Type
- Lighting and Weather Conditions by Location of Incident
- Time of Incident
- Day of Incident
- Time of Incident by Day of Incident
- Month of Incident
- Age Group of Victim Officer
- Years of Service of Victim Officer
- Age Group of Victim Officer by Years of Service
- Profile of Victim Officer, Average Demographics
- Race, Ethnicity, and Sex of Victim Officer
- Age Group of Victim Officer by Race and Sex
- Use of Firearm by Victim Officer, Assisting Officer, and Offender
- Victim Officer Killed with Own Weapon, Disarmed of Weapon, and Weapon Stolen by Offender
- Officer Killed with Own Weapon, Victim Officer's Type of Weapon
- Time of Incident by Type of Assignment
- Call for Service or Reason for Victim Officer's Involvement
- Circumstance Encountered by Victim Officer Upon Arrival at Scene of Incident
- Specific Activity Being Performed by Victim Officer at Time of Attack

- Officer Killed During Traffic-Related Incident, Location of Offender by Location of Victim Officer
- Type of Weapon
- State and Agency by Type of Weapon
- State and Agency by Progression of Circumstances
- Officer Killed with Firearm, Type of Firearm
- Officer Killed with Firearm, Type of Firearm by Distance Between Victim Officer and Offender
- Number of Victim Officers Wearing Uniform or Other Law Enforcement Identification Evident
- Number of Victim Officers Wearing Body Armor, Holster, or Uniform
- Officer Killed with Firearm and Wearing Body Armor, Location of Fatal Wound
- Officer Killed with Firearm While Wearing Body Armor, Type of Firearm
- Officer Killed with Firearm While Wearing Body Armor, Point of Entry for Fatal Torso Wounds
- Officer Killed with Firearm While Wearing Body Armor, Type of Firearm Penetrating Victim Officer's Body Armor
- Age Group of Known Offender
- Profile of Known Offender, Average Demographics
- Race, Ethnicity, and Sex of Known Offender
- Age Group of Known Offender by Race and Sex
- Status of Known Offender at Time of Incident
- Judicial History of Known Offender Prior to Incident
- Disposition of Known Offender

Data tables in *LEOKA, 2023: Officers Accidentally Killed* include:

- Region, Geographic Division, and State
- Population Group/Agency Type
- Time of Incident
- Day of Incident
- Time of Incident by Day of Incident
- Month of Incident
- Age Group of Victim Officer
- Years of Service of Victim Officer
- Age Group of Victim Officer by Years of Service
- Profile of Victim Officer, Average Demographics
- Race, Ethnicity, and Sex of Victim Officer
- Age Group of Victim Officer by Race and Sex
- Time of Incident by Type of Assignment

- Type of Accident and Activity of Victim Officer
- Type of Accident by Type of Assignment
- Lighting and Weather Conditions by Type of Accident
- State and Agency by Type of Accident

Data tables in *Federal Law Enforcement Officers Killed and Assaulted, 2023* include:

- Department, Agency, and Office by Number of Victim Officers and Known Offenders
- Department, Agency, and Office by Number of Victim Officers Killed and Injured
- Department, Agency, and Office by Extent of Injury of Victim Officer
- Extent of Injury of Victim Officer by Type of Weapon
- Department/Agency by Type of Weapon
- Region, Geographic Division, and State by Type of Weapon
- Department, Agency, and Office by Type of Weapon
- Department, Agency, and Office by Activity of Victim Officer
- Department, Agency, and Office by Disposition of Known Offender

Data tables in *LEOKA, 2023: Officers Assaulted* include:

- Law Enforcement Officers Assaulted by Region and Geographic Division
- Law Enforcement Officers Assaulted by Population Group
- Time of Incident by Number of Assaults and Percent Distribution
- Circumstance at Scene of Incident by Population Group and Percent Cleared
- Circumstance at Scene of Incident by Type of Assignment and Percent Distribution
- Type of Weapon and Percent Injured
- Region, Geographic Division, and State by Type of Weapon
- Population Group by Type of Weapon and Percent Distribution
- Circumstance at Scene of Incident by Type of Weapon and Percent Distribution

Data users can access the *LEOKA, 2023*, tables through the Documents & Downloads section on the [CDE website](#). The CDE offers users the ability to download tables and resources including methodologies, topic pages, data maps, and LEOKA figures.

## Area Definitions

The FBI's Uniform Crime Reporting (UCR) Program collects crime data and supplemental information that make it possible to generate a variety of statistical compilations, including data presented by reporting areas. These statistics provide data users with the opportunity to analyze local crime data in conjunction with data for areas of similar geographic location or population size. The reporting areas that the UCR Program uses in its data breakdowns include community types, population groups, and regions and geographic divisions. For community types, the UCR Program considers proximity to metropolitan areas using the Office of Management and Budget's (OMB's) designations. (Generally, sheriffs, county police, and state police report crimes within counties but outside cities; local police report crimes within city limits.) The number of inhabitants living in a locale (based on the U.S. Census Bureau's figures) determines the population group into which the program places it. Finally, in its geographic breakdowns, the UCR Program divides the United States into regions and divisions.

### ***Community types***

In order to assist data users who wish to analyze and present uniform statistical data about metropolitan areas, the UCR Program uses reporting units that represent major population centers. The program compiles data for these areas according to three types of communities:

**1. Metropolitan Statistical Areas (MSAs)**—Each MSA contains a principal city or urbanized area with a population of at least 50,000 inhabitants. MSAs include the principal city; the county in which the city is located; and other adjacent counties that have, as defined by the OMB, a high degree of economic and social integration with the principal city and county as measured through commuting. In the UCR Program, counties within an MSA are considered metropolitan. In addition, MSAs may cross state boundaries.

Some presentations in this publication refer to Metropolitan Divisions, which are subdivisions of an MSA that consists of a core with “a population of at least 2.5 million persons. A Metropolitan Division consists of one or more main/secondary counties that represent an employment center or centers, plus adjacent counties associated with the

main county or counties through commuting ties,” (*Federal Register* 65 [249]). Also, some tables reference suburban areas, which are subdivisions of MSAs that exclude the principal cities but include all the remaining cities (those having fewer than 50,000 inhabitants) and the unincorporated areas of the MSAs.

Note: Because the elements that comprise MSAs (particularly the geographic compositions) are subject to change, the program discourages data users from making year-to-year comparisons of MSA data.

**2. Cities Outside MSAs**—Ordinarily, cities outside MSAs are incorporated areas.

**3. Nonmetropolitan Counties Outside MSAs**—Most nonmetropolitan counties are composed of unincorporated areas.

Community types are further illustrated in the following table:

Metropolitan	Nonmetropolitan
Principal Cities (50,000+ inhabitants)	Cities outside Metropolitan Areas
Suburban Cities	
Metropolitan Counties	Nonmetropolitan Counties

***Population groups***

The UCR Program uses the following population group designations:

Population Group	Political Label	Population Range
I	City	250,000 and more
II	City	100,000 to 249,999
III	City	50,000 to 99,999
IV	City	25,000 to 49,999
V	City	10,000 to 24,999
VI <sup>1, 2</sup>	City	Less than 10,000
VIII (Nonmetropolitan County) <sup>2</sup>	County	N/A
IX (Metropolitan County) <sup>2</sup>	County	N/A

<sup>1</sup>Includes universities and colleges to which no population is attributed.

<sup>2</sup>Includes state police to which no population is attributed.

Individual law enforcement agencies are the source of UCR data. The number of agencies included in each population group may vary from year to year because of population growth, geopolitical consolidation, municipal incorporation, etc. In noncensus years, the UCR Program estimates population figures for individual jurisdictions. (A more comprehensive explanation of population estimations can be found in the *Methodology*.)

The table below shows the number of agencies within each population group that were eligible to participate in the UCR Program for 2023:

Population Group	Number of Agencies	Population Covered
I	90	62,868,569
II	243	35,272,619
III	516	35,924,635
IV	955	33,114,910
V	1,977	31,459,390
VI <sup>1, 2</sup>	1,0171	25,951,676
VIII (Nonmetropolitan County) <sup>2</sup>	2,900	27,395,543
IX (Metropolitan County) <sup>2</sup>	2,317	82,927,553
Total	19,169	334,914,895

<sup>1</sup>Includes universities and colleges to which no population is attributed.

<sup>2</sup>Includes state police to which no population is attributed.

### ***Regions and divisions***

The map below illustrates the four regions of the United States along with their nine geographic divisions as established by the U.S. Census Bureau. The UCR Program uses this widely recognized geographic organization when compiling the nation's crime data.

The following table lists the 50 states and the District of Columbia arranged according to the regions and geographic divisions of the United States.

## NORTHEASTERN STATES

New England	Middle Atlantic
Connecticut	New Jersey
Maine	New York
Massachusetts	Pennsylvania
New Hampshire	
Rhode Island	
Vermont	

## MIDWESTERN STATES

East North Central	West North Central
Illinois	Iowa
Indiana	Kansas
Michigan	Minnesota
Ohio	Missouri
Wisconsin	Nebraska
	North Dakota
	South Dakota

## **SOUTHERN STATES**

South Atlantic	East South Central
Delaware	Alabama
District of Columbia	Kentucky
Florida	Mississippi
Georgia	Tennessee
Maryland	West South Central
North Carolina	Arkansas
South Carolina	Louisiana
Virginia	Oklahoma
West Virginia	Texas

## **WESTERN STATES**

Mountain	Pacific
Arizona	Alaska
Colorado	California
Idaho	Hawaii

Montana	Oregon
Nevada	Washington
New Mexico	
Utah	
Wyoming	

## Offense Definitions

The Uniform Crime Reporting (UCR) Program's Summary Reporting System divides offenses into two groups, Part I and Part II crimes. For traditional presentations of data, such as the annual *Crime in the United States* publication, data submitted through the National Incident Based Reporting System (NIBRS) is converted to Summary. Each month participating law enforcement agencies submit information on the number of offenses that become known to them; those offenses cleared by arrest or exceptional means; and the age, sex, and race of persons arrested for each of the offenses. Summary reporting contributors provide only arrest data for Part II offenses.

The UCR Program collects data about **Part I** offenses in order to measure the level and scope of crime occurring throughout the nation. The program's founders chose these offenses because they are serious crimes, they occur with regularity in all areas of the country, and they are likely to be reported to the police. The **Part I** offenses are:

**Criminal homicide**—a.) Murder and nonnegligent manslaughter: the willful (nonnegligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, and accidental deaths are excluded. The program classifies justifiable homicides separately and limits the definition to: (1) the killing of a felon by a law enforcement officer in the line of duty; or (2) the killing of a felon, during the commission of a felony, by a private citizen. b.) Manslaughter by negligence: the killing of another person through gross negligence. Deaths of persons due to their own negligence, accidental deaths not resulting from gross negligence, and traffic fatalities are not included in the category manslaughter by negligence.

**Rape**—The penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.

**Robbery**—The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

**Aggravated assault**—An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Simple assaults are excluded.

**Burglary (breaking or entering)**—The unlawful entry of a structure to commit a felony or a theft. Attempted forcible entry is included.

**Larceny-theft (except motor vehicle theft)**—The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Examples are thefts of bicycles, motor vehicle parts and accessories, shoplifting, pocket-picking, or the stealing of any property or article that is not taken by force and violence or by fraud. Attempted larcenies are included. Embezzlement, confidence games, forgery, check fraud, etc., are excluded.

**Motor vehicle theft**—The theft or attempted theft of a motor vehicle. A motor vehicle is self-propelled and runs on land surface and not on rails. Motorboats, construction equipment, airplanes, and farming equipment are specifically excluded from this category.

**Arson**—Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

**Human trafficking, commercial sex acts**—Inducing a person by force, fraud, or coercion to participate in commercial sex acts, or in which the person induced to perform such act(s) has not attained 18 years of age.

**Human trafficking, involuntary servitude**—The obtaining of a person(s) through recruitment, harboring, transportation, or provision, and subjecting such persons by force, fraud, or coercion into involuntary servitude, peonage, debt bondage, or slavery (not to include commercial sex acts).

The **Part II** offenses, for which only arrest data are collected, are:

**Other assaults (simple)**—Assaults and attempted assaults where no weapon was used or no serious or aggravated injury resulted to the victim. Stalking, intimidation, coercion, and hazing are included.

**Forgery and counterfeiting**—The altering, copying, or imitating of something, without authority or right, with the intent to deceive or defraud by passing the copy or thing altered or imitated as that which is original or genuine; or the selling, buying, or possession of an altered, copied, or imitated thing with the intent to deceive or defraud. Attempts are included.

**Fraud**—The intentional perversion of the truth for the purpose of inducing another person or other entity in reliance upon it to part with something of value or to surrender a legal right. Fraudulent conversion, obtaining of money or property by false pretenses, confidence games, and bad checks, except forgeries and counterfeiting, are included.

**Embezzlement**—The unlawful misappropriation or misapplication by an offender to his/her own use or purpose of money, property, or some other thing of value entrusted to his/her care, custody, or control.

**Stolen property: buying, receiving, possessing**—Buying, receiving, possessing, selling, concealing, or transporting any property with the knowledge that it has been unlawfully taken, as by burglary, embezzlement, fraud, larceny, robbery, etc. Attempts are included.

**Vandalism**—To willfully or maliciously destroy, injure, disfigure, or deface any public or private property, real or personal, without the consent of the owner or person having custody or control by cutting, tearing, breaking, marking, painting, drawing, covering with filth, or any other such means as may be specified by local law. Attempts are included.

**Weapons: carrying, possessing, etc.**—The violation of laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, concealment, or use of firearms, cutting instruments, explosives, incendiary devices, or other deadly weapons. Attempts are included.

**Prostitution and commercialized vice**—The unlawful promotion of or participation in sexual activities for profit.

**Sex offenses (except rape, prostitution, and commercialized vice)**—Offenses against chastity, common decency, morals, and the like.

**Drug abuse violations**—The violation of laws prohibiting the production, distribution, and/or use of certain controlled substances. The unlawful cultivation, manufacture, distribution, sale, purchase, use, possession, transportation, or importation of any controlled drug or narcotic substance. Arrests for violations of state and local laws, specifically those relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs. The following drug categories are specified: opium or cocaine and their derivatives (morphine, heroin, codeine); marijuana; synthetic narcotics—manufactured narcotics that can cause true addiction (Demerol, methadone); and dangerous nonnarcotic drugs (barbiturates, Benzedrine).

**Gambling**—To unlawfully bet or wager money or something else of value; assist, promote, or operate a game of chance for money or some other stake; possess or transmit wagering information; manufacture, sell, purchase, possess, or transport gambling equipment, devices, or goods; or tamper with the outcome of a sporting event or contest to gain a gambling advantage.

**Offenses against the family and children**—Unlawful nonviolent acts by a family member (or legal guardian) that threaten the physical, mental, or economic well-being or morals of another family member and that are not classifiable as other offenses, such as assault or sex offenses. Attempts are included.

**Driving under the influence**—Driving or operating a motor vehicle or common carrier while mentally or physically impaired as the result of consuming an alcoholic beverage or using a drug or narcotic.

**Liquor laws**—The violation of state or local laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, or use of alcoholic beverages, not including driving under the influence and drunkenness. Federal violations are excluded.

**Drunkenness**—To drink alcoholic beverages to the extent that one's mental faculties and physical coordination are substantially impaired. Driving under the influence is excluded.

**Disorderly conduct**—Any behavior that tends to disturb the public peace or decorum, scandalize the community, or shock the public sense of morality.

**Vagrancy**—The violation of a court order, regulation, ordinance, or law requiring the withdrawal of persons from the streets or other specified areas; prohibiting persons from remaining in an area or place in an idle or aimless manner; or prohibiting persons from going from place to place without visible means of support.

**All other offenses**—All violations of state or local laws not specifically identified as Part I or Part II offenses, except traffic violations.

**Suspicion**—Arrested for no specific offense and released without formal charges being placed.

**Curfew and loitering laws (persons under age 18)**—Violations by juveniles of local curfew or loitering ordinances.

<sup>1</sup> The crime figures have been adjusted.<sup>2</sup> Populations are U.S. Census Bureau provisional estimates as of July 1 for each year except 2000 and 2010, which are decennial census counts.<sup>3</sup> The violent crime figures include the offenses of murder, rape (legacy definition), robbery, and aggravated assault.<sup>4</sup> The figures shown in this column for the offense of rape were estimated using the revised UCR definition of rape. See data declaration for further explanation.<sup>5</sup> The figures shown in this column for the offense of rape were estimated using the legacy UCR definition of rape. See data declaration for further explanation.

NOTE: Although arson data are included in the trend and clearance tables, sufficient data are not available to estimate totals for this offense. Therefore, no arson data are published in this table.

**Table 1A****Crime in the United States**

Percent Change in Volume and Rate per 100,000 Inhabitants for 2 years, 5 years, and 10 years

Years	Violent crime <sup>1</sup>	Violent crime rate	Murder and nonnegligent manslaughter	Murder and nonnegligent manslaughter rate	Rape (revised definition) <sup>2</sup>	Rape (revised definition) rate <sup>2</sup>	Rape (legacy definition) <sup>3</sup>	Rape (legacy definition) rate <sup>3</sup>	Robbery	Robbery rate	Aggravated assault	Aggravated assault rate	Property crime	Property crime rate	Burglary	Burglary rate	Larceny-theft	Larceny-theft rate	Motor vehicle theft	Motor vehicle theft rate
2023/2022	-3.0	-3.5	-11.6	-12.0	-9.4	-9.8	-9.4	-9.9	-0.3	-0.8	-2.8	-3.3	-2.4	-2.9	-7.6	-8.1	-4.4	-4.9	+12.6	+12.0
2023/2019	+1.9	-0.2	+13.5	+11.2	-12.3	-14.1	-10.0	-11.8	-15.4	-17.1	+8.7	+6.5	-8.3	-10.1	-24.6	-26.1	-12.6	-14.3	+47.2	+44.3
2023/2014	+5.1	+0.1	+35.4	+28.9	+7.4	+2.2	+9.8	+4.6	-31.5	-34.8	+20.1	+14.4	-22.2	-26.0	-51.3	-53.7	-22.7	-26.4	+53.9	+46.5

<sup>1</sup> The violent crime figures include the offenses of murder, rape (legacy definition), robbery, and aggravated assault.<sup>2</sup> The figures shown in this column for the offense of rape were estimated using the revised UCR definition of rape. See data declaration for further explanation.<sup>3</sup> The figures shown in this column for the offense of rape were estimated using the legacy UCR definition of rape. See data declaration for further explanation.

<sup>1</sup> Population figures are U.S. Census Bureau provisional estimates as of July 1, 2023.

<sup>2</sup> The percentage reported under "Area actually reporting" is based upon the population covered by agencies providing 3 months or more of crime reports to the FBI.

NOTE: Although arson data are included in the trend and clearance tables, sufficient data are not available to estimate totals for this offense. Therefore, no arson data are published in this table.

**Table 3****Crime in the United States**

Offense and Population Percent Distribution by Region, 2023

<sup>1</sup> The previous year's crime figures have been adjusted.

<sup>2</sup> Population figures are U.S. Census Bureau provisional estimates as of July 1, 2022.

<sup>3</sup> Includes offenses reported by the Metro Transit Police and the District of Columbia Fire and Emergency Medical Services: Arson Investigation Unit.

<sup>4</sup> Limited data for 2023 were available for Florida.

\* Less than one-tenth of 1 percent.

NOTE: Although arson data are included in the trend and clearance tables, sufficient data are not available to estimate totals for this offense. Therefore, no arson data are published in this table.

<sup>1</sup> Population figures are U.S. Census Bureau provisional estimates as of July 1, 2022.

<sup>2</sup> Includes offenses reported by the Metro Transit Police and the District of Columbia Fire and Emergency Medical Services: Arson Investigation Unit.

<sup>3</sup> Limited data for 2023 were available for Florida.

NOTE: Although arson data are included in the trend and clearance tables, sufficient data are not available to estimate totals for this offense. Therefore, no arson data are published in this table.

<sup>1</sup> The crime figures have been adjusted.<sup>3</sup> Because of rounding, the number of offenses may not add to the total.

## Offenses Known to Law Enforcement

The FBI's Uniform Crime Reporting (UCR) Program collects the number of offenses that come to the attention of law enforcement for violent crime and property crime, as well as data regarding clearances of these offenses. In addition, the FBI collects auxiliary information about these offenses (e.g., time of day of burglaries). The expanded offense data include trends in both crime volume and crime rate per 100,000 inhabitants. Finally, the UCR Program collects expanded homicide data, which includes information about homicide victims and offenders, weapons used, the circumstances surrounding the offenses, and justifiable homicides.

### ***Violent Crime***

Violent crime is composed of four offenses: murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Violent crimes are defined in the UCR Program as those offenses that involve force or threat of force.

The Violent Crime topic page provides more information about violent crime and an overview of violent crime data for 2023.

### ***Property Crime***

Property crime includes the offenses of burglary, larceny-theft, motor vehicle theft, and arson. The object of the theft-type offenses is the taking of money or property, but there is no force or threat of force against the victims.

The Property Crime topic page provides more information about property crime and an overview of property crime data for 2023.

### ***Clearances***

Within the UCR Program, law enforcement agencies can clear, or “close,” offenses in one of two ways: by arrest or by exceptional means. Although agencies may administratively close a case, this does not necessarily mean that the agency can clear the offense for UCR purposes.

The Clearances topic page provides more information about the criteria used to clear an offense for UCR purposes and an overview of clearance data for 2023.

### ***Expanded offense data***

The FBI collects the number of offenses for the crimes of murder and nonnegligent manslaughter, rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson through the UCR Program. In addition to the number of offenses known to the police, the FBI also collects other data about these offenses, such as the locations of robberies, time of day of burglaries, and types of larcenies. These expanded data include 2-year trends concerning additional information about select offenses (e.g., type of weapon), 2-year trends for crime volumes, and current year crime rates per 100,000 inhabitants.

See the Expanded Offense Data topic page for more information.

### ***Expanded homicide data***

The Expanded Homicide Data section of this publication provides information regarding the age, sex, race, and ethnicity of both the murder victim and the offender; the type of weapon used in the murder; the relationship of the victim to the offender; and the circumstance surrounding the incident. These data also include information about justifiable homicides.

See the Expanded Homicide Data topic page for more information.

<sup>1</sup> The student enrollment figures provided by the United States Department of Education are for the 2022 school year, the most recent available. The enrollment figures include full-time and part-time students.

<sup>2</sup> Student enrollment figures were not available.

<sup>3</sup> Limited data for 2023 were available for Florida.

NOTE: Caution should be exercised in making any intercampus comparisons or ranking schools because university/college crime statistics are affected by a variety of factors. These include demographic characteristics of the surrounding community, ratio of male to female students, number of on-campus residents, accessibility of the campus to outside visitors, size of enrollment, etc.

**Table 10****Offenses Known to Law Enforcement****by State by Metropolitan and Nonmetropolitan Counties, 2023**

[The data shown in this table do not reflect county totals but are the number of offenses reported by the sheriff's office or county police department.]

<sup>1</sup>The FBI does not publish arson data unless it receives data from either the agency or the state for all 12 months of the calendar year.

<sup>2</sup>Limited data for 2023 were available for Florida.

## **Crime clock long description**

This representation of crime data shows the relative frequency of how often violent and property crime offenses occurred in 2023. (Note that the Crime Clock should not be taken to imply regularity in the commission of crime. The Crime Clock represents the annual ratio of crime to fixed time intervals.) A violent crime was committed every 25.9 seconds. A murder occurred every 27.3 minutes, a rape every 4.1 minutes, a robbery every 2.4 minutes, and an aggravated assault every 35.7 seconds. A property crime offense was committed every 4.9 seconds. A burglary offense occurred every 37.6 seconds, a larceny-theft every 7.0 seconds, and a motor vehicle theft every 29.5 seconds.

# 2023 CRIME CLOCK STATISTICS

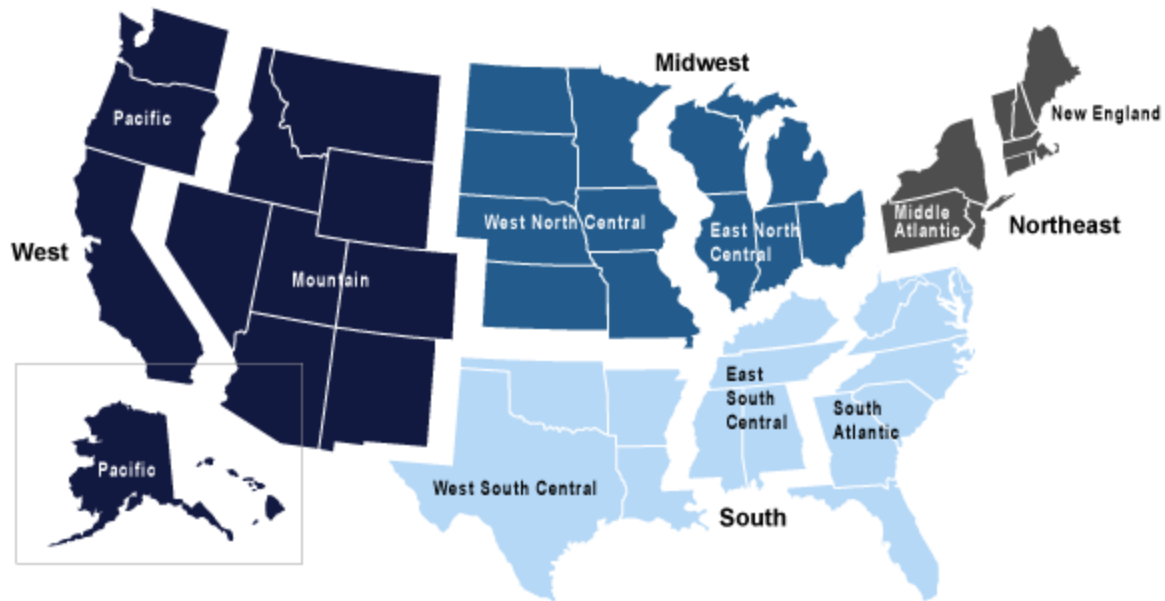

<b>A Violent Crime occurred every</b>	<b>25.9 seconds</b>
One Murder every	27.3 minutes
One Rape every	4.1 minutes
One Robbery every	2.4 minutes
One Aggravated Assault every	35.7 seconds

<b>A Property Crime occurred every</b>	<b>4.9 seconds</b>
One Burglary every	37.6 seconds
One Larceny-theft every	7.0 seconds
One Motor Vehicle Theft every	29.5 seconds

## **Regional map figure**

This map illustrates the four regions of the United States along with their nine geographic divisions as established by the U.S. Census Bureau.

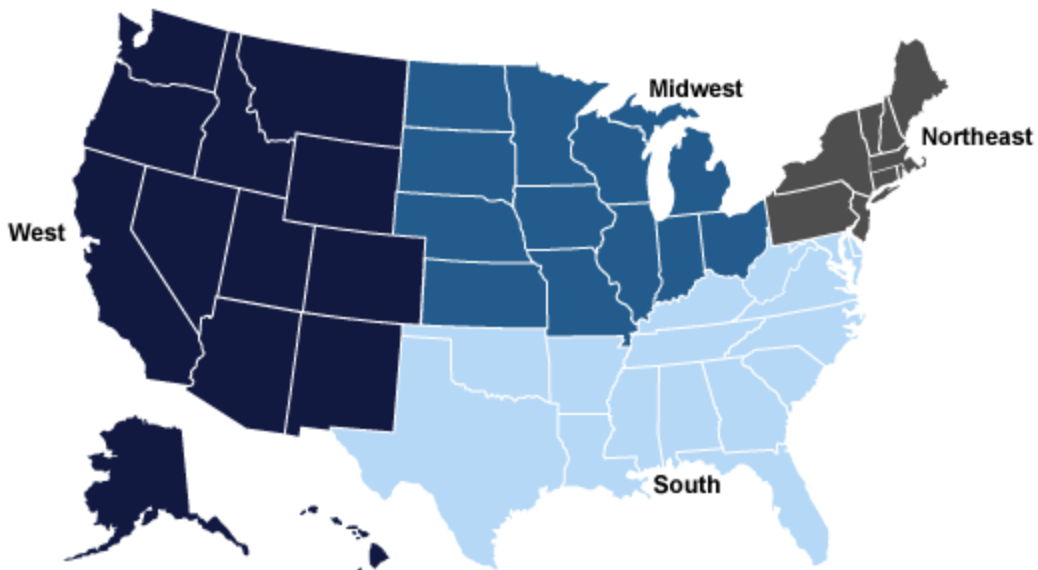

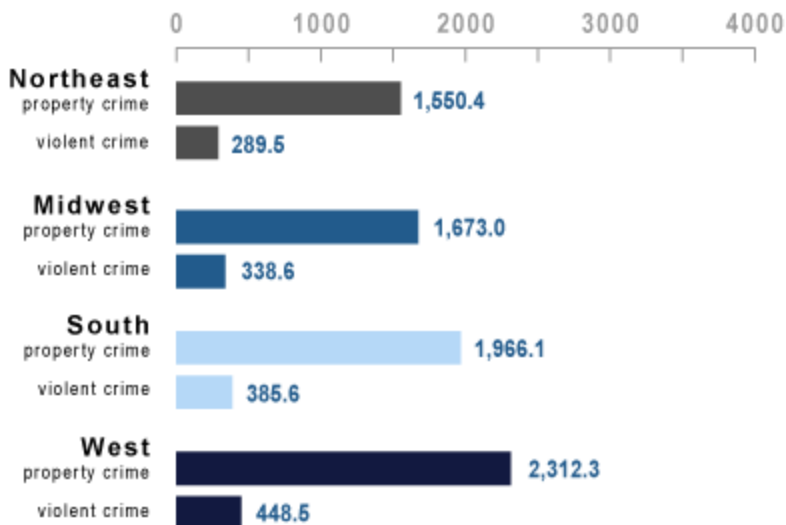

### **Regional crime rates figure long description**

This figure is a bar graph that presents the number of property and violent crimes per 100,000 inhabitants for the four regions of the nation in 2023, along with a map that defines the four regions by shading. The regional rates for violent and property crimes per 100,000 inhabitants were as follows: in the Northeast, 1,550.4 property crimes and 289.5 violent crimes; in the Midwest, 1,673.0 property crimes and 338.6 violent crimes; in the South, 1,966.1 property crimes and 385.6 violent crimes; and in the West, 2,312.3 property crimes and 448.5 violent crimes. The statistics for this figure are derived from Table 4.

<sup>1</sup> Includes state police agencies that report aggregately for the entire state.

<sup>2</sup> Suburban areas include law enforcement agencies in cities with less than 50,000 inhabitants and county law enforcement agencies that are within a Metropolitan Statistical Area. Suburban areas exclude all metropolitan agencies associated with a principal city. The agencies associated with suburban areas also appear in other groups within this table.

\* Less than one-tenth of 1 percent.

# Violent Crime

## *Definition*

- In the FBI's Uniform Crime Reporting (UCR) Program, violent crime is composed of four offenses: murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Violent crimes are defined in the UCR Program as those offenses that involve force or threat of force.

## *Data collection*

- The data presented in *Crime in the United States* reflect the Hierarchy Rule, which requires that only the most serious offense in a multiple-offense criminal incident be counted. The descending order of UCR violent crimes are murder and nonnegligent manslaughter, rape, robbery, and aggravated assault, followed by the property crimes of burglary, larceny-theft, and motor vehicle theft. Although arson is also a property crime, the Hierarchy Rule does not apply to the offense of arson. In cases in which an arson occurs in conjunction with another violent or property crime, both the arson and the additional crime are reported.

In 2016, the FBI Director approved the recommendation to discontinue reporting of rape data using the UCR legacy definition beginning in 2017. However, to maintain the 20-year trend in Table 1, the rape total for the legacy definition is used to calculate the violent crime total.

## *Overview*

- In 2023, an estimated 1,218,467 violent crimes occurred nationwide, a decrease of 3.0 percent from the 2022 estimate. (See Tables 1 and 1A.)
- When considering 5- and 10-year trends, the 2023 estimated violent crime total was 1.9 percent above the 2019 level and 5.1 percent above the 2014 level. (See Tables 1 and 1A.)
- There were an estimated 363.8 violent crimes per 100,000 inhabitants in 2023, a rate that decreased 3.5 percent when compared with the 2022 estimated violent

crime rate and decreased 0.2 percent from the 2019 estimate. (See Tables 1 and 1A.)

- Aggravated assaults accounted for 72.6 percent of violent crimes reported to law enforcement in 2023. Robbery offenses accounted for 18.3 percent of violent crime offenses; rape (legacy definition) accounted for 7.5 percent; and murder accounted for 1.6 percent. (Based on Table 1.)
- Information collected regarding types of weapons used in violent crimes showed that firearms were used in 76.4 percent of the nation's murders, 35.9 percent of robberies, and 35.0 percent of aggravated assaults. (Weapons data are not collected for rape.) (See Expanded Homicide Data Table 7, Robbery Table 3, and the Aggravated Assault Table.)

## **Violent crime long description**

This figure is a line graph that presents trends in the estimated number of violent crimes for the nation from 2019 through 2023. In 2019, there were 1,195,986 violent crimes. In 2020, there were 1,272,812 violent crimes. In 2021, there were 1,197,930 violent crimes. In 2022, there were 1,256,671 violent crimes. In 2023, there were 1,218,467 violent crimes. The figure is based on statistics from Table 1.

## Violent Crime Offense Figure

### Five-Year Trend, 2019-2023

Estimated  
number of offenses

# Murder

## *Definition*

The FBI's Uniform Crime Reporting (UCR) Program defines murder and nonnegligent manslaughter as the willful (nonnegligent) killing of one human being by another.

The classification of this offense is based solely on police investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body. The UCR Program does not include the following situations in this offense classification: deaths caused by negligence, suicide, or accident; justifiable homicides; and attempts to murder or assaults to murder, which are classified as aggravated assaults.

## *Data collection*

In addition to the number of murder offenses known, the UCR Program also encourages law enforcement agencies to report supplementary homicide data as well as information about justifiable homicides that may have occurred within their jurisdictions.

**Supplementary Homicide Data**—The UCR Program's supplementary homicide data provide information regarding the age, sex, race, and ethnicity of the murder victim and the offender; the type of weapon used; the relationship of the victim to the offender; and the circumstances surrounding the incident. Law enforcement agencies are asked—but not required—to provide complete supplementary homicide data for each murder they report to the UCR Program. Information gleaned from these supplementary homicide data can be viewed in the Expanded Homicide Data section.

**Justifiable homicide**—Certain willful killings must be reported as justifiable or excusable. In the UCR Program, justifiable homicide is defined as and limited to:

- The killing of a felon by a peace officer in the line of duty.
- The killing of a felon, during the commission of a felony, by a private citizen.

Because these killings are determined through law enforcement investigation to be justifiable, they are tabulated separately from murder and nonnegligent manslaughter.

More information about justifiable homicide is furnished in the Expanded Homicide Data section and in Expanded Homicide Data Table 14, “Justifiable Homicide by Weapon, Law Enforcement, 2019–2023,” and Expanded Homicide Data Table 15, “Justifiable Homicide by Weapon, Private Citizen, 2019–2023.”

### ***Overview***

- In 2023, the estimated number of murders in the nation was 19,252. This was an 11.6 percent decrease from the 2022 estimate, a 13.5 percent increase from the 2019 figure, and a 35.4 percent increase from the number in 2014. (See Tables 1 and 1A.)
- There were 5.7 murders per 100,000 people in 2023. The murder rate in 2023 was down from the rate in 2022 (12.0 percent). The murder rate was up 11.2 percent when compared with the 2019 rate and 28.9 percent from the 2014 rate. (See Tables 1 and 1A.)
- Of the estimated number of murders in the United States, 48.7 percent were reported in the South, 20.5 percent were reported in the West, 19.7 percent were reported in the Midwest, and 11.1 percent were reported in the Northeast. (See Table 3.)

### ***Expanded data***

UCR expanded offense data are details of the various offenses that the UCR Program collects beyond the count of how many crimes law enforcement agencies report. These details may include the type of weapon used in a crime, type or value of items stolen, and so forth. In addition, expanded data include trends (for example, 2-year comparisons) and rates per 100,000 inhabitants.

Expanded information regarding murder is available in the following tables:

Trends (2-year): Tables 12, 13, and 14

Rates (per 100,000 inhabitants): Tables 16, 17, and 18

Expanded Homicide Data (supplementary homicide information):

Victim data: Expanded Homicide Data Tables 1, 2, 4, 5, 6, 8, 9, 10, 12, and 13

Offender data: Expanded Homicide Data Tables 3, 5, and 6

Victim/offender relationship data: Expanded Homicide Data Table 10

Circumstance data: Expanded Homicide Data Tables 10, 11, 12, and 13

Weapons data: Expanded Homicide Data Tables 7, 8, 9, 11, 14, 15, and Table 20

<sup>1</sup> Total number of murders for which supplemental homicide data were received.<sup>2</sup> Drowning and strangulation are included in other weapons.<sup>3</sup> Pushed or thrown out window is included in hands, fists, feet, etc.

NOTE: The weapons of pushed or thrown out window, drowning, and strangulation are only reported by Summary reporting agencies. These weapons are not collected via the National Incident Based Reporting System.

# Rape

## *Definition*

In 2013, the FBI Uniform Crime Reporting (UCR) Program began collecting rape data under a revised definition within the Summary Reporting System. Previously, offense data for forcible rape were collected under the legacy UCR definition: the carnal knowledge of a female forcibly and against her will. Beginning with the 2013 data year, the term “forcible” was removed from the offense title, and the definition was changed. The revised UCR definition of rape is penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim. Attempts or assaults to commit rape are also included in the statistics presented here; however, statutory rape and incest are excluded.

In 2016, the FBI Director approved the recommendation to discontinue the reporting of rape data using the UCR legacy definition beginning in 2017. However, to maintain the 20-year trend in Table 1, national estimates for rape under the legacy definition are provided along with estimates under the revised definition for 2017.

## *Data collection*

The UCR Program counts one offense for each victim of a rape, attempted rape, or assault with intent to rape, regardless of the victim’s age. Non-consensual sexual relations involving a familial member is considered rape, not incest. All other crimes of a sexual nature are considered to be Part II offenses; as such, the UCR Program collects only arrest data for those crimes. The offense of statutory rape, in which no force is used but the female victim is under the age of consent, is included in the arrest total for the sex offenses category.

## *Overview*

There were an estimated 127,216 rapes (revised definition) reported to law enforcement in 2023. This estimate was 9.4 percent lower than the 2022 estimate and 12.3 percent lower than the 2019 estimate. (See Tables 1 and 1A.)

### ***Expanded data***

Expanded offense data are the details of the various offenses that the UCR Program collects beyond the count of how many crimes law enforcement agencies report. These details may include the type of weapon used in a crime, type or value of items stolen, and so forth. In addition, expanded data include trends (for example, 2-year comparisons) and rates per 100,000 inhabitants.

Expanded information regarding rape is available in the following tables:

Trends (2-year): Tables 12, 13, 14, and 15

Rates (per 100,000 inhabitants): Tables 16, 17, 18, and 19

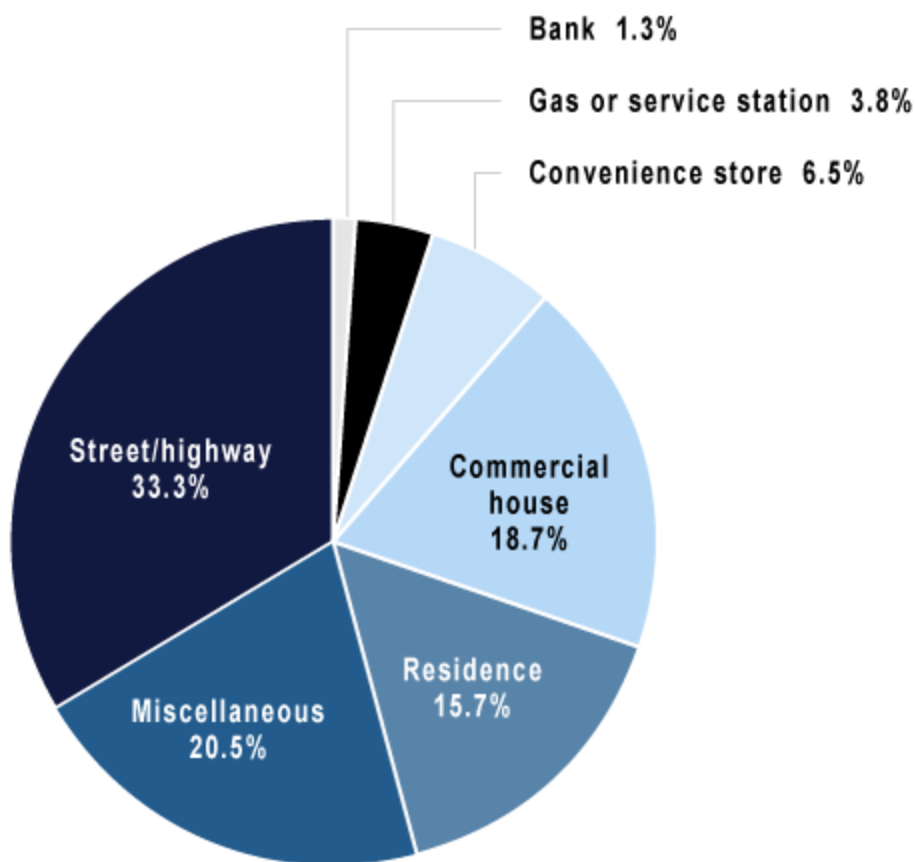

### **Robbery location figure description**

This figure is a pie chart that shows the percentages of robbery offenses by location type in 2023. In the nation, 33.3 percent of robbery offenses occurred on streets or highways, 18.7 percent occurred at commercial houses, 15.7 percent occurred at residences, 6.5 percent occurred at convenience stores, 3.8 percent occurred at gas or service stations, 1.3 percent occurred at banks, and 20.5 percent occurred at miscellaneous locations.

## Robbery Location Figure

Percent Distribution,<sup>1</sup> 2023

<sup>1</sup> Due to rounding, the percentages may not add to 100.0.

# Robbery

## *Definition*

The FBI's Uniform Crime Reporting (UCR) Program defines robbery as taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

## *Overview*

- There were an estimated 222,795 robberies nationwide in 2023. The estimated number of robberies was down 0.3 percent from the 2022 estimate and decreased 15.4 percent from the 2019 estimate. The 2023 estimate was down 31.5 percent from the 2014 estimate. (See Tables 1 and 1A.)
- The estimated robbery rate of 66.5 per 100,000 inhabitants in 2023 showed a decrease of 0.8 percent when compared with the 2022 rate. (See Tables 1 and 1A.)
- Among the robberies for which the UCR Program received weapon information in 2023, strong-arm tactics were used in 44.2 percent, firearms in 35.9 percent, and knives or cutting instruments in 8.4 percent. Other dangerous weapons were used in 11.5 percent of robberies in 2023. (Based on Table 19.)

## *Expanded data*

Expanded offense data are the details of the various offenses that the UCR Program collects beyond the count of how many crimes law enforcement agencies report. These details may include the type of weapon used in a crime, type or value of items stolen, and so forth. In addition, expanded data include trends (for example, 2-year comparisons) and rates per 100,000 inhabitants.

Expanded information regarding robbery is available in the following tables:

Trends (2-year): Tables 12, 13, 14, and 15

Rates (per 100,000 inhabitants): Tables 16, 17, 18, and 19

Weapons: Tables 15, 19, and 21

Location Type, average value of items stolen by location per robbery: Table 23

# Aggravated Assault

## *Definition*

The FBI's Uniform Crime Reporting (UCR) Program defines aggravated assault as an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. The UCR Program further specifies that this type of assault is usually accompanied by the use of a weapon or by other means likely to produce death or great bodily harm. Attempted aggravated assault that involves the display of—or threat to use—a gun, knife, or other weapon is included in this crime category because serious personal injury would likely result if the assault were completed. When aggravated assault and larceny-theft occur together, the offense falls under the category of robbery.

## *Overview*

- In 2023, there were an estimated 884,550 aggravated assaults in the nation. The estimated number of aggravated assaults decreased 2.8 percent when compared with the 2022 estimate and increased 20.1 percent when compared with the 2014 estimate. (See Tables 1 and 1A.)
- The estimated rate of aggravated assaults in 2023 was 264.1 per 100,000 inhabitants. From 2014 to 2023, the rate of aggravated assaults increased 14.4 percent. (See Tables 1 and 1A.)
- Of the aggravated assault offenses for which law enforcement provided expanded data in 2023, 35.0 percent were committed with firearms. Personal weapons, such as hands, fists, or feet, were used in 20.1 percent of aggravated assaults, and knives or cutting instruments were used in 16.1 percent. Other weapons were used in 28.8 percent of aggravated assaults. (Based on Table 19.)

## *Expanded data*

Expanded offense data are the details of the various offenses that the UCR Program collects beyond the count of how many crimes law enforcement agencies report. These details may include the type of weapon used in a crime, type or value of items stolen, and

so forth. In addition, expanded data include trends (for example, 2-year comparisons) and rates per 100,000 inhabitants.

Expanded information regarding aggravated assault is available in the following tables:

Trends (2-year): Tables 12, 13, 14, and 15

Rates (per 100,000 inhabitants): Tables 16, 17, 18, and 19

Weapons: Tables 15, 19, and 22

<sup>1</sup> The number of aggravated assaults from agencies that submitted 12 months of data in 2023 for which breakdowns by type of weapon were included.<sup>2</sup> Limited data for 2023 were available for Florida.

## **Property crime long description**

This figure is a line graph that presents the trend in the estimated number of property crimes for the nation from 2019 to 2023. In 2019, there were 6,998,864 property crimes. In 2020, there were 6,480,524 property crimes. In 2021, there were 5,950,311 property crimes. In 2022, there were 6,578,281 property crimes. In 2023, there were 6,419,149 property crimes. The figure is based on statistics from Table 1.

## Property Crime Offense Figure

Five-Year Trend, 2019-2023

Estimated  
number of offenses

## Property Crime

### ***Definition***

In the FBI's Uniform Crime Reporting (UCR) Program, property crime includes the offenses of burglary, larceny-theft, motor vehicle theft, and arson. The object of the theft-type offenses is the taking of money or property, but there is no force or threat of force against the victims. The property crime category includes arson because the offense involves the destruction of property; however, arson victims may be subjected to force. Because of limited participation and varying collection procedures by local law enforcement agencies, only limited data are available for arson. Arson statistics are included in trend, clearance, and arrest tables throughout *Crime in the United States*, but they are not included in any estimated volume data. The arson section in this report provides more information on that offense.

### ***Data collection***

The data presented in *Crime in the United States* reflect the Hierarchy Rule, which requires that only the most serious offense in a multiple-offense criminal incident be counted. In descending order of severity, the violent crimes are murder and nonnegligent manslaughter, rape, robbery, and aggravated assault, followed by the property crimes of burglary, larceny-theft, and motor vehicle theft. Although arson is also a property crime, the Hierarchy Rule does not apply to the offense of arson. In cases in which arson occurs in conjunction with another violent or property crime, both crimes are reported.

### ***Overview***

- In 2023, there were an estimated 6,419,149 property crime offenses in the nation. The 2-year trend showed that property crime offenses decreased 2.4 percent in 2023 when compared with the 2022 estimate. The 10-year trend showed that property crime offenses decreased 22.2 percent in 2023 when compared with the 2014 estimate. (See Tables 1 and 1A.)
- In 2023, the rate of property crime was estimated at 1,916.7 per 100,000 inhabitants, a 2.9 percent decrease when compared with the 2022 estimated rate.

The 2023 property crime rate was 10.1 percent less than the 2019 estimate and 26.0 percent less than the 2014 estimate. (See Tables 1 and 1A.)

- Larceny-theft accounted for 70.3 percent of all property crimes in 2023. Motor vehicle theft for 16.6 percent, and burglary accounted for 13.1 percent. (Based on Table 1.)

**Table 24****Property Stolen and Recovered**

by Type and Value, 2023

# Burglary

## *Definition*

The FBI's Uniform Crime Reporting (UCR) Program defines burglary as the unlawful entry of a structure to commit a felony or theft. To classify an offense as a burglary, the use of force to gain entry need not have occurred. The UCR Program has three subclassifications for burglary: forcible entry, unlawful entry where no force is used, and attempted forcible entry. The UCR definition of "structure" includes an apartment, barn, house trailer, or houseboat when used as a permanent dwelling, office, railroad car (but not automobile), stable, or vessel (i.e., ship).

## *Overview*

- In 2023, there were an estimated 839,563 burglaries. The number of burglaries decreased 24.6 percent when compared with 2019 data and was down 51.3 percent when compared with the 2014 estimate. (See Tables 1 and 1A.)
- Burglaries accounted for 13.1 percent of the estimated number of property crimes. (Based on Table 1.)
- By subcategory, 56.1 percent of burglaries involved forcible entry, 37.5 percent were unlawful entries, and 6.4 percent were attempted forcible entry. (Based on Table 19.)
- Burglaries of residential properties accounted for 52.8 percent of all burglary offenses. (Based on Table 23.)

## *Expanded data*

Expanded offense data are the details of the various offenses that the UCR Program collects beyond the count of how many crimes law enforcement agencies report. These details may include the type of weapon used in a crime, the type or value of items stolen, and so forth. In addition, expanded data include trends (for example, 2-year comparisons) and rates per 100,000 inhabitants.

Expanded information regarding burglary is available in the following tables:

Trends (2-year): Tables 12, 13, 14, and 15

Rates (per 100,000 inhabitants): Tables 16, 17, 18, and 19

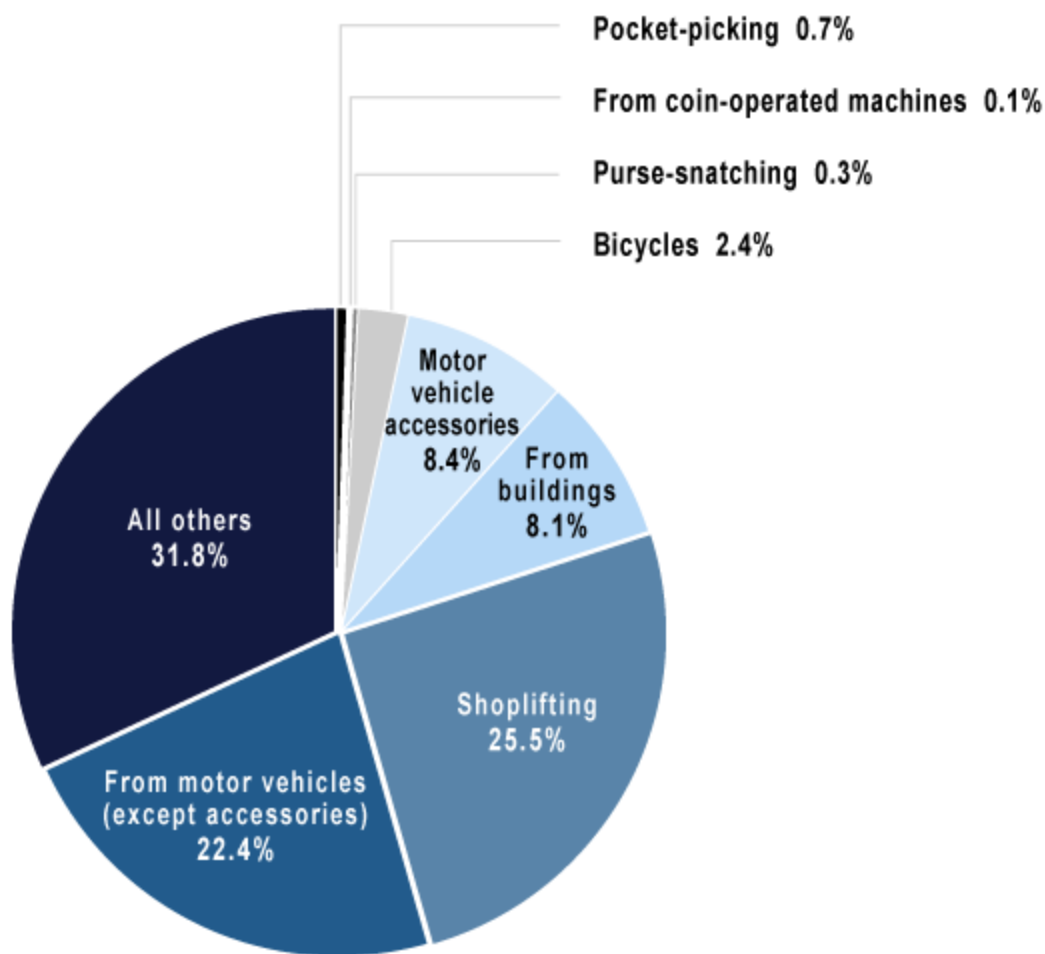

Offense Analysis: Tables 7 and 23

### **Larceny-theft figure long description**

This figure is a pie chart that breaks down (by percent distribution) the types of larceny-thefts that occurred in 2023. In the nation, 22.4 percent of larceny-theft offenses were from motor vehicles (except accessories), 25.5 percent were shoplifting, 8.1 percent were from buildings, 8.4 percent were motor vehicle accessories, 2.4 percent were bicycles, 0.7 percent were pocket-picking, 0.3 percent were purse-snatching, and 0.1 percent were from coin-operated machines. All other larceny-thefts accounted for the remaining 31.8 percent.

## Larceny-theft Figure

Percent Distribution,<sup>1</sup> 2023

<sup>1</sup> Due to rounding, the percentages may not add to 100.0.

# Larceny-theft

## *Definition*

The FBI's Uniform Crime Reporting (UCR) Program defines larceny-theft as the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Examples are thefts of bicycles, thefts of motor vehicle parts and accessories, shoplifting, pocket-picking, or the stealing of any property or article that is not taken by force, violence, or fraud. Attempted larcenies are included in offense totals. Embezzlement, confidence games, forgery, check fraud, etc., are excluded.

## *Overview*

- In 2023, there were an estimated 4,512,064 larceny-thefts nationwide. The number of larceny-thefts decreased 4.4 percent when compared with the 2022 estimate. The number decreased 12.6 percent when compared with the 2019 estimate, and it declined 22.7 percent when compared with the 2014 estimate. (See Table 1.)
- The rate of estimated larceny-thefts in 2023 was 1,347.2 per 100,000 inhabitants. From 2022 to 2023, the rate of estimated larceny-thefts declined 4.9 percent, and from 2014 to 2023, the rate decreased 26.4 percent. (See Tables 1 and 1A.)
- Larceny-thefts accounted for an estimated 70.3 percent of property crimes in 2023. (Based on Table 1.)
- Thefts from motor vehicles accounted for 22.4 percent of all larceny-thefts in 2023. (See Table 23.)

## *Expanded data*

Expanded offense data are the details of the various offenses that the UCR Program collects beyond the count of how many crimes law enforcement agencies report. These details may include the type of weapon used in a crime, type or value of items stolen, and so forth. In addition, expanded data include trends (for example, 2-year comparisons) and rates per 100,000 inhabitants.

Expanded information regarding larceny-theft is available in the following tables:

Trends (2-year): Tables 12, 13, and 14

Rates (per 100,000 inhabitants): Tables 16, 17, and 18

Offense Analysis: Table 23

Larceny-theft Table, “Larceny-theft, Percent Distribution by Region, 2023”

# Motor Vehicle Theft

## *Definition*

In the FBI's Uniform Crime Reporting (UCR) Program, motor vehicle theft is defined as the theft or attempted theft of a motor vehicle. A motor vehicle is defined in the UCR Program as a self-propelled vehicle that runs on land surfaces and not on rails. Examples of motor vehicles include sport utility vehicles, automobiles, trucks, buses, motorcycles, motor scooters, all-terrain vehicles, and snowmobiles. Motor vehicle theft does not include farm equipment, bulldozers, airplanes, construction equipment, or watercraft such as motorboats, sailboats, houseboats, or jet skis. The taking of a motor vehicle for temporary use by persons having lawful access is excluded from this definition.

## *Overview*

- There were an estimated 1,067,522 thefts of motor vehicles nationwide in 2023. The estimated rate of motor vehicle thefts was 318.7 per 100,000 inhabitants. (See Table 1.)
- The estimated number of motor vehicle thefts increased 12.6 percent in 2023 when compared with the 2022 estimates, rose 47.2 percent when compared with the 2019 estimates, and increased 53.9 percent when compared with the 2014 estimates. (See Table 1A.)
- In 2023, of all motor vehicles stolen, 81.2 percent were automobiles. (Based on Table 19.)

## *Expanded data*

Expanded offense data are the details of the various offenses that the UCR Program collects beyond the count of how many crimes law enforcement agencies report. These details may include the type of weapon used in a crime, type or value of items stolen, and so forth. In addition, expanded data include trends (for example, 2-year comparisons) and rates per 100,000 inhabitants.

Expanded information regarding motor vehicle theft is available in the following tables:

Trends (2-year): Tables 12, 13, 14, and 15

Rates (per 100,000 inhabitants): Tables 16, 17, 18, and 19

Offense Analysis: Tables 23 and 24

Vehicle Type: Tables 15 and 19

Motor Vehicle Theft Table, “Motor Vehicle Theft, Percent Distribution by Region, 2023”

# Arson

## *Definition*

The FBI's Uniform Crime Reporting (UCR) Program defines arson as any willful or malicious burning or attempting to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

## *Data collection*

Only the fires that investigation determined to have been willfully set are included in this arson data collection. Fires labeled as suspicious or of unknown origin are excluded from these data. Points to consider regarding arson statistics include:

- This data collection does not include any estimates for arson because the degree of reporting arson offenses varies from agency to agency. Because of this disparity in reporting, arson offenses are excluded from Tables 1-7, all of which contain offense estimations.
- Arson rates are calculated based upon data received from all law enforcement agencies that provide the UCR Program with data for 12 complete months and are presented in Arson Table 1.

The number of arsons reported by individual law enforcement agencies is available in Tables 8-11, arson trend data (indicating a year-to-year change) are in Tables 12-15, and arson clearance data (crimes solved) can be found in Arson Table 2 and Tables 25-28.

## *Overview*

- In 2023, law enforcement agencies (providing from 1 to 12 months of arson data) reported 33,258 arsons. Participating agencies provided expanded offense data regarding 31,688 arsons. (Based on Tables 12 and 15.)
- More than 36 percent (36.1) of all arson offenses involved structures (e.g., residential, storage, public, etc.). Mobile property was involved in 21.3 percent of arsons, and other types of property (such as crops, timber, fences, etc.) accounted for 42.6 percent of reported arsons. (Based on Table 15.)

- Arson offenses decreased 7.1 percent in 2023 when compared with arson data reported in 2022. (See Table 12.)
- Nationwide, there were 10.9 arson offenses for every 100,000 inhabitants. (Based on Table 12.)

### ***Expanded data***

Expanded offense data are the details of the various offenses that the program collects beyond the count of how many crimes law enforcement agencies report. These details may include the type of weapons used in a crime, type or value of items stolen, and so forth. In addition, expanded data include trends (for example, 2-year comparisons) and rates per 100,000 inhabitants.

Expanded information regarding arson is available in the following tables:

Trends (2-year): Tables 12, 13, 14, and 15

Property types: Table 15

Arson Table 1, Arson Rate, by Population Group, 2023

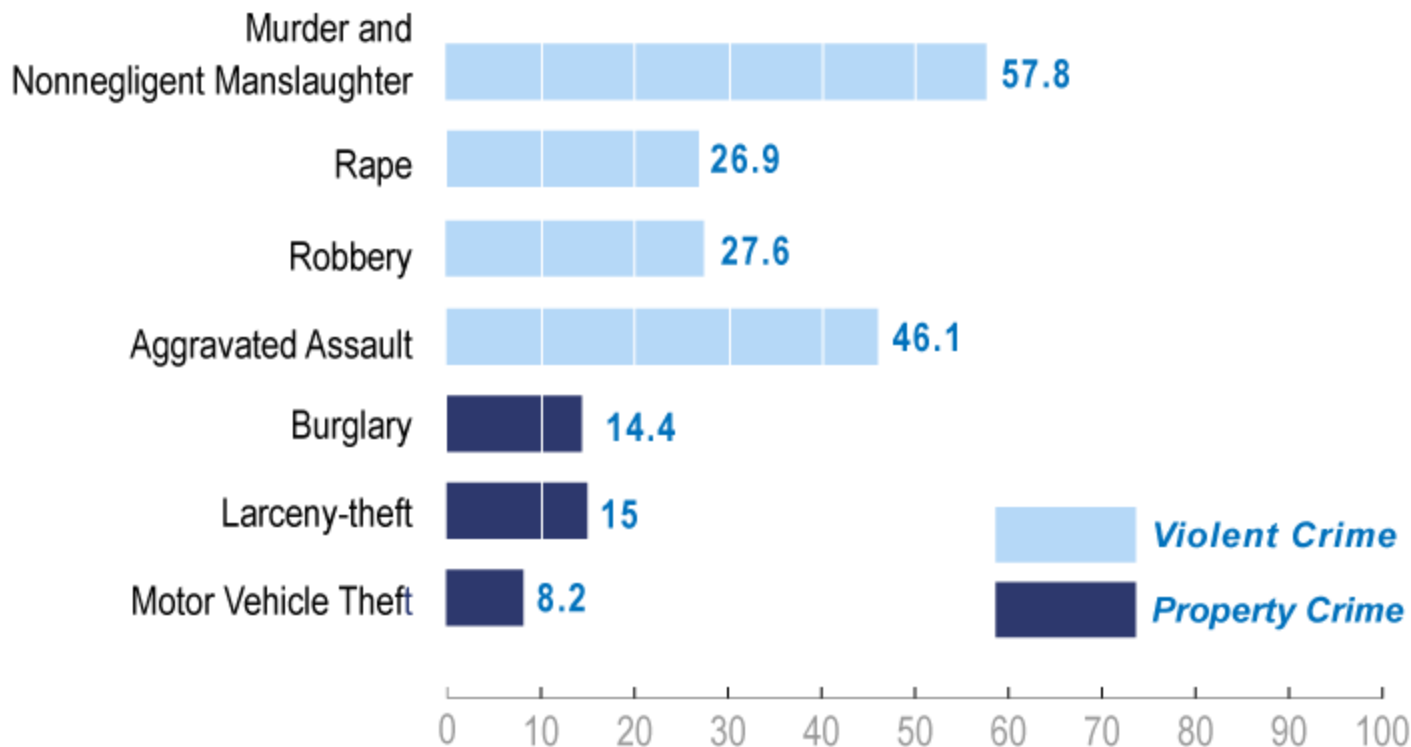

Arson Table 2, Arson, by Type of Property, 2023

### **Long description for Clearance Figure**

This figure shows the percentages of violent and property crimes cleared by arrest or exceptional means in 2023. Among violent crimes, the individual offenses and their respective clearance percentages are murder and nonnegligent manslaughter, 57.8 percent; rape, 26.9 percent; robbery, 27.6 percent; and aggravated assault, 46.1 percent. Of property crimes, the individual offenses and their respective clearance percentages are burglary, 14.4 percent; larceny-theft, 15 percent; and motor vehicle theft, 8.2 percent.

## Clearance Figure

Percent of Crimes Cleared by Arrest or Exceptional Means, 2023

## Offenses Cleared

In the FBI's Uniform Crime Reporting (UCR) Program, law enforcement agencies can clear, or "close," offenses in one of two ways: by arrest or by exceptional means.

Although an agency may administratively close a case, that does not necessarily mean that the agency can clear the offense for UCR purposes. To clear an offense within the UCR Program's guidelines, the reporting agency must adhere to certain criteria, which are outlined in the following text. (*Note: The UCR Program does not distinguish between offenses cleared by arrest and those cleared by exceptional means in collecting or publishing data via the traditional Summary Reporting System.*)

### ***Cleared by arrest***

In the UCR Program, a law enforcement agency reports that an offense is cleared by arrest, or solved for crime reporting purposes, when three specific conditions have been met. The three conditions are that at least one person has been:

- Arrested.
- Charged with the commission of the offense.
- Turned over to the court for prosecution (whether following arrest, court summons, or police notice).

In its clearance calculations, the UCR Program counts the number of offenses that are cleared, not the number of persons arrested. The arrest of one person may clear several crimes, and the arrest of many persons may clear only one offense. In addition, some clearances that an agency records in a particular calendar year, such as 2022, may pertain to offenses that occurred in previous years.

### ***Cleared by exceptional means***

In certain situations, elements beyond law enforcement's control prevent the agency from arresting and formally charging the offender. When this occurs, the agency can clear the offense *exceptionally*. Law enforcement agencies must meet the following four conditions in order to clear an offense by exceptional means. The agency must have:

- Identified the offender.
- Gathered enough evidence to support an arrest, make a charge, and turn over the offender to the court for prosecution.
- Identified the offender’s exact location so that the suspect could be taken into custody immediately.
- Encountered a circumstance outside the control of law enforcement that prohibits the agency from arresting, charging, and prosecuting the offender.

Examples of exceptional clearances include, but are not limited to, the death of the offender (e.g., suicide or justifiably killed by police or citizen); the victim’s refusal to cooperate with the prosecution after the offender has been identified; or the denial of extradition because the offender committed a crime in another jurisdiction and is being prosecuted for that offense. In the UCR Program, the recovery of property alone does not clear an offense.

### ***Clearances involving only persons under 18 years of age***

When an offender under the age of 18 is cited to appear in juvenile court or before other juvenile authorities, the UCR Program considers the incident for which the juvenile is being held responsible to be cleared by arrest, even though a physical arrest may not have occurred. When clearances involve both juvenile and adult offenders, those incidents are classified as clearances for crimes committed by adults. Because the clearance percentages for crimes committed by juveniles include only those clearances in which no adults were involved, the figures in this publication should not be used to present a definitive picture of juvenile involvement in crime.

### ***Overview***

- In the nation in 2023, 41.1 percent of violent crimes and 13.9 percent of property crimes were cleared by arrest or exceptional means. (See Table 25.)
- When considering clearances of violent crimes, 57.8 percent of murder offenses, 46.1 percent of aggravated assault offenses, 26.9 percent of rape offenses, and 27.6 percent of robbery offenses were cleared. (See Table 25.)

- Among property crimes, 14.4 percent of burglary offenses, 15.0 percent of larceny-theft offenses, and 8.2 percent of motor vehicle theft offenses were cleared. (See Table 25.)
- In 2023, 26.9 percent of arson offenses were cleared by arrest or exceptional means. (See Table 25.)

## Expanded Offense Data

### *Definition*

Expanded offense data are the details of the various offenses that the Uniform Crime Reporting Program collects beyond the count of how many crimes law enforcement agencies report. These details may include the type of weapon used in a crime, type or value of items stolen, and so forth. For example, expanded homicide data provide supplemental details about murders, such as the age, sex, race, and ethnicity of both the victim and the offender, the weapon used in the homicide, the circumstances surrounding the offense, and the relationship of the victim to the offender. In addition to these types of details, expanded data include trends (for example, 2-year comparisons) and crime rates per 100,000 inhabitants.

### *Data collection*

Expanded offense data, including expanded homicide data, are details collected in addition to the reports of the number of crimes known. As a result, law enforcement agencies can report an offense without providing the supplemental information about that offense.

### *Expanded data by offense*

## Aggravated Assault Table

### Aggravated Assault, Types of Weapons Used

Percent Distribution by Region, 2023

Region	Total all weapons <sup>1</sup>	Firearms	Knives or cutting instruments	Other weapons (clubs, blunt objects, etc.)	Personal weapons (hands, fists, feet, etc.)
<b>Total</b>	<b>100.0</b>	<b>35.0</b>	<b>16.1</b>	<b>28.8</b>	<b>20.1</b>
Northeast	100.0	16.6	25.6	34.4	23.5
Midwest	100.0	37.8	14.1	27.7	20.3
South	100.0	45.2	14.5	25.9	14.4
West	100.0	26.7	15.4	31.3	26.6

<sup>1</sup> Because of rounding, the percentages may not add to 100.0.

## Arson Table 1

### Arson Rate

by Population Group, 2023

[13,212 agencies; 2023 estimated population

293,475,432; rate per 100,000 inhabitants]

Population group	Rate
<b>TOTAL ALL AGENCIES</b>	<b>10.7</b>
<b>TOTAL CITIES</b>	<b>13.5</b>
Group I (250,000 and over)	16.8
1,000,000 and over (Group I subset)	12.2
500,000 to 999,999 (Group I subset)	21.8
250,000 to 499,999 (Group I subset)	18.4
Group II (100,000 to 249,999)	15.0
Group III (50,000 to 99,999)	12.6
Group IV (25,000 to 49,999)	10.1
Group V (10,000 to 24,999)	8.9
Group VI (under 10,000)	14.1
Metropolitan counties	7.9
Nonmetropolitan counties	9.9
Suburban areas <sup>1</sup>	8.0

<sup>1</sup> Suburban areas include law enforcement agencies in cities with less than 50,000 inhabitants and county law enforcement agencies that are within a Metropolitan Statistical Area. Suburban areas exclude all metropolitan agencies associated with a principal city. The agencies associated with suburban areas also appear in other groups within this table.

## Arson Table 2

### Arson

by Type of Property, 2023

[15,378 agencies; 2023 estimated population 310,519,692]

Property classification	Number of arson offenses	Percent distribution <sup>1</sup>	Percent not in use	Average damage <sup>2</sup>	Total clearances	Percent of arsons cleared <sup>3</sup>	Percent of clearances under 18
<b>Total</b>	<b>34,209</b>	<b>100.0</b>		<b>\$24,320</b>	<b>9,087</b>	<b>26.6</b>	<b>12.3</b>
Total structure:	12,463	36.4	1.7	\$52,471	3,545	28.4	11.1
Single occupancy residential	4,730	13.8	1.1	\$48,407	1,278	27.0	7.1
Other residential	2,423	7.1	0.9	\$63,518	747	30.8	7.1

West	100.0	30.1	9.1	14.8	46.0

<sup>1</sup> Because of rounding, the percentages may not add to 100.0.

## **Expanded homicide figures description**

Murder by relationship figure:

In this figure, bar graphs and a pie chart visually represent the relationships of murder victims to their offenders. The statistics are based on the supplementary homicide data that law enforcement agencies submitted to the FBI for 17,713 murder victims who were slain in 2023.

Pie chart:

Of the homicides that occurred in 2023 for which supplementary homicide data were received, the relationships of the murder victims to their offenders were as follows: 2,190 victims (12.4 percent) were slain by family members; 1,674 victims (9.5 percent) were murdered by strangers; and 4,890 victims (27.6 percent) were slain by “other known” offenders. The offenders were not known for 8,959 murder victims (50.6 percent).

Bar graphs:

The first bar graph provides a breakdown of the 2,190 familial relationships of victims to offenders based on supplementary homicide data from 2023: 95 husbands were killed by their wives, 563 wives were slain by their husbands, 197 mothers were murdered by their children, 247 fathers were killed by their children, 266 sons were slain by their parents, 178 daughters were murdered by their parents, 160 brothers were killed by their siblings,

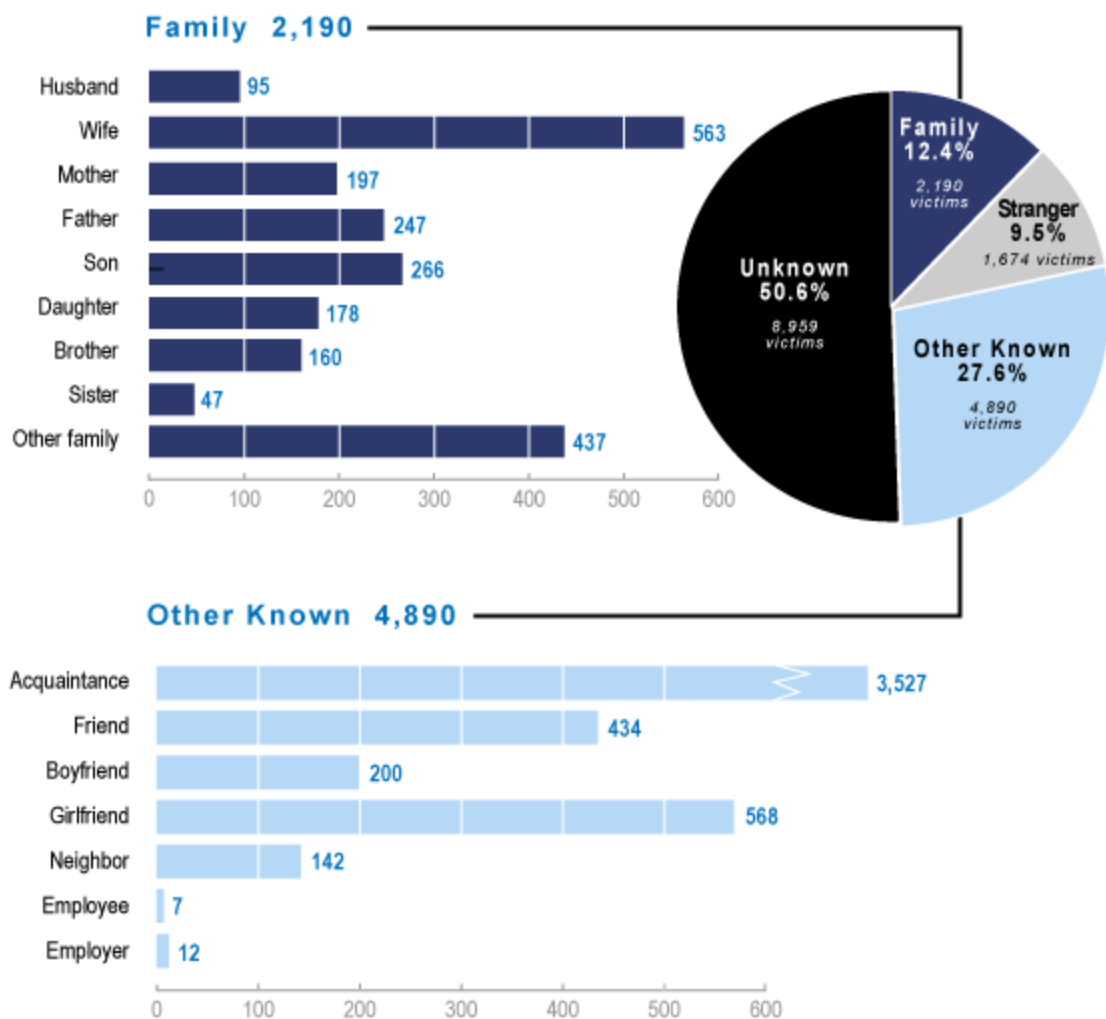

47 sisters were slain by their siblings, and 437 victims were murdered by other family members (i.e., familial relationships other than those mentioned above).

A second bar graph depicts the 4,890 “other known” (that is, nonfamilial) relationships of victims to offenders based on supplementary homicide data from 2023: 3,257 victims were killed by acquaintances, 434 were slain by friends, 200 boyfriends were murdered by their girlfriends, 568 girlfriends were killed by their boyfriends, 142 victims were slain by their neighbors, 7 employees were murdered by their employers, and 12 employers were killed by their employees.

## Expanded Homicide Data Figure

### Murder by Relationship<sup>1</sup>

Percent Distribution,<sup>2</sup> Volume by Relationship, 2023

<sup>1</sup> Relationship is that of victim to offender.

<sup>2</sup> Due to rounding, the percentages may not add to 100.0.

NOTE: Figures are based on **17,713** murder victims for whom Supplementary Homicide Report data were received.

## Expanded Homicide Data

### *Data collection*

The FBI's Uniform Crime Reporting (UCR) Program collects supplementary homicide data that provide the age, sex, race, and ethnicity of the murder victim and offender; the type of weapon used; the relationship of the victim to the offender; and the circumstance surrounding the incident. Statistics gleaned from these supplemental data are provided in this section.

This section also includes information about justifiable homicide—certain willful killings that must be reported as justifiable or excusable. In the UCR Program, justifiable homicide is defined as and limited to:

- The killing of a felon by a peace officer in the line of duty.
- The killing of a felon, during the commission of a felony, by a private citizen.

Because these killings are determined through law enforcement investigation to be justifiable, they are tabulated separately from murder and nonnegligent manslaughter. Justifiable homicide information can be found in Expanded Homicide Data Table 14, “Justifiable Homicide, by Weapon, Law Enforcement, 2019–2023” and Expanded Homicide Data Table 15, “Justifiable Homicide, by Weapon, Private Citizen, 2019–2023.”

### *Overview*

- In 2023, most (77.8 percent) of the 17,713 murder victims for whom supplemental data were received were male. (Based on Expanded Homicide Data Table 1.)
- Of the murder victims for whom race was known, 54.1 percent were Black or African American, 42.5 percent were White, and 3.4 percent were of other races. Race was unknown for 554 victims. (See Expanded Homicide Data Table 2.)

- Over half (51.0 percent) of all murders for which the UCR Program received supplemental data were single victim/single offender situations. (See Expanded Homicide Data Table 4.)
- Of the offenders for whom gender was known, 88.3 percent were male. (Based on Expanded Homicide Data Table 3.)
- When the race of the offender was known, 56.3 percent were Black or African American, 40.8 percent were White, and 2.9 percent were of other races. The race was unknown for 5,796 offenders. (Based on Expanded Homicide Data Table 3.)
- Nearly 77 (76.4) percent of the homicides for which the FBI received weapons data in 2023 involved the use of firearms. (Based on Expanded Homicide Data Table 8.)
- In 2023, 27.6 percent of homicide victims were killed by someone they knew other than family members (acquaintance, neighbor, friend, boyfriend, etc.), 12.4 percent were slain by family members, and 9.5 percent were killed by strangers. The relationship between murder victims and offenders was unknown in 50.6 percent of murder and nonnegligent manslaughter incidents. (Based on Expanded Homicide Data Table 10.)
- Circumstances were known for 52.4 percent of murders for which supplementary details were reported in 2023. Of those, 51.6 percent of victims were murdered during arguments. Felony-type murders (i.e., murders that occurred in conjunction with the commission of another felony crime such as rape, robbery, burglary, etc.) accounted for 14.2 percent of homicides for which circumstances were known. (Based on Expanded Homicide Data Table 11.)
- Law enforcement reported 774 justifiable homicides in 2023. Of those, law enforcement officers justifiably killed 303 felons, and private citizens justifiably killed 471 offenders during the commission of crimes. (See Expanded Homicide Data Tables 14 and 15.)

### ***Expanded homicide data tables***

The following tables were compiled using information from the Supplementary Homicide Data:

Expanded Homicide Data Table 1—“Murder Victims by Race, Ethnicity, and Sex, 2023”

Expanded Homicide Data Table 2—“Murder Victims by Age, Sex, Race, and Ethnicity, 2023”

Expanded Homicide Data Table 3—“Murder Offenders by Age, Sex, Race, and Ethnicity, 2023”

<sup>1</sup> Ethnicity, unlike Age, Race, or Sex is not a mandatory field. Consequently, ethnicity data totals will not match totals for the categories of Age, Race, or Sex.

<sup>2</sup> Includes American Indian or Alaska Native, Asian, and Native Hawaiian or Other Pacific Islander.

<sup>3</sup> Because of rounding, the percentages may not add to 100.0.

<sup>4</sup> Does not include unknown ages.

## Expanded Homicide Data Table 4

### Murder

by Victim/Offender Situations, 2023

Situation	Total	Percent distribution <sup>1</sup>
<b>Total</b>	<b>17,713</b>	<b>100.0</b>
Single victim/single offender	9,037	51.0
Single victim/unknown offender or offenders	3,497	19.7
Single victim/multiple offenders	2,816	15.9
Multiple victims/single offender	1,356	7.7
Multiple victims/multiple offenders	590	3.3
Multiple victims/unknown offender or offenders	417	2.4

<sup>1</sup> Because of rounding, the percentages may not add to 100.0.

## Expanded Homicide Data Table 5

### Murder

Age of Victim by Age of Offender, 2023

[Single victim/single offender]

Age of victim	Total	Age of offender		
		Under 18	18 and over	Unknown
<b>Total</b>	<b>8,361</b>	<b>463</b>	<b>7,556</b>	<b>342</b>
Under 18	668	180	465	23
18 and over	7,638	283	7,044	311
Unknown	55	0	47	8

NOTE: This table is based on incidents where some information about the offender is known by law enforcement; therefore, when the offender age, sex, and race are all reported as unknown, these data are excluded from the table.

## Expanded Homicide Data Table 6

### Murder

Race, Sex, and Ethnicity of Victim by Race, Sex, and Ethnicity of Offender, 2023

[Single victim/single offender]

Race of victim	Total	Race of offender				Sex of offender			Ethnicity of offender		
		White	Black or African American	Other <sup>1</sup>	Unknown	Male	Female	Unknown	Hispanic or Latino	Not Hispanic or Latino	Unknown
White	4,011	3,102	726	71	112	3,606	380	25	866	1,804	426
Black or African American	3,823	324	3,282	18	199	3,319	392	112	132	2,453	663
Other race <sup>1</sup>	292	85	51	147	9	260	30	2	29	147	43
Unknown race	235	80	76	13	66	213	16	6	58	84	49

Sex of victim	Total	Race of offender				Sex of offender			Ethnicity of offender		
		White	Black or African American	Other <sup>1</sup>	Unknown	Male	Female	Unknown	Hispanic or Latino	Not Hispanic or Latino	Unknown
Male	6,042	2,386	3,184	160	312	5,335	589	118	804	3,220	909
Female	2,297	1,196	941	87	73	2,045	226	26	277	1,260	268
Unknown sex	22	9	10	2	1	18	3	1	4	8	4

Ethnicity of victim	Total	Race of offender				Sex of offender			Ethnicity of offender

Unknown	705	284	349	29	43	624	72	9	50	271	332

<sup>1</sup> Includes American Indian or Alaska Native, Asian, and Native Hawaiian or Other Pacific Islander.

NOTE: Ethnicity, unlike Age, Race, or Sex is not a mandatory field. Consequently, ethnicity data totals will not match totals for the categories of age, race, or sex.

## Expanded Homicide Data Table 7

### Murder, Types of Weapons Used

Percent Distribution by Region, 2023<sup>1</sup>

Region	Total all weapons <sup>2</sup>	Firearms	Knives or cutting instruments	Unknown or other dangerous weapons	Personal weapons (hands, fists, feet, etc.) <sup>3</sup>
<b>Total</b>	<b>100.0</b>	<b>76.4</b>	<b>8.8</b>	<b>11.1</b>	<b>3.7</b>
Northeast	100.0	70.7	13.6	10.0	5.6
Midwest	100.0	78.0	6.4	11.7	3.9
South	100.0	79.6	7.1	10.3	3.0
West	100.0	71.0	12.2	12.6	4.2

<sup>1</sup> Guam totals are not included in this table.

<sup>2</sup> Because of rounding, the percentages may not add to 100.0.

<sup>3</sup> Pushed is included in personal weapons.

## Expanded Homicide Data Table 8

### Murder Victims

by Weapon, 2019–2023

Weapons	2019	2020	2021	2022	2023
<b>Total</b>	<b>14,404</b>	<b>18,857</b>	<b>16,633</b>	<b>19,939</b>	<b>17,713</b>
Total firearms:	10,526	14,427	12,987	15,244	13,529
Handguns	6,544	8,629	6,720	8,223	7,159
Rifles	367	486	467	556	511
Shotguns	210	213	171	188	166
Other guns	48	108	299	431	398
Firearms, type not stated	3,357	4,991	5,330	5,846	5,295
Knives or cutting instruments	1,521	1,798	1,209	1,693	1,562
Blunt objects (clubs, hammers, etc.)	413	422	287	396	317
Personal weapons (hands, fists, feet, etc.) <sup>1,2</sup>	653	723	571	734	659
Poison	17	17	9	21	20
Explosives	2	3	1	1	0
Fire	86	114	91	105	92
Narcotics	115	169	174	217	230
Drowning <sup>2</sup>	7	5	0	3	0
Strangulation <sup>2</sup>	62	58	3	20	10
Asphyxiation	93	77	63	104	94
Other weapons or weapons not stated	909	1,044	1,238	1,401	1,200

<sup>1</sup> Pushed or thrown out window is included in personal weapons.

<sup>2</sup> Figures for pushed or thrown out window, drowning, and strangulation include only data submitted by Summary reporting agencies because these weapons are not collected via the National Incident-Based Reporting System.

NOTE: Prior years' crime data has been updated; therefore, data presented in this table may not match previously published data.

## Expanded Homicide Data Table 9

### Murder Victims by Age

by Weapon, 2023

Age	Total murder victims	Weapons										
		Firearms	Knives or cutting instruments	Blunt objects (clubs, hammers, etc.)	Personal weapons (hands, fists, feet, etc.) <sup>1,3</sup>	Poison	Explosives	Fire	Narcotics	Strangulation <sup>2</sup>	Asphyxiation	Other weapon or not stated <sup>2,3</sup>

Institutional killings	81	74	4	3
Sniper attack <sup>1</sup>	0	0	0	0
Other-not specified	2,631	1,967	651	13
Unknown	8,433	6,962	1,422	49

<sup>1</sup> Figures for suspected felony type, brawl due to influence of alcohol, brawl due to influence of narcotics, argument over money or property, and sniper attack include only data submitted by Summary reporting agencies because these circumstances are not collected via the National Incident-Based Reporting System.

## Expanded Homicide Data Table 14

### Justifiable Homicide

by Weapon, Law Enforcement,<sup>1</sup> 2019–2023

Year	Total	Total firearms	Handguns	Rifles	Shotguns	Firearms, type not stated	Knives or cutting instruments	Other dangerous weapons	Personal weapons
2019	<b>380</b>	372	273	36	3	60	2	3	3
2020	<b>338</b>	331	223	36	2	70	1	4	2
2021	<b>220</b>	214	149	30	0	35	1	4	1
2022	<b>354</b>	342	232	38	1	71	8	3	1
2023	<b>303</b>	296	195	32	2	67	1	4	2

<sup>1</sup>The killing of a felon by a law enforcement officer in the line of duty.

NOTE: Prior years' crime data has been updated; therefore, data presented in this table may not match previously published data.

## Expanded Homicide Data Table 15

### Justifiable Homicide

by Weapon, Private Citizen,<sup>1</sup> 2019–2023

Year	Total	Total firearms	Handguns	Rifles	Shotguns	Firearms, type not stated	Knives or cutting instruments	Other dangerous weapons	Personal weapons
2019	<b>424</b>	365	263	15	10	77	35	8	16
2020	<b>460</b>	393	289	14	13	77	49	6	12
2021	<b>412</b>	368	238	13	11	106	26	10	8
2022	<b>514</b>	458	310	13	5	130	31	14	11
2023	<b>471</b>	430	293	12	4	121	28	7	6

<sup>1</sup>The killing of a felon, during the commission of a felony, by a private citizen.

NOTE: Prior years' crime data has been updated; therefore, data presented in this table may not match previously published data.

## Arrests

### *Definition*

The FBI's Uniform Crime Reporting (UCR) Program counts one arrest for each separate instance in which a person is arrested, cited, or summoned for an offense. The UCR Program collects arrest data on 28 offenses, as described in Offense Definitions. (Please note that, as of 2010, the UCR Program no longer collects data on runaways.) Because a person may be arrested multiple times during a year, the UCR arrest figures do not reflect the number of individuals who have been arrested; rather, the arrest data show the number of times that persons are arrested, as reported by law enforcement agencies to the UCR Program.

### **Important note about rape data**

In 2013, the UCR Program initiated the collection of rape data under a revised definition and removed the term “forcible” from the offense name. The UCR Program now defines rape as follows:

Rape (revised definition): Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim. (This includes the offenses of rape, sodomy, and sexual assault with an object as converted from data submitted via the National Incident-Based Reporting System.)

Rape (legacy definition): The carnal knowledge of a female forcibly and against her will.

For tables that present data for 2023 only or provide a 2-or 5-year trend, the rape figures are based on the revised UCR definitions. For 10-year trend tables, the rape figures for the previous year (2014) are based on both the legacy definition and the revised definition.

### ***Data collection—juveniles***

The UCR Program considers a juvenile to be an individual under 18 years of age regardless of state definition. The program does not collect data regarding police contact

with a juvenile who has not committed an offense, nor does it collect data on situations in which police take a juvenile into custody for his or her protection, e.g., neglect cases.

### **Overview**

- Nationwide, law enforcement made an estimated 7,555,863 arrests in 2023. Of these arrests, 443,790 were for violent crimes, and 886,391 were for property crimes. (Note: the UCR Program does not collect data on citations for traffic violations.) (See Table 29.)
- The highest number of arrests were for drug abuse violations (estimated at 870,874 arrests), driving under the influence (estimated at 805,581), and larceny-theft (estimated at 676,475). (See Table 29.)
- The estimated arrest rate for the United States in 2023 was 2,232.1 arrests per 100,000 inhabitants. The arrest rate for violent crime (including murder and nonnegligent manslaughter, rape, robbery, and aggravated assault) was 135.1 per 100,000 inhabitants, and the arrest rate for property crime (burglary, larceny-theft, motor vehicle theft, and arson) was 265.2 per 100,000 inhabitants. (See Table 30.)
- Two-year arrest trends show violent crime arrests decreased 0.3 percent in 2023 when compared with 2022 arrests, and property crime arrests increased 9.2 percent when compared with 2022 arrests. (See Table 36.)
- Arrests of juveniles for all offenses increased 10.9 percent in 2023 when compared with the 2022 number; arrests of adults increased 1.9 percent. (See Table 36.)
- Just under 73 percent (72.8) of the persons arrested in the nation during 2023 were males. They accounted for 78.5 percent of persons arrested for violent crime and 65.9 percent of persons arrested for property crime. (See Table 42.)
- In 2023, 66.2 percent of all persons arrested were White, 29.8 percent were Black or African American, and the remaining 4.0 percent were of other races. (See Table 43.)

### ***Expanded arrest data***

Expanded data about arrests include information about the age, gender, race, and ethnicity of the arrestees. These data are available in the following tables:

Age: Tables 32, 34, 36, 38, 39, 40, 41, 44, 46, 47, 50, 52, 53, 56, 58, 59, 62, 64, and 65

Gender: Tables 33, 35, 37, 39, 40, 42, 45, 48, 51, 54, 57, 60, 63, and 66

Race and Ethnicity: Tables 43, 49, 55, 61, and 67

## Arrest Table

### Arrests for Drug Abuse Violations Percent Distribution by Region, 2023

		United States				
Drug abuse violations		total	Northeast	Midwest	South	West
<b>Total<sup>1</sup></b>		<b>100.0</b>	<b>100.0</b>	<b>100.0</b>	<b>100.0</b>	<b>100.0</b>

	Other dangerous nonnarcotic drugs	40.9	34.3	39.0	36.1	54.1

**Table 29****Estimated Number of Arrests**

United States, 2023

---

<b>Total<sup>1</sup></b>	<b>7,555,863</b>
Murder and nonnegligent manslaughter	11,674
Rape	18,886
Robbery	67,243
Aggravated assault	345,987
Burglary	122,538
Larceny-theft	676,475
Motor vehicle theft	78,420
Arson	8,958
Violent crime <sup>2</sup>	443,790
Property crime <sup>2</sup>	886,391
Other assaults	1,008,639
Forgery and counterfeiting	35,995
Fraud	80,020
Embezzlement	9,976
Stolen property; buying, receiving, possessing	81,127
Vandalism	170,467
Weapons; carrying, possessing, etc.	173,973
Prostitution and commercialized vice	15,796
Sex offenses (except rape and prostitution)	23,401
Drug abuse violations	870,874
Gambling	1,856
Offenses against the family and children	47,066
Driving under the influence	805,581
Liquor laws	97,810
Drunkenness <sup>3</sup>	11,124
Disorderly conduct	260,707
Vagrancy	19,393
All other offenses	2,504,586
Suspicion <sup>4</sup>	0
Curfew and loitering law violations	7,291

---

<sup>1</sup> Does not include suspicion.

<sup>2</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>3</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.

<sup>4</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

<sup>1</sup> Suburban areas include law enforcement agencies in cities with less than 50,000 inhabitants and county law enforcement agencies that are within a Metropolitan Statistical Area. Suburban areas exclude all metropolitan agencies associated with a principal city. The agencies associated with suburban areas also appear in other groups within this table.

<sup>2</sup> Does not include suspicion.

<sup>3</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>4</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.

<sup>5</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

\* Less than one-tenth of 1 percent.

Counties

<sup>1</sup> Does not include suspicion.<sup>2</sup> The rape figures in this table are aggregate totals of the data submitted based on both the legacy and revised Uniform Crime Reporting definitions.<sup>3</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.<sup>4</sup> The 2014 drunkenness figures were submitted by agencies that reported via the Summary Reporting System (SRS) and National Incident Based Reporting System (NIBRS). As of 2021, drunkenness is no longer a separate offense in NIBRS, but it is included with All Other Offenses (except traffic) category.<sup>5</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion is not collected as a crime category via NIBRS.

<sup>1</sup> Does not include suspicion.<sup>2</sup> The rape figures in this table are aggregate totals of the data submitted based on both the legacy and revised Uniform Crime Reporting definitions.<sup>3</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.<sup>4</sup> The 2014 drunkenness figures were submitted by agencies that reported via the Summary Reporting System (SRS) and National Incident Based Reporting System (NIBRS). As of 2021, drunkenness is no longer a separate offense in NIBRS, but it is included with All Other Offenses (except traffic) category.<sup>5</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion is not collected as a crime category via NIBRS.

<sup>1</sup> Because of rounding, the percentages may not add to 100.0.<sup>2</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.<sup>3</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.<sup>4</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

<sup>1</sup> Because of rounding, the percentages may not add to 100.0.

<sup>2</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>3</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.

<sup>4</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

\* Less than one-tenth of 1 percent.

<sup>1</sup> Because of rounding, the percentages may not add to 100.0.

<sup>2</sup> The ethnicity totals are representative of those agencies that provided ethnicity breakdowns. Not all agencies provide ethnicity data; therefore, the race and ethnicity totals will not equal.

<sup>3</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>4</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.

<sup>5</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

<sup>1</sup> Because of rounding, the percentages may not add to 100.0.<sup>2</sup> The ethnicity totals are representative of those agencies that provided ethnicity breakdowns. Not all agencies provide ethnicity data; therefore, the race and ethnicity totals will not equal.<sup>3</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.<sup>4</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.<sup>5</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

<sup>1</sup> Because of rounding, the percentages may not add to 100.0.

<sup>2</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>3</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.

<sup>4</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

\* Less than one-tenth of 1 percent.

<sup>1</sup> Because of rounding, the percentages may not add to 100.0.<sup>2</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.<sup>3</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.<sup>4</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

\* Less than one-tenth of 1 percent.

<sup>1</sup> Because of rounding, the percentages may not add to 100.0.<sup>2</sup> The ethnicity totals are representative of those agencies that provided ethnicity breakdowns. Not all agencies provide ethnicity data; therefore, the race and ethnicity totals will not equal.<sup>3</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.<sup>4</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.<sup>5</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

<sup>1</sup> Does not include suspicion.<sup>2</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.<sup>3</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.

<sup>4</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

<sup>1</sup> Because of rounding, the percentages may not add to 100.0.<sup>2</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.<sup>3</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.<sup>4</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

\* Less than one-tenth of 1 percent.

<sup>1</sup> Because of rounding, the percentages may not add to 100.0.<sup>2</sup> The ethnicity totals are representative of those agencies that provided ethnicity breakdowns. Not all agencies provide ethnicity data; therefore, the race and ethnicity totals will not equal.<sup>3</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.<sup>4</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.<sup>5</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

\* Less than one-tenth of 1 percent.

<sup>1</sup> Because of rounding, the percentages may not add to 100.0.

<sup>2</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>3</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.

<sup>4</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

\* Less than one-tenth of 1 percent.

<sup>1</sup> Suburban areas include law enforcement agencies in cities with less than 50,000 inhabitants and county law enforcement agencies that are within a Metropolitan Statistical Area. Suburban areas exclude all metropolitan agencies associated with a principal city.

<sup>2</sup> Does not include suspicion.

<sup>3</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>4</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.

<sup>5</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

<sup>1</sup> Suburban areas include law enforcement agencies in cities with less than 50,000 inhabitants and county law enforcement agencies that are within a Metropolitan Statistical Area. Suburban areas exclude all metropolitan agencies associated with a principal city.

<sup>2</sup> Because of rounding, the percentages may not add to 100.0.

<sup>3</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>4</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.

<sup>5</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

\* Less than one-tenth of 1 percent.

<sup>1</sup> Suburban areas include law enforcement agencies in cities with less than 50,000 inhabitants and county law enforcement agencies that are within a Metropolitan Statistical Area. Suburban areas exclude all metropolitan agencies associated with a principal city.

<sup>2</sup> Because of rounding, the percentages may not add to 100.0.

<sup>3</sup> The ethnicity totals are representative of those agencies that provided ethnicity breakdowns. Not all agencies provide ethnicity data; therefore, the race and ethnicity totals will not equal.

<sup>4</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>5</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.

<sup>6</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

\* Less than one-tenth of 1 percent.

Curfew and loitering law violations	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-

<sup>1</sup> Suburban areas include law enforcement agencies in cities with less than 50,000 inhabitants and county law enforcement agencies that are within a Metropolitan Statistical Area. Suburban areas exclude all metropolitan agencies associated with a principal city.

<sup>2</sup> Because of rounding, the percentages may not add to 100.0.

<sup>3</sup> The ethnicity totals are representative of those agencies that provided ethnicity breakdowns. Not all agencies provide ethnicity data; therefore, the race and ethnicity totals will not equal.

<sup>4</sup> Violent crimes are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>5</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.

<sup>6</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

\* Less than one-tenth of 1 percent.

<sup>1</sup> Does not include traffic arrests.

<sup>2</sup> Violent crimes in this table are offenses of murder and nonnegligent manslaughter, rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, motor vehicle theft, and arson.

<sup>3</sup> Drunkenness figures were only submitted by agencies via the Summary Reporting System (SRS). As of 2021 drunkenness is no longer a separate offense in the National Incident-Based Reporting System (NIBRS), but it is included with All Other Offenses (except traffic) category.

<sup>4</sup> Figures for the category of suspicion include only data submitted by agencies to the SRS, because suspicion data is not collected as a crime category via NIBRS.

<sup>5</sup> Includes arrests reported by the Metro Transit Police. This agency has no population associated with it.

<sup>6</sup> Limited data for 2023 were available for Florida.

<sup>7</sup> The Florida arrest counts for offenses against the family and children, drunkenness, disorderly conduct, vagrancy, suspicion, and curfew and loitering law violations are included under the category All other offenses (except for the data submitted by NIBRS agencies using those specific breakdowns).

<sup>8</sup> See 2023 arrest data information in the downloadable *Methodology* file for further explanation.

NOTE: Because the number of agencies submitting arrest data varies from year to year, users are cautioned about making direct comparisons between 2022 arrest totals and those published in previous years' editions of *Crime in the United States*. Further, arrest figures may vary widely from state to state because some Part II crimes are not considered crimes in some states.

Embezzlement	Stolen property; buying, receiving, possessing	Vandalism	Weapons; carrying, possessing, etc.	Prostitution and commercialized vice	Sex offenses (except rape and prostitution)	Drug abuse violations	Gambling	Offenses against the family and children	Driving under the influence	Liquor laws	Drunkenness <sup>3</sup>	Disorderly conduct	Vagrancy	All other offenses (except traffic)	Suspicion <sup>4</sup>	Curfew and loitering law violations	Number of agencies	2023 estimated population

# Police Employees

## ***Definition***

The Uniform Crime Reporting (UCR) Program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds allocated specifically for sworn law enforcement representatives.

## ***User's note***

Because of law enforcement's varied service requirements and functions, as well as the distinct demographic traits and characteristics of each jurisdiction, readers should use caution when drawing comparisons between agencies' staffing levels based on police employment data from the UCR Program. In addition, the data presented here reflect existing staffing levels and should not be interpreted as preferred officer strengths recommended by the FBI. Lastly, it should be noted that the totals given for sworn officers for any particular agency reflect not only the patrol officers on the street, but also the officers assigned to various other duties such as those in administrative and investigative positions and those assigned to special teams.

## ***Data collection***

Each year, law enforcement agencies across the United States report to the UCR Program the total number of sworn law enforcement officers and civilians in their agencies as of October 31.

Civilian employees include full-time agency personnel such as clerks, radio dispatchers, meter attendants, stenographers, jailers, correctional officers, and mechanics.

## ***Summary overview***

- A total of 14,393 city and county law enforcement agencies provided data on the number of full-time law enforcement employees (sworn officers and civilian personnel) on staff in 2023. (See Table 70.)
- Nationwide, the rate of sworn officers was 2.3 per 1,000 inhabitants. The rate of full-time law enforcement employees (civilian and sworn) per 1,000 inhabitants was 3.4. (Based on Table 74.)
- In 2023, the highest rate of officers to individuals among the city population groups was an average of 4.3 officers per 1,000 inhabitants in cities with fewer than 10,000 residents. (See Table 71.)
- County agencies reported an average of 2.7 officers per 1,000 inhabitants. (See Table 71.)
- Sworn officers accounted for 69.2 percent of all law enforcement personnel in the United States in 2023. (Based on Table 74.)

## Methodology

The tabular presentation that follows briefly describes the data sources and the methods used to construct Tables 70–81.

(1) Table	(2) Database	(3) Table Construction	(4) General Comments
70	The information in this table is derived from law enforcement employee counts (as of October 31, 2023) submitted by participating agencies.	<p>This table provides the number and rate per 1,000 inhabitants of law enforcement employees broken down by region, geographic division, and population group.</p> <p>The totals for full-time law enforcement employees in metropolitan and nonmetropolitan counties are combined in this table.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	<p>The UCR Program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specifically to pay sworn law enforcement.</p> <p>Civilian employees include full-time agency personnel such as clerks, radio dispatchers, meter attendants, stenographers, jailers, correctional officers, and mechanics.</p>
71	The information in this table is derived from law enforcement officer counts (as of October 31, 2023) submitted by participating agencies.	<p>This table provides the number and rate per 1,000 inhabitants of sworn law enforcement officers broken down by region, geographic division, and population group.</p> <p>The totals for full-time law enforcement officers in metropolitan and nonmetropolitan counties are combined in this table.</p>	The UCR Program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specifically to pay sworn law enforcement.

		<p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	
72	<p>The information in this table is derived from law enforcement employee counts (as of October 31, 2023) submitted by participating agencies.</p>	<p>This table includes the number of agencies that fall within specified rate ranges of employment by population group for law enforcement personnel, both sworn officers and civilian employees.</p> <p>The FBI derived the rate of full-time law enforcement employees per population group by first dividing the aggregated total of personnel for the group by the aggregated estimated populations covered by the contributing agencies within the group and then multiplying the resulting figure by 1,000.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	<p>The UCR Program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specifically to pay sworn law enforcement.</p> <p>Civilian employees include full-time agency personnel such as clerks, radio dispatchers, meter attendants, stenographers, jailers, correctional officers, and mechanics.</p> <p>Agencies with no resident population; i.e., those associated with universities and colleges (see Table 79), other agencies (see Table 81), and some state agencies; are excluded from this table. Therefore, the total number of agencies used in this table differs from that provided in other law enforcement employee tables.</p>

73	<p>The information in this table is derived from law enforcement officer counts (as of October 31, 2023) submitted by participating agencies.</p>	<p>This table includes the number of agencies that fall within specified rate ranges of employment by population group for law enforcement officers.</p> <p>The FBI derived the rate of full-time law enforcement officers per population group by first dividing the aggregated total of officers for the group by the aggregated estimated populations covered by the contributing agencies within the group and then multiplying the resulting figure by 1,000.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	<p>The UCR Program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specifically to pay sworn law enforcement.</p> <p>Agencies with no resident population; i.e., those associated with universities and colleges (see Table 79), other agencies (see Table 81), and some state agencies; are excluded from this table. Therefore, the total number of agencies used in this table differs from that provided in other law enforcement officer tables.</p>
74	<p>The information in this table is derived from law enforcement employee counts (as of October 31, 2023) submitted by participating agencies.</p>	<p>This table includes the number of reported sworn law enforcement officers and civilian employees broken down by population group. The totals are also broken down by percent male and percent female.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	<p>The UCR Program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specifically to pay sworn law enforcement.</p> <p>Civilian employees include full-time agency personnel such as clerks, radio dispatchers, meter attendants, stenographers, jailers, correctional officers, and mechanics.</p>

75	The information in this table is derived from civilian law enforcement counts (as of October 31, 2023) submitted by participating agencies.	<p>This table includes data about civilian law enforcement employees by population group.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	Civilian employees include full-time agency personnel such as clerks, radio dispatchers, meter attendants, stenographers, jailers, correctional officers, and mechanics.
76	The information in this table is derived from law enforcement employee counts (as of October 31, 2023) submitted by participating agencies.	This table provides the number of state law enforcement employees, the number of male officers, the number of female officers, the number of male civilian employees, and the number of female civilian employees listed alphabetically by state.	<p>The UCR Program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specifically to pay sworn law enforcement.</p> <p>Civilian employees include full-time agency personnel such as clerks, radio dispatchers, meter attendants, stenographers, jailers, correctional officers, and mechanics.</p> <p>Caution should be used when comparing data from one state to that of another. The responsibilities of the various state police, highway patrol, and department of public safety agencies range from full law enforcement duties to only traffic patrol, which can impact both the level of employment for agencies as well as the ratio of sworn officers to</p>

			civilians employed. Any valid comparison must take these factors and the other identified variables affecting crime into consideration.
77	The information in this table is derived from law enforcement employee counts (as of October 31, 2023) submitted by participating agencies.	<p>This table provides the number of law enforcement employees, the number of male officers, the number of female officers, the number of male civilian employees, and the number of female civilian employees listed alphabetically by state.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	<p>The UCR Program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specifically to pay sworn law enforcement.</p> <p>Civilian employees include full-time agency personnel such as clerks, radio dispatchers, meter attendants, stenographers, jailers, correctional officers, and mechanics.</p>
78	The information in this table is derived from law enforcement employee counts (as of October 31, 2023) submitted by participating agencies.	<p>This table provides the number of law enforcement officers and civilians employed by city/town law enforcement agencies listed alphabetically by state.</p> <p>For the 2023 population estimates used in this table, the FBI computed individual rates of growth from one year to the next for every city/town and county using 2020 through 2022 population estimates from the U.S. Census Bureau. Each agency's rates of growth were averaged; that average was then applied and added to its 2022 Census population estimate to derive the agency's 2023 population estimate.</p>	<p>The UCR Program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specifically to pay sworn law enforcement.</p> <p>Civilian employees include full-time agency personnel such as clerks, radio dispatchers, meter attendants, stenographers, jailers, correctional officers, and mechanics.</p>

79	The information in this table is derived from law enforcement employee counts (as of October 31, 2023) submitted by participating agencies.	<p>This table provides the number of law enforcement officers and civilians employed by universities and colleges listed alphabetically by state.</p> <p>The student enrollment figures provided by the United States Department of Education are for the 2022 school year, the most recent year for which the data are available. The figures include full-time and part-time students.</p>	<p>The UCR Program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specifically to pay sworn law enforcement.</p> <p>Civilian employees include full-time agency personnel such as clerks, radio dispatchers, meter attendants, stenographers, jailers, correctional officers, and mechanics.</p>
80	The information in this table is derived from law enforcement employee counts (as of October 31, 2023) submitted by participating agencies.	This table provides the number of law enforcement officers and civilians employed by agencies in metropolitan and nonmetropolitan counties listed alphabetically by state.	<p>The UCR Program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specifically to pay sworn law enforcement.</p> <p>Civilian employees include full-time agency personnel such as clerks, radio dispatchers, meter attendants, stenographers, jailers, correctional officers, and mechanics.</p>

81	The information in this table is derived from law enforcement employee counts (as of October 31, 2023) submitted by participating agencies.	This table provides the number of law enforcement officers and civilians employed by state, tribal, and other agencies, listed alphabetically by state.	<p>The UCR Program defines law enforcement officers as individuals who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specifically to pay sworn law enforcement.</p> <p>Civilian employees include full-time agency personnel such as clerks, radio dispatchers, meter attendants, stenographers, jailers, correctional officers, and mechanics.</p>

<sup>1</sup> Full-time law enforcement employees include civilians.

<sup>2</sup> The designation county is a combination of both metropolitan and nonmetropolitan counties.

<sup>3</sup> Suburban areas include law enforcement agencies in cities with less than 50,000 inhabitants and county law enforcement agencies that are within a Metropolitan Statistical Area. Suburban areas exclude all metropolitan agencies associated with a principal city. The agencies associated with suburban areas also appear in other groups within this table.

<sup>1</sup> Police employee data were not received from the State Police/Highway Patrol for the state.

NOTE: Caution should be used when comparing data from one state to that of another. The responsibilities of the various state police, highway patrol, and department of public safety agencies range from full law enforcement duties to only traffic patrol, which can impact both the level of employment for agencies as well as the ratio of sworn officers to civilians employed. Any valid comparison must take these factors and the other identified variables affecting crime into consideration.

# Data Declarations and Methodology for Federal Tables

## Federal Table 1 Offenses Known to Law Enforcement by Federal Agency, 2023

### Data Declaration

The FBI collects these data through the Uniform Crime Reporting (UCR) Program.

### General comment

This table provides the volume of violent crime (murder and nonnegligent manslaughter, rape, robbery, and aggravated assault) and property crime (burglary, larceny-theft, and motor vehicle theft) as reported by federal law enforcement agencies that contributed data to the UCR Program. (Note: Arson is not included in the property crime total in this table; however, complete arson data were provided and appear in the arson column.)

### Caution against ranking

Readers should take into consideration relevant factors in addition to an agency's crime statistics when making any valid comparisons of crime among different agencies or locales. *UCR Statistics: Their Proper Use* provides more details.

### Methodology

The data used in creating this table are from federal agencies submitting 12 months of complete offense data for 2023.

## Federal Table 2 Full-time Law Enforcement Employees by Federal Agency, 2023

### Data Declaration

The FBI collects these data through the Uniform Crime Reporting (UCR) Program.

### General comment

This table provides the total number of law enforcement employees, total officers, and total civilians employed by participating federal agencies.

### Methodology

The information in this table is derived from law enforcement employee counts (as of October 31, 2023) submitted by participating agencies. The UCR Program defines law enforcement officers as individuals

who ordinarily carry a firearm and a badge, have full arrest powers, and are paid from governmental funds set aside specifically to pay sworn law enforcement. Civilian employees include full-time agency personnel such as clerks, radio dispatchers, meter attendants, stenographers, jailers, correctional officers, and mechanics.

**Federal Table 2****Full-time Law Enforcement Employees**

by Federal Agency, 2023

Agency	Unit/Office	Total law enforcement employees	Total officers	Total civilians
Architect of the Capitol	Office of Inspector General	5	4	1
Board of Governors of the Federal Reserve System and the Consumer Financial Protection Bureau	Office of Inspector General	33	28	5
Central Intelligence Agency Security Protective Service		460	460	0
Corporation for National and Community Service	Office of Inspector General	9	8	1
DC Inspector General Office		45	27	18
Department of Veterans Affairs	Office of Inspector General	254	187	67

United States Coast Guard	Coast Guard Investigative Service	267	218	49
United States Department of Agriculture	Office of Inspector General	439	121	318
United States Department of Education	Office of Inspector General	75	67	8
United States Department of Housing and Urban Development	Office of Inspector General	179	141	38
United States Department of Justice:	Federal Bureau of Investigation	37,828	14,177	23,651
	Office of Inspector General	166	123	43
United States Department of Labor:	Division of Protective Services	19	18	1
	Office of Inspector General	346	145	201
United States Department of the Interior:	Bureau of Indian Affairs <sup>1</sup>			
	Office of Inspector General	89	62	27
United States Department of Transportation	Office of Inspector General	110	92	18
United States Department of Treasury	Special Inspector General for Pandemic Recover	15	12	3
United States Department of Veterans Affairs Police Service		6,198	4,944	1,254
United States Environmental Protection Agency	Office of Inspector General	64	54	10
United States Federal Deposit Insurance Corporation	Office of Inspector General	67	61	6
United States General Services Administration	Office of Inspector General	74	58	16

Agency	Unit/Office	Total law enforcement employees	Total officers	Total civilians
United States National Archives and Records Administration	Office of Inspector General	5	4	1
United States Nuclear Regulatory Commission	Office of Inspector General	14	10	4
United States Office of Personnel Management	Office of the Inspector General	35	26	9
United States Securities and Exchange Commission	Office of Inspector General	15	12	3
United States Treasury Inspector General for Tax Administration		345	259	86

<sup>1</sup>The Bureau of Indian Affairs submits these statistics to the FBI Uniform Crime Reporting Program on a yearly basis and can be found in Table 81 of *Crime in the United States, 2023*.

Agency	Unit/Office	Violent crime	Murder and nonnegligent manslaughter	Rape	Robbery	Aggravated assault	Property crime	Burglary	Larceny- theft	Motor vehicle theft	Arson
United States Treasury Inspector General for Tax Administration		4	0	2	1	1	50	1	48	1	0

<sup>1</sup> The Bureau of Indian Affairs submits these statistics to the FBI Uniform Crime Reporting Program on a monthly basis throughout the calendar year and can be found in Table 11 of *Crime in the United States, 2023*.

## ***Cargo Theft, 2023***

*Cargo Theft, 2023*, is the tenth cargo theft report released by the FBI's Uniform Crime Reporting (UCR) Program. Forty-eight states participated in the data collection in 2023 as well as the Bureau of Indian Affairs and the District of Columbia Metro Transit. In 2023, 47 states submitted at least one cargo theft incident.

The FBI's UCR Program collects cargo theft data to inform the law enforcement community, federal and state legislators, academia, and the public at large about this particular crime. The data can be used to create awareness and to measure the impact cargo theft has on the economy and potential threats to national security. Often, cargo theft offenses are part of larger criminal schemes and have been found to be components of organized crime rings, drug trafficking, and funding for terrorism. The UCR collection of cargo theft data is relatively new with only 10 years of data published, but the number of agencies reporting cargo theft incidents has increased each year.

On January 1, 2021, the FBI's UCR Program transitioned to a National Incident-Based Reporting System (NIBRS) only data collection. Since the transition, the FBI's UCR Program has worked diligently to offer resources such as programming and technical support, training, and outreach to law enforcement agencies. Despite more than 11,500 law enforcement agencies submitting NIBRS data, participation for 2021 remained below a statistically acceptable level to be nationally representative. For the 2022 and 2023 data years, to provide nationally representative data, the FBI accepted Summary Reporting System (SRS) data submissions from non-transitioned agencies.

### **Participation**

Participation in the UCR Program is voluntary, and agencies or states may choose not to participate. Since the first publication of cargo theft data in 2013, the number of states and federal agencies participating has steadily increased each year.

Although participation in the cargo theft data collection has steadily increased each year since its inception, several factors have a direct impact on this important data collection:

- States may not have the resources required to make the necessary technical changes or to align their local and state statutes with federal requirements.
- States may not have the necessary resources to conduct data quality checks on reported incidents associated with cargo theft, which could result in inaccurate data.
- States may not have adequate resources to train participants on how to recognize and properly record cargo theft incidents.
- States may not perceive cargo theft as a priority or a significant problem within their states and make decisions based on their immediate needs regarding resource allocation.

## **USA Patriot Improvement and Reauthorization Act of 2005**

Due to the significant economic impact cargo theft has on the United States economy, and the potential for use by terrorist organizations, Congress mandated H.R. 3199, the USA Patriot Improvement and Reauthorization Act of 2005 on March 9, 2006. It required the Attorney General to “take the steps necessary to ensure that reports of cargo theft collected by federal, state, and local officials are reflected as a separate category in the Uniform Crime Reporting System, or any successor system, by no later than December 31, 2006.” In response to this mandate, the Criminal Justice Information Services Advisory Policy Board approved a definition for collecting cargo theft in December 2006. In 2010, data specifications required to capture cargo theft data in the UCR Program’s SRS as well as the NIBRS were finalized, and the FBI’s UCR Program released the first cargo theft report in 2013.

### **What is cargo theft?**

Cargo theft is defined as “The criminal taking of any cargo including, but not limited to, goods, chattels, money, or baggage that constitutes, in whole or in part, a commercial shipment of freight moving in commerce, from any pipeline system, railroad car, motor truck, or other vehicle, or from any tank or storage facility, station house, platform, or depot, or from any vessel or wharf, or from any aircraft, air terminal, airport, aircraft terminal or air navigation facility, or from any intermodal container, intermodal chassis, trailer, container freight station, warehouse, freight distribution facility, or freight consolidation facility. For purposes of this definition, cargo shall be deemed as moving in commerce at all points between the point of origin and the final destination, regardless of any temporary stop while awaiting transshipment or otherwise.”

This definition does not serve as a legal description for prosecutorial purposes. Instead, it was developed to capture the essence of the national cargo theft problem in the United States. The legal elements of knowledge and intent were intentionally omitted.

Quality data concerning cargo theft can help us better understand this crime and the threats associated with it. As more agencies choose to report their incidents, the FBI’s UCR Program will be able to provide more information about cargo theft on a national scale. For additional information on the FBI UCR Program’s collection of cargo theft incidents, visit <https://www.fbi.gov/about-us/cjis/ucr/ucr-program-data-collections>.

Under the umbrella of the FBI’s UCR Program, cargo theft data has traditionally been released on FBI.gov on the UCR Publications webpage. However, beginning in 2021, all UCR data is being released exclusively on the FBI’s Crime Data Explorer (CDE) website where data users can access and sort a variety of data. The content of the CDE comes from data collections such as Law Enforcement Officers Killed and Assaulted, Hate Crime Statistics, the National Incident-Based Reporting System, and National Use-of-Force. UCR data from previous years will also be accessible on the CDE. Cargo Theft reports from previous years can be accessed at <https://ucr.fbi.gov/crime-in-the-u.s> in *Crime in the United States* publications.

**The following Cargo Theft tables are available as part of this compressed file download:**

Table 1  
Cargo Theft by State  
by Incidents, and Stolen, Recovered Values, 2023

Table 2  
Cargo Theft Property Stolen and Recovered  
by Type and Value, 2023

Table 3  
Cargo Theft by Location, 2023

Table 4  
Cargo Theft by Victim Type, 2023

Table 5  
Cargo Theft by Offense, 2023

## Data Declarations and Methodology

### **Table 1 Cargo Theft by State by Incidents, and Stolen, Recovered Values, 2023**

The FBI collects these data through the Uniform Crime Reporting Program's Summary Reporting System and National Incident-Based Reporting System.

#### **General comment**

This table presents by state the total number of agencies that submitted data about cargo theft incidents, the number of incidents reported, the reported value of stolen property, and the value of recovered property. The table also lists the percentage of recovered value for each submitting state.

Due to technical system changes and data quality issues, some cargo theft data may be inflated.

#### **Methodology**

The data used in creating this table were from all law enforcement agencies submitting one or more cargo theft incidents for at least 1 month of the calendar year. The published data, therefore, do not necessarily represent reports from each participating agency for all 12 months of the calendar year.

---

---

### **Table 2 Cargo Theft Property Stolen and Recovered by Type and Value, 2023**

The FBI collects these data through the Uniform Crime Reporting (UCR) Program's Summary Reporting System and National Incident-Based Reporting System.

#### **General comment**

The value of stolen and recovered property, and the percentage of recovered value of each property type is reflected within this table.

Due to technical system changes and data quality issues, some cargo theft data may be inflated.

Note: Based on UCR guidelines, the property descriptions of credit/debit cards, nonnegotiable instruments, documents/personal or business, and identity-intangible, must be submitted with zero value for stolen and/or recovered.

#### **Methodology**

The data used in creating this table were from all law enforcement agencies submitting one or more cargo theft incidents for at least 1 month of the calendar year. The published data, therefore, do not necessarily represent reports from each participating agency for all 12 months of the calendar year.

---

---

### **Table 3** **Cargo Theft by Location, 2023**

The FBI collects these data through the Uniform Crime Reporting (UCR) Program's Summary Reporting System and National Incident-Based Reporting System (NIBRS).

#### **General comment**

**Cargo theft** is the criminal taking of any cargo including, but not limited to, goods, chattels, money, or baggage that constitutes, in whole or in part, a commercial shipment of freight moving in commerce, from any pipeline system, railroad car, motor truck, or other vehicle, or from any tank or storage facility, station house, platform, or depot, or from any vessel or wharf, or from any aircraft, air terminal, airport, aircraft terminal or air navigation facility, or from any intermodal container, intermodal chassis, trailer, container freight station, warehouse, freight distribution facility, or freight consolidation facility. For purposes of this definition, cargo shall be deemed as moving in commerce at all points between the point of origin and the final destination, regardless of any temporary stop while awaiting transshipment or otherwise.

This table presents the number of location types reported in cargo theft incidents.

Due to technical system changes and data quality issues, some cargo theft data may be inflated.

Note: In NIBRS, a location may be entered for each offense; therefore, an incident may have more than one location code reported.

#### **Methodology**

The data used in creating this table were from all law enforcement agencies submitting one or more cargo theft incidents for at least 1 month of the calendar year. The published data, therefore, do not necessarily represent reports from each participating agency for all 12 months of the calendar year.

To arrive at the totals provided, the UCR Program counted one for each offense location reported in an incident.

---

---

### **Table 4** **Cargo Theft by Victim Type, 2023**

The FBI collects these data through the Uniform Crime Reporting (UCR) Program's Summary Reporting System and National Incident-Based Reporting System.

#### **General comment**

This table presents the number of victim types in each of the cargo theft incidents reported to the FBI. The victim of a cargo theft may be an individual, a business, an institution, or society as a whole.

Due to technical system changes and data quality issues, some cargo theft data may be inflated.

#### **Methodology**

The data used in creating this table were from all law enforcement agencies submitting one or more cargo theft incidents for at least 1 month of the calendar year. The published data, therefore, do not necessarily represent reports from each participating agency for all 12 months of the calendar year.

To arrive at the totals provided, the UCR Program counted one for each victim type reported in an incident.

---

---

## **Table 5**

### **Cargo Theft by Offense, 2023**

The FBI collects these data through the Uniform Crime Reporting (UCR) Program's Summary Reporting System and National Incident-Based Reporting System.

#### **General comment**

**Cargo theft** is the criminal taking of any cargo including, but not limited to, goods, chattels, money, or baggage that constitutes, in whole or in part, a commercial shipment of freight moving in commerce, from any pipeline system, railroad car, motor truck, or other vehicle, or from any tank or storage facility, station house, platform, or depot, or from any vessel or wharf, or from any aircraft, air terminal, airport, aircraft terminal or air navigation facility, or from any intermodal container, intermodal chassis, trailer, container freight station, warehouse, freight distribution facility, or freight consolidation facility. For purposes of this definition, cargo shall be deemed as moving in commerce at all points between the point of origin and the final destination, regardless of any temporary stop while awaiting transshipment or otherwise.

Because cargo theft is defined as “the criminal **taking of** any cargo . . .,” specific crimes against property apply to cargo theft. The applicable crimes against property include:

- 120 = Robbery
- 23D = Theft from building
- 23F = Theft from motor vehicle
- 23H = All other larceny
- 26A = False pretenses, swindle, confidence game
- 26B = Credit card, automatic teller machine fraud
- 26C = Impersonation
- 26E = Wire fraud
- 26F = Identity theft
- 26G = Hacking, computer invasion
- 210 = Extortion, blackmail
- 220 = Burglary, breaking & entering
- 240 = Motor vehicle theft
- 270 = Embezzlement
- 510 = Bribery

In addition, cargo theft is not considered an offense by itself; all offenses that happen within a cargo theft incident are to be reported. Cargo theft data are derived by capturing the additional element of “theft of cargo” in incidents that contain any of the applicable offenses.

This table shows the number of offenses specific to cargo theft and the number of additional offenses reported within a verified cargo theft incident.

Due to technical system changes and data quality issues, some cargo theft data may be inflated.

**Methodology**

The data used in creating this table were from all law enforcement agencies submitting one or more cargo theft incidents for at least 1 month of the calendar year. The published data, therefore, do not necessarily represent reports from each participating agency for all 12 months of the calendar year.

To arrive at the totals provided, the UCR Program counted one offense for each offense type reported in an incident.

## ***Human Trafficking, 2023***

*Human Trafficking, 2023*, is the tenth report from the FBI Uniform Crime Reporting (UCR) Program's Human Trafficking data collection. Fifty (50) states and the U.S. territories of Guam and Puerto Rico participated. The 2023 report shows a total of 3,244 incidents of human trafficking were reported: 2,486 were in the category of commercial sex acts, and 751 were instances of involuntary servitude. (Puerto Rico submitted seven incidents in the Total column and did not specify whether those incidents were under the category of commercial sex acts or involuntary servitude.) Agencies arrested 658 offenders in correlation with these incidents. Of these, 596 were adults and 62 were juveniles.

### **Participation**

Since its inception in 2013, the FBI's Human Trafficking data collection has seen a steady increase in state participation as well as an increase in the number of incidents reported. The program will continue efforts to expand, gather, and make available information regarding human trafficking incidents.

### **Trafficking Victims Protection Act**

In January 2013, as authorized by the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008, the FBI UCR Program began collecting offense and arrest data regarding human trafficking. The act requires the FBI to collect human trafficking offense data and to make distinctions between prostitution, assisting or promoting prostitution, and purchasing prostitution.

To comply with the Wilberforce Act, the FBI UCR Program created two additional offenses in the Summary Reporting System (SRS) and the National Incident-Based Reporting System (NIBRS) through which the FBI UCR Program collects both offense and arrest data. The definitions for these offenses are:

**Human Trafficking/Commercial Sex Acts:** inducing a person by force, fraud, or coercion to participate in commercial sex acts, or in which the person induced to perform such act(s) has not attained 18 years of age.

**Human Trafficking/Involuntary Servitude:** obtaining of a person(s) through recruitment, harboring, transportation, or provision, and subjecting such persons by force, fraud, or coercion into involuntary servitude, peonage, debt bondage, or slavery (not to include commercial sex acts).

The data tables included in this report reflect the offenses and arrests recorded by state and local law enforcement agencies that currently have the ability to report the data to the FBI UCR Program. As such, they should not be interpreted as a definitive statement of the level or characteristics of human trafficking in the nation as a whole. The data declaration pages, which will help the user better understand the data, and the methodology used for the four following tables are located in the *Data Declarations and Methodology* section of this report. In addition, a Questions and Answers section about human trafficking data is provided as a supplement to this report.

Under the umbrella of the FBI's Uniform Crime Reporting (UCR) Program, human trafficking data has traditionally been released on FBI.gov on the UCR Publications webpage. However, beginning in 2021, all UCR data is being released exclusively on the FBI's Crime Data Explorer (CDE) website, where data

users can access and sort a variety of data. The content of the CDE comes from data collections such as Law Enforcement Officers Killed and Assaulted, Hate Crime Statistics, the National Incident-Based Reporting System, and National Use-of-Force. UCR data from previous years will also be accessible on the CDE. Human Trafficking reports from previous years can also be accessed at <https://ucr.fbi.gov/crime-in-the-u.s> in *Crime in the United States* publications.

*Note: Regarding the data reported to the FBI UCR Program, it is important to note that these data represent only one view of a complex issue—the law enforcement perspective. However, due to the nature of human trafficking, many of these crimes are never reported to the local, state, tribal, and federal law enforcement agencies that investigate them. In addition to the law enforcement facet in fighting these crimes, there are victim service organizations whose mission it is to serve the needs of the victims of human trafficking. In order to have the complete picture of human trafficking, it would be necessary to gather information from all these sources.*

**The following Human Trafficking tables are available as part of this compressed file download:**

Table 1  
Human Trafficking  
Offenses and Clearances by State, 2023

Human Trafficking Arrests  
by Ethnicity by State, 2023

# Data Declarations and Methodology

## Human Trafficking Table 1

Offenses and Clearances by State, 2023

The FBI collects these data through the Uniform Crime Reporting (UCR) Program's Summary Reporting System and National Incident-Based Reporting System.

### General Comment

This table includes the states that have added human trafficking offenses to their data collection. Even though a state program included human trafficking, the individual agencies in that state may or may not have added it to their collections. Each law enforcement agency is responsible for reporting its crime data directly to the FBI.

This table provides the volume of human trafficking offenses as reported by state. For UCR purposes, juveniles are individuals under the age of 18 years. Adults are 18 years of age or older.

### Methodology

The data used in creating this table were from law enforcement agencies submitting one or more human trafficking incidents for at least 1 month of the calendar year. Also included are zero incident data for states that have incorporated human trafficking offenses in their data collection where no 2023 human trafficking incidents were reported to the FBI's UCR Program.

The published data, therefore, do not necessarily represent reports from each participating agency for all 12 months of the calendar year. When the FBI determines an agency's data collection methodology does not comply with national UCR guidelines, the figure(s) for that agency's offense(s) will not be included in the table, and the discrepancy will be explained in a footnote.

---

---

## Human Trafficking Table 2

by Age by State, 2023

The FBI collects these data through the Uniform Crime Reporting (UCR) Program's Summary Reporting System and National Incident-Based Reporting System.

### General Comment

This table provides the number of juvenile and adult male and female persons arrested for human trafficking offenses by state in 2023. These data represent the number of persons arrested; however, some persons may be arrested more than once during a year. Therefore, the statistic in this table could, in some cases, represent multiple arrests of the same person. For UCR purposes, juveniles are individuals under the age of 18 years. Adults are 18 years of age and older.

### Methodology

The data used in creating this table were from law enforcement agencies submitting one or more human trafficking arrests for at least 1 month of the calendar year. The published data, therefore, do not necessarily represent reports from each participating agency for all 12 months of the calendar year.

---

---

### **Human Trafficking Table 3**

by Race by State, 2023

The FBI collects these data through the Uniform Crime Reporting (UCR) Program's Summary Reporting System and National Incident-Based Reporting System.

#### **General Comment**

This table provides the number of persons arrested for human trafficking offenses by state in 2023 broken down by race of the arrestee. These data represent the number of persons arrested; however, some persons may be arrested more than once during a year. Therefore, the statistics in this table could, in some cases, represent multiple arrests of the same person. For UCR purposes, juveniles are under the age of 18 years. Adults are 18 years of age and older.

#### **Methodology**

The data used in creating this table were from law enforcement agencies submitting one or more human trafficking arrests for at least 1 month of the calendar year. The published data, therefore, do not necessarily represent reports from each participating agency for all 12 months of the calendar year.

---

---

### **Human Trafficking Table 4**

by Ethnicity by State, 2023

The FBI collects these data through the Uniform Crime Reporting (UCR) Program's Summary Reporting System and National Incident-Based Reporting System.

#### **General Comment**

This table provides the number of persons arrested for human trafficking offenses by state in 2023 broken down by ethnicity of the arrestee. These data represent the number of persons arrested; however, some persons may be arrested more than once during a year. Therefore, the statistics in this table could, in some cases, represent multiple arrests of the same person. For UCR purposes, juveniles are individuals under the age of 18 years. Adults are 18 years of age and older.

#### **Methodology**

The data used in creating this table were from law enforcement agencies submitting one or more human trafficking arrests for at least 1 month of the calendar year. The published data, therefore, do not necessarily represent reports from each participating agency for all 12 months of the calendar year.

# *Human Trafficking, 2023*

## Questions and Answers

**Q:** How long has human trafficking data been collected?

**A:** The Uniform Crime Reporting (UCR) Program began collecting human trafficking data in January 2013.

**Q:** What does it mean for an offense to be cleared?

**A:** An offense can be cleared by arrest or exceptional means.

An offense is cleared by arrest, or solved for crime reporting purposes, when at least one person is (1) arrested, (2) charged with the commission of the offense, and (3) turned over to the court for prosecution.

If an agency can answer all the following questions in the affirmative, it can clear the offense exceptionally.

1. Has the investigation definitely established the identity of the offender?
2. Is there enough information to support an arrest, charge, and turning over to the court for prosecution?
3. Is the exact location of the offender known so that the subject could be taken into custody now?
4. Is there some reason outside law enforcement control that precludes arresting, charging, and prosecuting the offender?

Generally, an offense can be exceptionally cleared when it falls into one of the following categories. (This list is not all-inclusive.)

1. Death of the offender.
2. Offender is prosecuted by state or local authorities in another city for a different offense or is prosecuted in another city or state by the federal government for an offense which may be the same.
3. Extradition denied/In the custody of other jurisdiction.
4. The handling of a juvenile offender—either orally or by written notice to parents—in instances involving minor offenses such as petty larceny.
5. Prosecution denied (for other than the lack of probable cause).

Although agencies may administratively close a case, this does not necessarily mean that the agency can clear the offense for UCR purposes.

**Q:** Were agencies that submitted less than 12 months of data included in the human trafficking report?

**A:** Yes, all submissions were included.

**Q:** What is the cutoff age for juveniles and adults?

**A:** For UCR purposes, juveniles are individuals under the age of 18 years. Adults are 18 years of age and older.

**Q:** What is the difference between the Summary Reporting System (SRS) and the National Incident-Based Reporting System (NIBRS) collections?

**A:** The FBI's UCR Program administers two data collections—the SRS and NIBRS. The general concepts for collecting, scoring, and reporting UCR data are applicable to both the SRS and NIBRS. Both

systems collect information on crimes reported to law enforcement or crimes law enforcement have witnessed and include reports in which no one was arrested.

The SRS provides monthly reports on ten Part I offenses known to law enforcement and reports on persons arrested. The Part I offenses of murder, rape, robbery, aggravated assault, human trafficking—commercial sex acts, human trafficking—involuntary servitude, burglary, motor vehicle theft, larceny-theft, and arson are considered indicators of the level of crime occurring within the United States. Data are collected at the aggregate level and lack incident-level details for crimes other than homicide. Within the SRS, the Hierarchy Rule governs multiple offense reporting. When more than one crime was committed by the same person or group of persons and the time and space intervals separating the crimes were insignificant, then the crime highest in the hierarchy is the only offense reported.

NIBRS is a more detail-oriented crime data collection system that captures specific elements about crimes and offenders through incident-based reporting. These details include information such as the date, time, location, and circumstance of the criminal incident; the characteristics of the victim and offender (such as the age, sex, race, and ethnicity); victim/offender relationship; the involvement of weapons or drugs; property loss; whether the crime was motivated by bias; or if a computer was used to perpetuate certain types of crimes.

**Q:** What are the benefits of NIBRS?

**A:** NIBRS provides a more comprehensive view of crime in the United States and offers greater flexibility in data compilation and analysis. When used to its full potential, NIBRS provides greater detail about when and where a crime occurred, what form it took, and the characteristics of its victims and offenders. Because it provides a broader depiction of the data, NIBRS provides law enforcement agencies with more exact information with which to address the concerns of its constituency regarding crime in their communities and to allocate resources. Likewise, legislators, municipal planners/administrators, academicians, sociologists, advocacy groups, and the public are provided with access to more extensive crime information than the SRS can offer. The data allow a better opportunity to study crime and criminal behavior.

The FBI intends for NIBRS to become the law enforcement community's standard for quantifying crime. Efforts are underway to assist states not yet certified as NIBRS contributors and expand NIBRS' ability to provide national crime data management standards and services to inform, educate, and strengthen communities through the UCR Program.

On January 1, 2021, the FBI's Uniform Crime Reporting (UCR) Program transitioned to a National Incident-Based Reporting System (NIBRS) only data collection. Since the transition, the FBI's UCR Program has worked diligently to offer resources such as programming and technical support, training, and outreach to law enforcement agencies. Despite more than 11,500 law enforcement agencies submitting NIBRS data, participation for 2021 remained below a statistically acceptable level to be nationally representative. For the 2022 and 2023 data years, to provide nationally representative data, the FBI accepted Summary Reporting System data submissions from non-transitioned agencies.

**Table 1****Human Trafficking**

## Offenses and Clearances by State, 2023

State	Commercial sex acts			Involuntary servitude			Total
